NOTIFICATION.

The 27th June 1877.—The following bye-laws, framed by the Municipal Commissioners of Rajshahye at a meeting, under Section 313 of Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information :—

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer, at the time of demanding payment, shall be bound to show this certificate if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any human being may die shall, within 12 hours of the death, either remove the body at his own expense to such burning or burial ground as may be fixed by the Municipal Commissioners for the burning or burial of such body, or notify the death to the conservancy overseer, and in such latter case shall pay to the overseer the expense of removing the body at such rate as the Commissioners may from time to time determine.

7. Every person within whose premises any animal may die shall, within four hours of its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

8. No person shall deposit, or cause to be deposited, any carcass or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

For the Regulation and Management of Privies.

9. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

10. Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice, Rs. 20.

11. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

12. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature described in bye-law 10.

Penalty for infringement, Rs. 20.

13. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

14. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

15. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

16. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, Rs. 5.

17. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

For Regulating or Prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the vicinity of Public Roads.

18. No one shall let off any fire-balloon, fire-work, fire-arm, or any missile in or near any public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10.

General Bye-laws.

19. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare; and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement, Rs. 5.

20. No person shall construct, or place over, or by the side of any public drain any bridge, platform, building, or structure of any kind, except by and with the written permission of the Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 8 daily.

21. If any house, wall, or other erection, or any part thereof, fall upon any public highway, or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

22. No person shall prepare any channel, or convey water by any channel across any public thoroughfare except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

23. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river khal, tank, or ditch, offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

24. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course; and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 4 daily.

25. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

26. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

27. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, Rs. 10.

28. No person shall bury, or cause to be buried, in any burial ground, any corpse, or part of a corpse, in a grave not constructed of masonry, which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

29. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

30. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

31. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

32. No person shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

33. No person shall picket animals or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement, Rs. 10.

34. No person shall tether or graze ponies, cattle, goats, or other animals, or cause them to be tethered, or cause or allow them to stray on any public ground or highway except with the permission of the Commissioners.

Penalty for infringement, Rs. 5.

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of service of the requisition in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall after warning continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold and delivery of the property shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall, in such case, be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners, whose services may be no longer required, shall be liable to discharge after receipt of previous notice, or pay in advance, for the period of one month; and no such person shall withdraw from the duty of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to any office under the Commissioners, shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or if death occurs at night, within two hours after day-light, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

For the Regulation and Management of Privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises for the removal of any night-soil or filth within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

9. Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice, Rs. 20.

10. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises, in or on which any well, privy, or other noxious or improperly constructed privy may be situated, shall fill up, close; or otherwise alter the construction of the said privy as may be directed in the notice, and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

11. No owner or occupier of any house, land, or premises, in or on which a privy may be situated, shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature described in bye-law 9.

Penalty for infringement, Rs. 20.

12. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cess-pool, into any river, tank, khall, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

13. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease, provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

HIGH COURT NOTICES.

Circular Orders issued by Authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 11, *dated the 7th June* 1877.

IN continuation of Circular Order No. 21, dated 18th August 1873, the Court is pleased to prescribe, for general adoption in all civil courts subject to its control, the accompanying form of Sale Account. This form will be filled up by the Nazir or other officer holding the sale in all cases, and will be presented by him at the close of the day to the presiding officer of the court in which the sale has been held.

2. The provisions of the Civil Procedure Code make it necessary that cash should sometimes be received by the Nazir, even where sales are held at head-quarters where there is a treasury. It is therefore very important that the courts should see that the cash so received is duly forwarded to the treasury and credited in account, and it is the object of the list now prescribed to bring to the notice of the courts all such cash transactions, with a view to their satisfying themselves as to the regular and immediate disposal of the sale proceeds.

SALE ACCOUNT.

No. of lot.	Amount of last bid or at which the lot is knocked down.	Name of purchaser.	Amount of earnest money.	Date of remittance to Treasury, as per Pass Book or Advice.	Amount of purchase money.	Date of payment into Treasury, as per Advice or Pass Book.	REMARKS.

GENERAL LETTER No. 12.

TO ALL DISTRICT JUDGES.

Dated Calcutta, the 11*th June* 1877.

SIR,

HIGH COURT.
ENGLISH DEPARTMENT.
Civil.

A SUGGESTION has been made to the High Court that custody fees for guarding articles under attachment, leviable under the rules framed by the Court under the Court Fees Act, should be realised in cash and not in stamps, and that they should be adjusted through the subsidiary cash-book for diet-money, &c., prescribed in the new account rules, thus obviating the necessity for any special rules for refunds of stamp value.

2. The proposed arrangement would be convenient; but a difficulty arises from the wording of section 25, Act VII of 1870,—"all fees referred to in section 3, or chargeable under this Act, shall be collected by stamps."

3. The course which the court, after consulting the Accountant-General, Bengal, is pleased to prescribe for adoption is that the Moonsiff or other Judge shall in such cases give to the person entitled to a refund a certificate payable out of the cash in the hands of the Court and debitable in the treasury accounts to Stamp Revenue. This plan will, it is true, render the returns of income from court fees inaccurate to a certain extent; but as under any adjustment the refunds would introduce a disturbing element into the accounts the Court considers that the proposed plan may be adopted with advantage.

I have the honor to be,

SIR,

Your most obedient servant,

J. CRAWFURD,
Offg. Registrar.

Sheriff's Office, the 6th June 1877.

NOTICE is hereby given that the Sixth Criminal Sessions of the year 1877, of the High Court of Judicature at Fort William in Bengal for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-house, in the Town of Calcutta, on Thursday, the Fifth day of July next, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. No. 9.—The following Notice to Mariners is published for general information :—

NOTICE TO MARINERS.

BAY OF BENGAL, BRITISH BURMA.

Rock off Pegu Coast.

Information has been received from Mr. John Robson, Master of the Ship *Inch Marnock*, of the existence of a rock on which that vessel struck on the 27th April last, whilst off the Coast of Pegu, on her passage from Bombay to Rangoon.

The rock has a depth of 9 feet on it at low-water spring tides, and within a distance of 100 yards from it is a depth of 12 fathoms.

This danger is not laid down on any of the Admiralty Charts, and as the Coast is very imperfectly known, great caution is necessary whilst navigating in this neighbourhood.

Position as given :—latitude 16° 43′ 50″ N., longitude 94° 12′ 25″ E.

No. 1656*G.*—*The 21st June* 1877.—*General.*—The following extract from the *London Gazette*, dated Tuesday, the 15th of May 1877, is published for general information :—

Foreign Office, May 14th, 1877.

The Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs, has received the following note from His Excellency Musurus Pasha, Turkish Ambassador at the Court of St. James's, forwarding copies of three Notifications issued by the Sublime Porte relative to the passage of vessels through the Dardanelles and Bosphorus, and the navigation of the Danube :—

(Translation.)

Imperial Ottoman Embassy.

MY LORD, *London, 12th May* 1877.

I have the honor to transmit herewith to Your Excellency copies—

1. Of the official notification relative to the measures which are to be strictly observed at the entrance of the Straits of the Dardanelles and the Bosphorus until the re-establishment of peace;

2. Of the Sublime Porte's decision relative to Russian vessels actually in the ports of the Ottoman Empire, and to neutral commerce; and

3. Of the instructions given to His Excellency the Serdar Ekrem as to the measures which he is authorized to take on the Danube in view of military operations.

His Excellency
The Earl of Derby.

I have, &c.,
(Signed) MUSURUS.

Sublime Porte.

OFFICIAL NOTIFICATION.

In consideration of the state of war, the Imperial Government has decreed the following measures which will be strictly observed from the 29th of April 1877, until the re-establishment of peace :—

1. The passage of the Straits of the Dardanelles and of the Bosphorus is forbidden during the night to all steam-ships of sailing vessels either entering or leaving, without distinction or exception, that is to say, before sunrise and after sunset.

2. The lights in the Straits will be extinguished with the exception of those of the two great light-houses placed at the entrance of the Bosphorus at the Black Sea (Roumeli and Anatoli Fénéri) and of the two light-houses of Sedal Bahr and of Koumkalé, in the Straits of the Dardanelles.

These four lights may also be extinguished by order of the Military Commanders.

3 The custom of firing cannon during foggy weather as an alarm signal is absolutely forbidden.

Decision of the Sublime Porte respecting Russian ships in the Ottoman Empire and the commerce of Neutrals.

Russia having declared war, the Ottoman Government has come to the following decisions :—

ART. 1. A period of five clear days, to date from the notification, on the spot, of the present decision, is accorded to the Russian ships which happened to be in the ports of the Empire on the $\frac{23}{24}$th April 1877, in order to leave the Ottoman waters. With this view a safe conduct shall be given to them, on application, by the Customs authorities to enable them to proceed to the nearest Russian or neutral port, without however authorizing them to pass through the straits from the Mediterranean into the Black Sea, or *vice versâ*.

ART. 2. The Ottoman Government declares its intention of observing the rules of maritime law laid down in the declaration signed in Paris on the 16th of April 1856, and according to which—

1. Privateering is and remains abolished.
2. The neutral flag covers enemy's goods, with the exception of contraband of war.
3. Neutral goods, with the exception of contraband of war, are not liable to capture under enemy's flag.
4. Blockades in order to be binding must be effective, that is to say, maintained by a force sufficient really to prevent access to the coast of the enemy.

ART. 3. In order to stop contraband of war the Ottoman Government will exercise the right of visit on the high seas as well as in Ottoman waters, and during the passage through the straits of neutral ships bound for a Russian port or for a part of the coast occupied by the enemy, or even, in case of suspicion, for an Ottoman or neutral port.

ART. 4. The measures consequent on this decision shall immediately come into effect. It shall be notified to all persons interested by an official communication, addressed to the foreign representatives resident at Constantinople, by publication in the official journal of the Empire by telegram sent to the capitals of the vilayets.

Sublime Porte, $\frac{\text{April } 19}{\text{May } 1}$, 1877.

Sublime Porte.

Instructions given to His Excellency the Serdar Ekrem.

$\frac{17}{29}$th *April* 1877.

The Danube being considered a line of defence, the rules relating to the commerce of neutrals at sea cannot be applied to it. Consequently, the commander of the forces is at liberty to take such measures as he may think expedient for military operations. He has especially the right of stopping navigation, of detaining and requisitioning ships, subject to an idemnity, of obliging them to leave the ports, of assigning to them ports of refuge, all under the severest penalties, such as the confiscation of the ship and cargo, and, if necessary, by the application to them of the regulations relating to spies. He is, in short, authorized to issue on this point such proclamations as he may deem necessary, provided that the measures which he may take are really dictated by the necessities of war, and also provided that, in case of confiscation, he shall refer the matter to a Special Council, which shall be appointed beforehand, and whose duty it will be to give sentence as far as possible in due form.

As regards ships which shall have been detained before the formal proclamation of these measures, and which consequently cannot be considered to have infringed the orders of the Ottoman commander, their cargoes cannot be confiscated, for if they belong to Ottoman or neutral subjects they have incurred no penalty. If they belong to Russian subjects, since the Government has not admitted the right of embargo or the confiscation of the goods of Russian subjects in general, this measure should not be exceptionally applied to those which happen to be on the Danube.

The Government is under no circumstances responsible for the losses which the shippers, the proprietors of cargoes or other interested parties may incur, from the fact that the ship has been prevented from continuing its voyage, this being the result of the necessities of war, and of the dangers to which the ship and crew would be exposed by an infringement of these rules.

In every case contraband of war is liable to seizure, and involves the confiscation of the ship and all the cargo.

The Tribunal charged to pronounce judgment will decide whether or not there is contraband of war.

Appeals against the judgments of the Tribunal in question will not have the effect of suspending proceedings; they should be brought immediately, and in the last resort, before the Court of Cassation at Constantinople.

The Commandant will be careful to inform the Foreign Consulates of the measures which he has taken with the above view, to publish them and notify them on the spot, and to telegraph them immediately to Constantinople.

No. 1660*G.*—Under Section 8 of Act XV of 1872 [the Indian Christian Marriage Act, 1872], the Governor-General in Council is pleased to appoint the Revd. G. Macalister to be a Marriage Registrar in respect of all places within the territory of His Highness the Maharajah of Jeypore, and to grant him a license under Section 9 of the said Act, authorizing him to grant certificates of marriage between Native Christians.

The following orders, issued by the Government of India, in the Financial Department, are republished for general information :—

No. 1150.—*Simla, the 9th June* 1877.—*Notifications.—Separate Revenue—Stamps.*—In exercise of the powers conferred by Section 16 of the General Stamp Act, 1869, the Governor-General in Council is pleased to remit the duties chargeable under the said Act on tenders for any portion of the loan advertised in the *Gazette of India* Extraordinary of the 7th June 1877.

No. 1480.—*The 22nd June* 1877.—*Pensions, Gratuities, &c.*—The Governor-General in Council directs the publication of the following Addenda and Corrigenda to the Codes of the Financial Department :—

CIVIL PENSION CODE.

(*Section* 85, *page* 47.)

INSERT THE FOLLOWING NOTES UNDER THIS SECTION :—

Note. (1). This Rule applies to ordinary not to special cases. If, under special circumstances, a pension is granted long after an officer has retired, retrospective effect should not be given to it, without the special orders of the Government granting it, in the absence of which special orders, such a pension will take effect only from the date of sanction.

(2). With reference to Section 92 of this Code, a pension should, under no circumstances, be paid for the first time, in arrears for more than six months, without the special orders of the Local Government.

ACTING ALLOWANCE CODE.

Section 2(*b*) (*page* 224).

INSERT THE FOLLOWING AS *Example* (2) :—

Example (2). The acting allowance of an officer officiating in an appointment the pay of which has been reduced with effect from the next succession thereto, is calculated upon the reduced pay.

The Indian Law Reports.

Published under Authority of the Governor-General in Council.

THE Reports appear in monthly parts, published as soon as possible after the first of each month at Calcutta, Madras, Bombay, and Allahabad, and will comprise four series,—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases heard by the Privy Council on appeal from each High Court will be reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court will be reported in the Calcutta Series.

The Parts of each Series can be had separately, or all four Parts can be had stitched into one wrapper at the option of subscribers and purchasers. It will be observed from the following statement of the terms of subscription and sale, that a considerable reduction is allowed to persons taking the complete set.

Terms of subscription, payable annually in advance.

GOVERNMENT OF INDIA.

FINANCIAL DEPARTMENT.

ACCOUNTS.

Simla, the 18th June 1877.

READ again—

The orders in this department, No. 3687, dated 30th September 1875, directing the several Account Officers to report immediately to the Government of India, as well as to the Local Government concerned, the occurrence of any default in the payment of interest upon any loan made from public funds in accordance with the provisions of any law or otherwise, and also any failure in the stipulated repayment of the capital of the loan.

RESOLUTION.—The Governor-General in Council requests that, upon receipt from the Accountant-General of a report of a default at the due date in the payment of interest or the repayment of any principal sum to the Government, the Local Government will address to the Home or Revenue Department of the Government of India, as the case may be, a despatch explaining, so far as it knows them, the reasons for the default, and the steps which have been taken to remedy it.

2. His Excellency in Council at the same time directs that interest at six per cent. be charged upon such overdue instalments, except in cases in which this rate of interest is barred by the terms of any now existing Agreement applicable to the case. Such special cases should, however, be separately reported for the orders of the Government of India.

ORDERED, that this Resolution be communicated to the Home Department for information.

Ordered also, that this Resolution be communicated for information and guidance as follows:—

To the several Local Governments and Administrations;

To the Comptroller-General;

To the several Accountants-General and Deputy Accountants-General in independent charge.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different District of Bengal, as reported to Government during the week ending the 30*th June* 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
Burdwan Divn. 1	Burdwan, July 2*/77	1·2	The rainfall at Culna has been 4·90 inches, at Cutwa 3 22 inches, at Jehanabad 5 43 inches, at Raneegunge 4·96 inches, and at Bood-Bood 2·82 inches. *Aous* paddy, sugarcane, and jute are doing well. Transplantation of the seedlings of *amun* paddy has begun. Fever is prevalent.
2	Bankoora, June 30 „	3 73	Weather—Rainy during the early part of the week; now clear. Indigo is doing well, and the state and prospects of other crops are very favourable.
3	Beerbhoom, „ 30 „	2·96	Weather—Rainy up to 27th June; since set fair. There has been sufficient rain to forward the young rice now above ground, and to prevent it from being withered; but more is wanted soon.
4	Midnapore, „ 30 „	5·63	The rainfall in the west and north of the district has been heavier than in the east and south. From Tumlook insufficient rain is reported. Generally the rain has been sufficient for the crops, and the prospects are good. The Cossye river has been in three-fourth flood, and has made a breach at precisely the same spot as in the last year, *i.e.* south of Panchkoora.
5	Hooghly, „ 30 „	1·72	Weather—Hot, with rain and sunshine. *Aous* seedlings are being transplanted in places. Sowing and transplantation of *amun* are still going on. All other crops on the ground are doing well. Public health is good. Cattle disease still prevails in one village in thana Bullagur.
	Howrah, „ 30 „	·78	Weather—Very hot; damp, with very little rain. State and prospects of the crops continue to be very good.
	Central Districts.		
Presidency Divn. 6	24-Pergunnahs, July 2 †/77	1·51	Weather—Warm and cloudy with occasional showers. The prospects of the jute and early rice crops seem to be good. Public health is generally good.
7	Nuddea, June 30 „	2 54	Weather—Generally cool with frequent showers. No rain on Friday and Saturday. The rice crops are most promising. Indigo and jute also have derived much benefit from the seasonable weather.
8	Jessore, „ 30 „	1·38	Weather—Rainy. The rain has done good to the rice crops, but has not been quite heavy enough for indigo. The prospects, however, are good.
9	Moorshedabad, „ 30 „	1·58	Weather—Seasonable. The crops have derived great benefit from the rains, but more is wanted, particularly in the Jungypore sub-division. The prospects are so far good.
Rajshahye and Cooch Behar Divn. 10	Dinagepore, „ 29 „	2 11	Weather—Cool and cloudy with intervals of great heat. Wind generally from the east. ·15 of an inch of rain registered at Roygunge. *Bhadoi* rice, jute, and sugarcane are all doing particularly well. There are still some cases of cholera in the district.
11	Rajshahye, „ 30 „	1·04	There has been more or less rain daily throughout the district. The prospects of the rice and jute crops are good. Lands are being prepared for transplanting the rice seedlings.
12	Rungpore, „ 29 „	1·71	Weather—Hot and close, sometimes relieved by a strong easterly wind. 2·50 inches of rain registered at Kurigram and 1·73 inches at Gaibanda. There was sufficient rain for the paddy, and jute and indigo have improved by the slight intermission. Public health on the whole is good, except that fever is somewhat prevalent. The number of small-pox cases has decreased.
13	Bogra „ 30 „	2·02	Weather—Very hot and cloudy. *Aous* rice, sugarcane, and *kaon* millet are doing well. The rain which has fallen during the week will greatly benefit these crops. Jute and *til* oilseed are being cut, and a good outturn is expected.
14	Pubna, „ 30 „	1·87	Weather—Hot and rainy. The harvesting of *toli dhan* has commenced, and the outturn appears to be favorable. The sowing of *aous* and *amun dhan* is almost finished. Cholera has entirely disappeared, but fever is somewhat prevalent.

* Telegram of the 2nd July shows rainfall during the seven days immediately preceding.

† Report of the 2nd July shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.—(*Continued.*)		
	Central Districts.		
Rajshahye and Cooch Behar Divn. 15	Darjeeling	.....	Return not received.
Rajshahye and Cooch Behar Divn. 16	Julpigoree, June 30 '77	1·11	Weather—Very oppressive. The condition of the *bhadoi* crops is excellent throughout the district, except in places where rain has been excessive. *Haimanti* paddy is being transplanted. Jute is doing well in Fallacotta, but is slightly backward in Julpigoree.
Rajshahye and Cooch Behar Divn.	Cooch Behar, „ 28 „	2·33	Weather—Occasional showers, but very hot throughout the day. The weather is abnormal, but is apparently healthy, as no epidemic has appeared. 3·74 inches of rain registered at Dinhatta, and 3·22 inches at Mekligunge No rain has fallen at Mathabhanga. The rainfall for the month of June up to the date of report is more than 70 per cent. under the average. The outturn of *bittri dhan* and other early crops will be satisfactory, but unless there be heavy rain soon the *amun* crop must suffer. This is the time for planting out, but without rain this cannot be done, and the seedlings will soon wither for want of sufficient moisture. Public health is very good.
	Eastern Districts.		
Dacca Divn. 17	Dacca, July 2*'77	·30	Weather—Dry and hot since 27th June. State and prospects of the crops are favourable.
Dacca Divn. 18	Furreedpore	.....	Return not received.
Dacca Divn. 19	Backergunge, June 28 „	8·06	The heavy rains of the week have rendered safe the prospects of the *aous* crop. Ploughing for the *amun* crop is going on briskly everywhere. Sporadic cases of fever and cholera still continue Disease among the cattle has appeared in four thanas; elsewhere they are healthy.
Dacca Divn. 20	Mymensingh, „ 29 „	3·75	Weather—Cooler than on the date of last report, but getting warm again. State and prospects of the crops are fair.
Dacca Divn. 21	Tipperah, „ 29 „	5·29	Weather—Seasonable. 2·04 inches of rain registered at Brahmunbariah. The prospects of winter rice are at present good. Autumn rice has not been so largely sown as usual; but what there is, is of good quantity and promises well.
Chittagong Divn. 22	Chittagong, „ 28 „	7·86	Weather—Rainy with strong wind at intervals. A heavy gale is reported to have passed over the Cox's Bazar sub-division on the night of the 21st June, but no damage was done. The prospects of *aous* crops are good. The cultivation for *amun* crops has commenced Fever is very prevalent throughout the district. A single case of small-pox reported from Cox's Bazar.
Chittagong Divn. 23	Noakholly „ 28 „	21·85	Weather—Cool The incessant heavy rain of the week has done much good to the rice crops that are forward, but those that are planted late are likely to suffer if the rain water does not soon drain off. Fever is prevalent in the district.
Chittagong Divn. 24	Chittagong Hill Tracts, „ 26 „	6·84	Weather—Seasonable. Raining throughout the week. The prospects of the *joom* crops are good. In some places Indian-corn has become fit for eating. The price of rice is very high in the local markets.
Chittagong Divn.	Hill Tipperah, „ 28 „	1·62	There were slight showers during the week. More rain is wanted. The seedlings of late rice are doing well, and land is being prepared for transplantation. All other crops look well.
	BEHAR.		
Patna Divn. 25	Patna, July 2*'77	3·22	There was heavy rain on the 1st instant The paddy sowing is now rapidly progressing. Health is generally good.
Patna Divn. 26	Gya, June 30 „	·11	Weather—Less hot than it was, the maximum reading of the thermometer in the shade being 108·1°. ·25 of an inch of rain registered at Nowada, and none at either Jehanabad or Aurungabad. *Cheena* is being reaped and cotton gathered. Sugarcane is well above ground. The *dhan* and *murwa* nurseries, and the early sowings of *makai* (4 to 6 inches above ground), suffer much from want of rain. Public health continues good.
Patna Divn. 27	Shahabad, „ 30 „	·72	Weather—Cloudy and hot. Great want of rain exists throughout the district. During the week only three-fourths of an inch fell in one shower, and that too was very local. Canals are repaired, and water is available in the irrigable area. Cholera is still bad at Sasseram.
Patna Divn. 28	Durbhunga, „ 30 „	Nil	Weather—Cloudy skies and strong easterly winds during the week, but no rain. Intense heat when the wind lulls. Agricultural operations are retarded by the drought. The *bhadoi* crops which have been sown and the *dhan* nurseries are parched, and the indigo crop is suffering. Rain is urgently wanted Cholera is still prevalent in some localities.

* Telegrams of the 2nd July show rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Continued.*)			
Patna Divn. 29	Mozufferpore, June 30 '77	Nil	Weather—Very hot with high east wind. Occasionally cloudy. Rain is much wanted for all crops, especially rice, Indian-corn, and indigo. Cholera is increasing.
Patna Divn. 30	Sarun, „ 30 „	·50	Weather—Unseasonably sultry, with east wind prevailing. The rains still hold off. ·43 of an inch registered at Sewan. *Cheena* has been harvested with fair results. Rain is now much wanted for the *bhadoi* sowings. The early sowings have not germinated well for want of sufficient moisture on the ground. Sugarcane looks well. Prices have slightly risen. Public health is good.
Patna Divn. 31	Chumparun, „ 30 „	·12	Weather—East winds prevailed throughout the week, accompanied by great and most unseasonable heat. Rain fell on the 25th June, and was more or less general throughout the district; but much more is required. The great heat of the week is burning up the indigo and other crops on the ground, and the want of sufficient rain is seriously delaying the sowing of the autumn crop. Cholera is on the increase.
Bhagulpore Divn. 32	Monghyr, „ 30 „	·8	Weather—Very hot. Rain is still threatening, but is not come. It is beginning to be looked for. ·24 of an inch registered at Jamui. Indigo manufacture is going on.
Bhagulpore Divn. 33	Bhagulpore, July 2* „	·09	Weather—Generally cooler, but at times very sultry. East wind prevailing. The crops have suffered slightly, and the agricultural operations have been retarded by the drought; but if the heavy rain which was falling at the time of report continues, all will be well. General health is good.
Bhagulpore Divn. 34	Purneah, June 30 „	·32	Weather—Very hot. ·18 of an inch of rain registered at Kissengunge. The continued drought is causing much damage to the early rice crop. Rain is also needed for indigo, jute, and all other crops.
Bhagulpore Divn. 35	Maidah, „ 30 „	·42	Weather—High winds mostly from the east, and occasional showers. The delay in the rise of the rivers is very unseasonable. Complaints are beginning to be heard in the south that *dhan* is being damaged for want of rain.
Bhagulpore Divn. 36	Sonthal Perghs, July 1 „	3·39	Weather—Rain fell in places in the early part of the week; hot sun in the latter part. 1·95 inches registered at Deoghur, 1·3 at Rajmahal, and ·08 of an inch at Godda. The rain which has fallen has done much good, but more is anxiously looked for in places, especially in Godda.
ORISSA.			
Orissa Divn. 37	Cuttack, June 30 '77	2·45	Weather—Cloudy with wind and rain in the earlier days of the week; now fair The river has risen very rapidly. The weeding of the *beali* rice is going on. The *sarud* crops are sown and the plants are thriving The rate of rice is still high. Public health is good.
Orissa Divn. 38	Pooree, „ 28 „	2 91	Weather—Cloudy and rainy. 2·82 inches registered at Khoordah. The rainfall is sufficient for the present. The sowing of the *sarud* rice crop is going on well. The miscellaneous crops at this season are sugarcane, cotton, and *mandia* (a small cereal), and these are thriving. Several cases of cholera are reported.
Orissa Divn. 39	Balasore, „ 29 „	8 92	Weather—Very wet. The young rice crop promises well, and the weeding has commenced. Public health is good.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh, June 29 '77	3·99	Weather—Seasonable. The rains have set in on Monday the 25th June, being preceded by two days' cloudy and threatening weather. So far everything promises well.
41	Lohardugga, „ 30 „	4·51	Weather—Seasonable. The rain that was wanted has come, and there can be no doubt that the monsoon rains have regularly set in. The prospects of the crops are good, as also the health of the district.
42	Singbhoom, „ 29 „	8 54	Weather—Seasonable. There has been a good deal of rain since last report, which has interfered with the progress of agricultural operations; otherwise the prospects are very favourable. The district is healthy.
43	Manbhoom, „ 30 „	6·61	Weather—Cool and seasonable. There has been abundance of rain, and the reports of the crops are favourable all round.

* Telegram of the 2nd July shows rainfall during the seven days immediately preceding.

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

RESOLUTION.

The 5th July 1877.

Read—

A letter, No. 798A., of 31st May 1877, from the Commissioners for making Improvements in the Port of Calcutta, applying for a loan of five lakhs of rupees for the purpose of constructing a new jetty to the south of No. 7 Jetty.

WHEREAS it appears probable to the Lieutenant-Governor of Bengal that the loan of five lakhs of rupees applied for ought to be granted to the Port Commissioners, it is hereby ordered that the application be published in the *Calcutta Gazette*, as required by the 5th of the rules made by the Governor-General in Council under the Public Works Loan Act of 1871, and published on the 15th October 1873.

H. J. REYNOLDS,
Secy. to the Govt. of Bengal.

No. 798A, dated Calcutta, the 31st May 1877.

From—The Commissioners for making Improvements in the Port of Calcutta,
To—The Secretary to the Government of Bengal, General Department.

WE, the undersigned Commissioners for making Improvements in the Port of Calcutt do hereby apply to His Honor the Lieutenant-Governor of Bengal for a loan to be grant us under the provisions of Act XXIV of 1871, the Public Works Loan Act. The particula to be set forth in accordance with the rules published under the aforesaid Act are here annexed.

(1) The work for the construction or repair of which the loan is required;

For the construction of a new jetty.

and an estimate of the cost thereof.

The 10th July 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE.
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF CEYLON.

NOTICE TO MARINERS.

Ceylon—South Coast.

BUOY MARKING GINDURAH ROCK.

NOTICE is hereby given that an Iron Buoy, painted red, is laid in 11 fathoms water about two cables length south of the Gindurah Rock. It is laid at this distance from the rock on account of the foul ground in its more immediate vicinity.

As the light-house at Point-de-Galle can be seen before the buoy which marks this rock, and its position can always be depended on, commanders of vessels should take it as the best mark to determine their position in making this port.

Vessels making the port from the westward or northward will, by keeping the light-house on the bearing of E. by N. ½ N., pass about two miles south of the Gindurah Rock, and clear the whales. All is clear and open to the southward of this bearing, which will also give vessels a good fair-way to the pilot grounds.

Vessels wanting a pilot should heave-to with the light-house about N. E. to N. N. E. distant about one mile, which will keep them well clear of the Cadda Rocks, off the entrance to the port.

By direction of the Government of Ceylon,

DAN. BLYTH,
Master Attendant, Galle.

NOTICE TO MARINERS.

No. 2504.

THE Government of India having approved of the adoption on the Hooghly light-vessels he Admiralty system of riding lights, it is hereby notified for general information that the wing regulations have been established respecting the Hooghly light-vessels, and will e into force from the 1st August 1877:—

1. A white light, ordinary ship's lantern, will be exhibited from the forestay of each t-vessel, at a height of six feet above the rail, for the purpose of showing in which direc- the vessel is riding when at her station.

2. When a light-vessel is driven from her proper position to one where she is of no as a guide to shipping, the following signals will be made, viz.

3. The usual lights will not be exhibited, but a fixed red light will be exhibited at each of the vessel, and a red flare light shown every quarter of an hour. By day the balls other distinguishing masthead marks will be struck.

4. If from any cause the light-vessel be unable to exhibit all her usual lights whilst at station, the riding light will be shown, and such portion of her usual lights as may be sible to exhibit.

5. The firing of special rockets of an explosive character from a light-vessel will denote need of assistance from the shore.

NOTIFICATION.

The 27th June 1877.—The following bye-laws, framed by the Municipal Commissioners of Rajshahye at a meeting, under Section 313 of Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information :—

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer, at the time of demanding payment, shall be bound to show this certificate if required.

2. Every person required in writing to furnish any schedule or return, which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any human being may die shall within 12 hours of the death, either remove the body at his own expense to such burning or burial ground as may be fixed by the Municipal Commissioners for the burning or burial of such body, or notify the death to the conservancy overseer, and in such latter case shall pay to the overseer the expense of removing the body at such rate as the Commissioners may from time to time determine.

7. Every person within whose premises any animal may die shall, within four hours of its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

8. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

For the Regulation and Management of Privies.

9. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

10. Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice, Rs. 20.

11. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

12. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature described in bye-law 10.

Penalty for infringement, Rs. 20.

13. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

14. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

15. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

16. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, Rs. 5.

17. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

For Regulating or Prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the vicinity of Public Roads.

18. No one shall let off any fire-balloon, fire-work, fire-arm, or any missile in or near any public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10.

General Bye-laws.

19. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare; and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement, Rs. 5.

20. No person shall construct, or place over, or by the side of any public drain any bridge, platform, building, or structure of any kind, except by and with the written permission of the Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 3 daily.

21. If any house, wall, or other erection, or any part thereof, fall upon any public highway, or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

22. No person shall prepare any channel, or convey water by any channel across any public thoroughfare except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

23. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river khal, tank, or ditch, offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

24. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course; and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 4 daily.

25. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

26. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

27. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, Rs. 10.

28. No person shall bury, or cause to be buried, in any burial ground, any corpse, or part of a corpse, in a grave not constructed of masonry, which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

29. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

30. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

31. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

32. No person shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

33. No person shall picket animals or collect carts, or form any encampment upon any public ground without the permission of the Commissioners.

Penalty for infringement, Rs. 10.

34. No person shall tether or graze ponies, cattle, goats, or other animals, or cause them to be tethered, or cause or allow them to stray on any public ground or highway except with the permission of the Commissioners.

Penalty for infringement, Rs. 5.

Orders and Notifications by the Government of India.

The following order, issued by the Government of India in the Legislative Department, is republished for general information :—

No. 22.—*Simla, the 26th June* 1877.—*Notification.*—Mr. W. F. Agnew, Barrister-at-Law, is appointed to officiate as Reporter for the Indian Law Reports in the High Court, Calcutta, *vice* Mr. J. G. Apcar, resigned.

The following orders, issued by the Government of India, in the Department of Revenue, Agriculture, and Commerce, are republished for general information :—

No 138.—*Simla, the 27th June* 1877.—*Notifications.*—*Salt.*—The following is published in substitution of Notification No. 330, dated the 30th November 1876 :—

In exercise of the powers conferred by Section 1, Clause 4 of Act VIII of 1875 (for regulating inland customs duties on salt and sugar and for other purposes), the Governor-General in Council is pleased to extend the provisions of Section 3 of Chapter I, Chapter III, Chapter V (omitting Section 23), and Chapter VI of the said Act, except so far as the same relate to sugar, to all the districts of the Patna Division in the Lower Provinces of Bengal.

No. 139.—In exercise of the powers conferred by Section 10 of the Inland Customs Act VIII of 1875, the Governor-General in Council is pleased to prohibit the manufacture of salt and the manufacture and refining of saltpetre throughout all the districts of the Patna Division in the Lower Provinces of Bengal, except in such places, and subject to such conditions in and subject to which such manufacture and refining were lawful on the 10th day of April 1876.

The following orders, issued by the Government of India, in the Foreign Department, are republished for general information :—

No. 1776*G.*—*Simla, the 29th June* 1877.—*Notifications.*—*General.*—The following extract from the "*London Gazette Extraordinary*," dated Saturday, the 5th of May 1877, is published for general information :—

Foreign Office, May 4, 1877.

The following official notification of the blockade of the Russian ports in the Black Sea, issued by the Turkish Government, has this day been received by telegraph from Her Majesty's Ambassador at Constantinople :—

ART. 1. The Ottoman Government declares the whole of the Russian Coast of the Black Sea comprised between Tchuruk Sou on the Asiatic Coast and the Kilia mouth of the Danube, in Turkey in Europe, to be in a state of blockade.

ART. 2. The blockade thus established will take effect from the 5th of May, and will be maintained by a sufficiently powerful Ottoman fleet.

ART. 3. A delay of three days, reckoning from the 5th of May, is granted to all merchant vessels wishing to proceed to one of the blockaded ports, and a delay of five days to those who wish to clear from the same. At the expiration of this delay any vessel endeavouring either to enter or to quit the blockaded waters will be treated as an enemy.

ART. 4. As regards the vessels which being on the voyage are ignorant of the state of blockade, the Ottoman fleet, on their arrival in the blockaded waters, shall certify to them the blockade. If after this special notification the ships persist in advancing, they will be considered as an enemy.

No. 1777*G.*—The following extract from the "Supplement to the *London Gazette* of Tuesday, the 1st of May 1877," is published for general information :—

Foreign Office, May 1, 1877.

The following translation of a notification issued on the 24th of April by the Governor of Odessa has been received from Her Majesty's Consul-General at Odessa :—

NOTICE.

In consequence of the laying of mines from noon on the $\frac{12}{24}$th April, the entering and the leaving the port of Odessa will only be allowed on the following conditions :

1. A ship arriving must stop opposite Middle Fountain, where she will be met by Russian officers with crews, who will take command of the ship, having previously ascertained that the ship's papers are in order.

2. The master gives an undertaking for himself personally, and likewise for the crew and passengers, stating that until they enter the port none of them will be on deck, nor follow the course of the ship through the ports or port-holes.

3. A similar undertaking will be taken from the masters of vessels leaving the port.

4. In case of men-of-war cruisers appearing in points of the Bay of Odessa whence they could observe the piloting out of ships, the Russian authorities will require them to withdraw for a certain time to a sufficient distance, in order that the vessels may be piloted out; and until they fulfil this request, unforeseen by international marine law, but indispensably called for by the newest conditions of war with mines, no foreign ship will be allowed to leave the port.

The following telegram has been received from Her Majesty's Ambassador at Constantinople, dated April 28, 1877 :—

I have just received following notice from the Porte :—

First. The Dardanelles and Bosphorus are closed both for entrance and exit to all steamers and sailing ships without exception during the night, that is, from sunset to sunrise.

Secondly. The light-houses in these Straits, with the exception of the two great light-houses at the entrance to the Bosphorus, in the Black Sea, and the two light-houses of Sedal Bahr and Koln Kaleh, on the Dardanelles, will be extinguished. The four above-mentioned lights may also be extinguished by the orders of the military commanders.

Thirdly. The firing of guns, cannon in foggy weather, or an alarm signal, is absolutely forbidden.

The following orders, issued by the Government of India, in the Financial Department, are republished for general information :—

No. 1150.—*Simla, the 9th June* 1877.—*Notifications.—Separate Revenue.—Stamps.*—In exercise of the powers conferred by Section 16 of the General Stamp Act, 1869, the Governor-General in Council is pleased to remit the duties chargeable under the said Act on tenders for any portion of the loan advertised in the *Gazette of India* Extraordinary of the 7th June 1877.

No. 1609.—*The 29th June* 1877.—*Pensions, Gratuities, &c.*—The Governor-General in Council directs the publication of the following Addenda and Corrigenda to the Codes of the Financial Department :—

CIVIL PENSION CODE.

SUPPLEMENT C.

SECTION 3, RULE 3 (PAGE 106).

Add the following :—

"A Chaplain of the Church of Scotland serving in the Bengal Presidency who wishes to obtain pension from the authorities in India must submit his application to the Government of India in the Home Department, if he is not Senior Chaplain, through the Senior Chaplain of the Church of Scotland. A Chaplain of the Church of Scotland serving in Madras or Bombay must submit his application to the Government of Madras or Bombay, as the case may be, if he is not Senior Chaplain, through the Senior Chaplain of his Presidency."

RULE 7 (PAGE 55).

Substitute the following for this Rule :—

7. Except as provided in Rules 1, 2, and 3, an officer who, having been discharged with a pension or gratuity, is subsequently re-employed, may not count his new service for a separate pension or gratuity. Pension or gratuity is in any case admissible only for the new service combined with the old, the whole being counted as one service. Provided, however, that if a gratuity received for the earlier service has not been refunded, gratuity or pension (as the case may be) may be allowed for the subsequent service on condition that the amount of such gratuity, or the present value of such pension calculated according to Table A in Appendix E, plus the amount of the previous gratuity, shall not exceed the amount of gratuity, or the present value of the pension calculated

according to Table A in Appendix E, that would have been admissible had the gratuity received for the earlier service been refunded. If the amount of such gratuity, or the present value of such pension, plus the amount of the previous gratuity, exceeds the amount of gratuity, or the present value of the pension that would have been admissible if the gratuity received for the earlier service had been refunded, the excess must be disallowed.

Examples to the Proviso :—

1. A. B., after a service of 8 years, received a gratuity of Rs. 4,800. A. B. was re-employed, but did not refund the gratuity. After serving for 5 years, A. B. becomes eligible for an invalid gratuity of Rs. 3,000. If A. B. had refunded the gratuity for the earlier service, he would have been entitled to a gratuity of Rs. 7,200. As the gratuity admissible for the new service, plus the gratuity received for the earlier service, exceeds the gratuity which would have been admissible to A. B. if the gratuity for the earlier service had been refunded, A. B. is entitled to receive a gratuity of Rs. 3,000 minus Rs. 600, which is the excess.
2. C. D. obtained a gratuity of Rs. 4,000 after a service of 8 years. C. D. was re-employed, but did not refund the gratuity. After serving for 16 years, C. D., at the age of 48 years, becomes eligible for an invalid pension of Rs. 150 a month. If C. D. had refunded the gratuity for the earlier service, he would have been entitled to a pension of Rs. 150 a month. The present value of the pension of Rs. 150 (Rs. 18,971-14-0), plus the gratuity received for the earlier service, is equal to Rs. 22,971-14-0, and as this is in excess of the present value of the pension by Rs. 4,000, the excess should be disallowed. C. D. will therefore be entitled to a pension of which the present value is Rs. 14,971-14-0, or a pension of Rs. 118-5-11 a month.
3. E. F. is removed after a service of 10 years with a gratuity of Rs. 3,000. E. F. was re-employed, but did not refund the gratuity. After serving for 20 years, E. F., at the age of 56 years, becomes eligible for a superannuation pension of Rs. 150 a month. If E. F. had refunded the gratuity for the earlier service, he would have been entitled to a superannuation pension of Rs. 225 a month. The present values of the pension of Rs. 150 and Rs. 225 are respectively Rs. 16,092-3-0 and Rs. 24,138-4-6. The present value of the pension of Rs. 150, plus the amount of the gratuity received for the earlier service, does not exceed the present value of the pension that would have been admissible if the gratuity for the earlier service had been refunded. E. F. is therefore entitled to the pension of Rs. 150 a month.

CIVIL LEAVE CODE.

SECTION 4 (PAGE 118).

Insert the following as case (k) :—

(*k*). When the leave allowances of an officer are said to be chargeable to several accounts according to the "rule of proportions," the meaning is that the charge should be debited to such several accounts in the proportions in which the aggregate salary drawn by the officer in the course of the three years immediately preceding the beginning of his leave, was charged to such several accounts

SECTION 36A.

Substitute the following for this Section :—

Section 36*A*.—The leave allowances of an officer who in the course of the three years immediately preceding the beginning of his leave has served in any appointment the pay or salary of which has been derived either wholly or in part otherwise than from Indian revenues shall be charged according to the "rule of proportions." This rule does not, however, apply to an officer who has made a contribution under Section 38 of the Civil Pension Code for the cost of his leave, or who is specially exempted from the operation of that section; nor does this rule apply to a military officer who vacates his appointment in the Civil Department when going on leave and reverts to the Military Department: in this case the leave allowance is charged to the Military Department.

ACTING ALLOWANCE CODE.

CHAPTER IX (PAGE 236).

Add the following Section to this Chapter :—

Section 28*A*.—Section 28 does not apply to the case of an officer the pay of whose appointment is changed during his tenure of office. In such case, if the new pay is progressive, the officer is not entitled to the first increment on his old pay till a year after the date of the order sanctioning the increase.

Examples.—(1). The pay of A. B.'s appointment is Rs. 300: on the 1st July 1876 it is changed to Rs. 250 rising by five annual increments of Rs. 20 a month to Rs. 350. A. B. is entitled to Rs. 320 from the 1st July 1877.

(2). The pay of C. D.'s appointment is Rs. 200 rising by five equal annual instalments to Rs 300. C. D.'s pay has been Rs. 300 for five years. The pay of the appointment is changed by an order dated 1st July 1876 to Rs. 250 rising by five equal annual instalments to Rs. 350. C. D. is entitled to Rs. 320 from the 1st July 1877.

PROCEEDINGS of the Eighth Ordinary General Meeting of the Shareholders held at the office of the Company, No. 3, Fairlie Place, on Saturday, 7th July 1877, at noon.

E. N. Grace, Esq.
Baboo Poolin Chunder Roy

The advertisement calling the meeting having been read, and the report of the Directors, with statement of accounts for the half-year ending 30th April 1877, having been submitted and taken as read, it was

Proposed by George Yule, Esq.—

Seconded by Baney Madnub Sen—

That the Directors' report and accounts for the half-year ending 30th April 1877, which have been printed and circulated amongst the shareholders, be adopted and approved as correct.

An amendment was

Proposed by G M. Goodricke, Esq.—

Seconded by A Strand, Esq., by his attorney H. J. Place, Esq.—

"That the sums standing at the credit of 'Reserve Fund' and 'Wear and Tear Accounts,' aggregating Rs. 22,480-5-7, be transferred to credit of profit and loss account for the past half-year."

Mr. Goodricke desired that his reasons for making this proposition be recorded in the minutes of this meeting, they are.—

1*st*.—That in his opinion it is unnecessary for the Company to have a Reserve Fund at all, and especially one with such an insignificant sum standing at credit.

2*nd*.—That in his opinion an undue amount has been deducted from the profits of the past half-year on account of stores, and having regard to the heavy charges under this heading, as well as to the fact that from the printed accounts for the past year, the sum of Rs. 5,571-14-5 appears to have been deducted from profits for the "repairs and renewals of plant" in addition to the sum of Rs. 9,501-5-6, spent under the heading of Engineer's accounts, signifying that "Wear and tear had been actually paid for from current profits," Mr. Goodricke sees no necessity for carrying forward any longer the sum at credit of "Wear and Tear Account."

The Chairman having explained the necessity for the accounts being made up in their present form, the amendment was put to the Meeting and lost.

The original proposition was then put and carried.

It was proposed by G. M. Goodricke, Esq., seconded by A. Strand, Esq., by his attorney H. J. Place, Esq.—

That the appointment of Mr. B. D. Colvin, as a Director of the Company, be confirmed.

It was proposed by George Yule, Esq., seconded by Baboo Poolin Chunder Roy—

That Mr. G. M. Goodricke be elected a Director of the Company.

It was proposed by Baboo Poolin Chunder Roy, seconded by G. M. Goodricke, Esq.—

That Baboo Baney Madhub Sen be elected a Director of the Company.

It was proposed by J. H. Twigg, Esq, by his attorney John McIntosh, Esq., seconded by Baboo Poolin Chunder Roy—

That Mr. Blechynden and Mr. Stanley be re-elected as auditors of the Company for the ensuing year.

With a vote of thanks to the Chair the Meeting separated. (1391—1) GEORGE YULE, *Chairman.*

PART V.

Act of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

[First Publication.]

THE following Act of the Governor-General of India in Council received the assent of His Excellency the Governor-General on the 28th June 1877, and is hereby promulgated for general information :—

ACT No. XII OF 1877.

An Act to amend the Chutia Nágpur Encumbered Estates' Act, 1876.

Preamble. FOR the purpose of amending the Chutia Nágpur Encumbered Estates' Act No. VI of 1876; It is hereby enacted as follows :—

Amendment of Act VI of 1876, section 12, clause 2. 1. For the word "six" shall be substituted the word "twelve" in the second clause of the twelfth section of the said Act.

PART VI.

Bill of the Legislative Council of India.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced into the Council of the Governor-General of India for the purpose of making Laws and Regulations on the 14th June 1877 :—

No. 12 OF 1877.

A Bill to amend the Chutia Nágpur Encumbered Estates' Act, 1876.

Preamble.

FOR the purpose of amending the Chutia Nágpur Encumbered Estates' Act No. VI of 1876; It is hereby enacted as follows :—

Amendment of Act VI of 1876, section 12, clause 2.

1. For the word "six" shall be substituted the word "twelve" in the second clause of the twelfth section of the said Act.

STATEMENT OF OBJECTS AND REASONS.

THE Government of Bengal being of opinion that the period of six months provided by section 12 of the Chutia Nágpur Encumbered Estates' Act, 1876, is too short for deciding whether an estate should be retained under management or relinquished under that section, the period of six months is, by the amending Bill, increased to twelve months, which period it is believed will be sufficient for the purpose.

RELATIONS BETWEEN GOVERNMENT AND PRESIDENCY BANKS.

No. 1222.

GOVERNMENT OF INDIA.

FINANCIAL DEPARTMENT.

ACCOUNTS.

RESOLUTION.

SIMLA, THE 18TH JUNE 1877.

SINCE the transfer to the Presidency Banks of the business formerly transacted at the General Treasuries of the Government at the Presidency Towns, the title of "General Treasury" or "Her Majesty's Treasury," and the like, have been in some cases applied to the departments of the Presidency Banks in which the public business is transacted, and these designations have received, from time to time, more or less definite official recognition.

2. The relations between the Government and these Banks have now been carefully defined anew by the Presidency Banks' Act, 1876, section 36 (o), and agreements in accordance therewith; and the Governor-General in Council deems it expedient that any language or nomenclature which may tend to obscure these relations should be disused.

3. The relations of the State to the Presidency Banks do not differ in character from those of any other depositors in the Bank: only, by reason of the large amounts of the Public Deposits in the Banks, and the great public interests connected therewith, certain powers of supervision and audit, which are not possessed by private depositors, have been reserved by the Government.

4. At the desire of the Government of India the Bank of Bengal has for some time past abstained from assuming, for any part of its establishment, the title of "General Treasury;" and the Comptroller-General has taken measures to change the practice by which bills payable at the Bank of Bengal have been addressed to the "General Treasury."

5. The Governor-General in Council is now pleased to desire that each Presidency Bank will cease to use any nomenclature or language which may seem to imply that its relations to the Government are other than those of Banker or Agent; and that, in particular, both the Presidency Banks and the officers of the Government will abstain from applying to any department of the Banks the title of General Treasury or Her Majesty's Treasury.

ORDERED that copies of this Resolution be distributed as follows:—

To the other departments of the Government of India;
to each Local Government;
to the Comptroller-General, the Accountants-General, and Deputy Accountants-General in independent charge; and
to the Presidency Banks of Bengal, Madras, and Bombay.

Any needful instructions should be issued in the Military and Public Works Departments to the officers in charge of the Departmental Accounts.

The Comptroller-General will take any measures which he may find necessary in order to eliminate erroneous expressions from all public forms and documents in use in the Civil Account Department.

R. B. CHAPMAN,
Secretary to the Government of India.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different District of Bengal, as reported to Government during the week ending the 7th July 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
1	Burdwan, July 9*" '77	1·26	The rainfall at Culna has been 4·60 inches, at Cutwa 5·79 inches, at Jehanabad 3·56 inches, at Bood-Bood 2·38 inches, and at Raneegunge only ·81 of an inch. The prospects of the crops are good. Fever is prevalent.
2	Bankoora, July 7 '77	·69	Little rain fell during the week, although it was constantly threatening. It is much wanted.
3	Beerbhoom, „ 7 „	1·57	Weather—Dry and hot at the beginning of the week, but during the last three days the rains seem to have set in steadily. There has been plenty of rain in the south-eastern quarter of the district, where the young rice is very good; elsewhere it is decidedly backward. But no harm whatever will have been done if the rain now continues steadily, of which there is every promise.
4	Midnapore, „ 7 „	·76	Weather—Cloudy and seasonable, but the rainfall during the week has been very light. In all parts of the district the cultivators would like to have more copious rain.
5	Hooghly, „ 7 „	4·34	Weather—Cloudy and rainy. The late rains have been very beneficial. Autumn rice is being weeded, and the transplantation of winter rice is going on. Public health is normal. Cattle disease still prevails in one village in thana Bullagur.
	Howrah, „ 7 „	1·46	The weather is favourable, and the state and prospects of the crops continue to be very good.
	Central Districts.		
6	24-Pergunnahs, July 9·†'77	3·62	Weather—Cloudy and rainy, but not cool. Rain has fallen throughout the district and has done good to the crops. Early rice is doing well. Transplantation of *amun* or late rice has commenced. Ordinary fever prevails at Barripore.
7	Nuddea, „ 7 „	12·57	There has been very heavy rain during the week. The rice crop is very promising. Some fine weather is now required for all crops.
8	Jessore, „ 7 „	5·92	The seasonable rain which has fallen during the week has done good, and all prospects are favourable.
9	Moorshedabad, „ 7 „	5·61	Weather—Cloudy and rainy. 8·53 inches of rainfall reported from Moorshedabad up to 6th instant, 1·70 inches from Jungypore up to 5th, and 1·51 inches from Rampore Hât up to 6th. Very favourable rain has fallen during the week; but in the north and west of the district, where it has been lightest, more is required for the crops. The prospects are at present good, but the price of rice is rising.
10	Dinagepore, „ 6 „	·14	Weather—Great heat till 5th instant, when rain fell; ·26 of an inch registered at Roygunge. *Bhadoi* rice, jute, and sugarcane are all coming on very well. Cholera has nearly disappeared.
11	Rajshahye, „ 7 „	8·45	There has been very heavy rain in all parts of the district during the latter half of the week. The rain has been favourable to the autumn and winter rice crops, and there is every prospect of an abundant harvest. Lands are still being prepared for transplanting the winter rice seedlings.
12	Rungpore, „ 6 „	4·18	Weather—Hot and close, with occasional showers. No rain reported from the Gaibanda sub-division; ·91 of an inch registered at Kurigram. The rain of the last two days, which was much wanted, has favoured much the transplanting of *amun* seedlings. Fever and bowel-complaint are prevalent, but not to any extent. Disease among cattle is very prevalent in the Kurigram sub-division, and a large number are stated to have died in thana Ulipore.
13	Bogra „ 7 „	8·08	Weather—Clear and hot at the beginning of the week; rainy at the end. The prospects of all standing crops continue to be good. The rain of the week has much improved the condition of these crops. The cutting of jute and *til* oil-seed still continues.
14	Pubna, „ 7 „	13·42	Weather—Seasonable. There was heavy rain with strong wind on the 5th and 6th instant. State and prospects of the crops are favourable.

* Telegram of the 9th July shows rainfall during the seven days immediately preceding.

† Report of the 9th July shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.—(*Continued.*)		
	Central Districts.		
RAJSHAHYE AND COOCH BEHAR DIVN. 15	Darjeeling, July 6 '77	2·88	The rainfall during the week has been less than is usual at this time of the year, which may be due to the rains having set in very early. *Bhadoi dhan* is looking very well. *Haimunti dhan* is being transplanted and is doing well. Buck wheat is being gathered in with good results. Indian corn and the various millets are ripening and will yield an abundant crop
16	Julpigorée, „ 7 „	2·74	Weather—Seasonable. The air contains more moisture, and the days on which rain does not fall are steamy. The reports from all thanas show that rain is wanted for transplanting *haimunti* rice. The *bhadoi* and jute crops are promising in all thanas, but in Fallacotta the prospects of the *bhadoi* crops are less favourable than last week.
	Cooch Behar, „ 5 „	3·48	Weather—Very hot, but occasional cool breezes prevailed. Rainfall is still very insufficient. During the week 3·46 inches registered at Mekligunge, 2·96 inches at Muthabhanga, and 1·04 at Dinhatta. The prospects of *amun dhan* are not improving, but seasonable rain will yet be in time to give a fair crop. *Bittri dhan* sown early is very good, but the late sowings, which are not yet quite ripe, are badly in want of rain to swell the grain. Public health is good.
	Eastern Districts.		
17	Dacca, July 9*'77	3·55	Weather—Seasonable. State and prospects of the crops are favourable. But prices are rising owing to exportation.
DACCA DIVN. 18	Furreedpore „ 7 „	17·05	Weather—Very hot in the first part of the week; latterly there was very heavy rain, attended with a high wind from the west. The rainfall at Goalundo has been 9·69 inches, but at Madaripore only 1·68 inches. The prospects of the crops are generally good. Fever is prevalent in part of the Madaripore subdivision.
19	Backergunge, „ 5 „	2·83	Weather—Generally hot, but rain has now re-commenced. The *aous* crop will probably be good. The sowing of the *amun* crop is going on everywhere
20	Mymensingh, „ 6 „	1·66	Weather—Seasonable. State and prospects of the crops are good.
21	Tipperah, „ 6 „	1·08	Weather—Seasonable. 1·18 inches of rain registered at Brahmunbaria. The state of both autumn and winter crops is good, and the prospects are favourable.
CHITTAGONG DIVN. 22	Chittagong, „ 5 „	2·19	Weather—Rainy with strong wind at intervals. The rainfall has not been sufficient in some places. The prospects of *aous* crops are good. Lands are being cultivated for *amun* crops, and in places seed is being sown broadcast. Cholera is reported from the southernmost part of the district.
23	Noakholly „ 5 „	2·31	Weather—Hot and close during the week The prospects of *aous* rice are fair, and the soil is being got ready for transplanting *amun* seedlings. Fever is still prevalent.
24	Chittagong Hill Tracts, „ 3 „	·68	There have been occasional falls of rain during the week, but much more is wanted. The prospects of the *joom* paddy crop are good. The plough cultivators have begun to plough their lands
	Hill Tipperah, „ 4 „	1·44	The rainfall of the week has been insufficient. The transplantation of *amun* seedlings is going on.
	BEHAR		
PATNA DIVN. 25	Patna, July 9*'77	1·43	Weather—Hot and close. Rain is much wanted for all crops. Health is generally good.
26	Gya, „ 7 „	2·45	Weather—Still very hot, the maximum reading of the thermometer in the shade being 100·6°. 5·65 inches of rain registered at Nowada, 1·72 inches at Aurungabad, and 1·38 inches at Jehanabad. Ploughing and sowing for the *khareef* and *bhadoi* crops are going on, but more rain is much required in parts of the district. The rising crops of *murwa* and *makai* especially want rain.
27	Shahabad, „ 7 „	3·72	Weather—Cloudy and hot. There was heavy rain on the 1st, 2nd, and 3rd instant; since then west wind and scorching sun had mainly prevailed. Great want of rain still exists in the district.
28	Durbhunga, „ 7 „	2·21	Weather—Hot and sultry. The monsoon broke during the week. The rainfall varied from two to four inches in the south and east, but in the midland tracts it has been less. Generally the rainfall has been insufficient and partial; but it has revived the growing crops and the *dhan* nurseries, and has greatly benefited indigo Cholera has diminished in the interior, but in the town of Durbhunga it is still prevalent.

* Telegrams of the 9th July show rainfall during the seven days immediately preceding.

	No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Continued.*)				
Patna Divn.	29	Mozufferpore, July 7 '77	·6*	Weather—Intensely hot. In the Mozufferpore sub-division rain is greatly wanted, and the growth of *bhadoi* crops and the transplantation of rice seedlings are much retarded. In the Hajeepore sub-division 5·41 inches of rain have fallen, and the prospects of all crops are now good. In the Seetamurhee sub-division the rainfall has been 1·72 inches, but more is needed.
	30	Sarun, „ 7 „	2·57	Weather—Very hot, the west winds having, strange to say, set in again since the rain at the commencement of the week. Heavy falls are reported from most parts of the districts 9·31 inches registered at Sewan. The state and prospects of the crops are on the whole good. The late rains, which appear to have been general throughout the district, have benefited the standing crops, and have enabled the cultivators to prepare the lands for the *bhadoi* sowings. The early sowings, which were suffering from drought, have now recovered and are coming on well. Indigo manufacture has commenced, and satisfactory results are expected.
	31	Chumparun, „ 7 „	·54	Weather—East and west winds. Great heat. Heavy rain fell on the 1st and 3rd instant. It has been of greatest benefit in enabling the cultivators to push on the *bhadoi* sowings. Much more rain is required. Cholera still continues very prevalent.
Bhagulpore Divn.	32	Monghyr, „ 7 „	1·44	Weather—Alternately rainy and hot. 5·46 inches of rain registered at Begu Serai, and 2·11 inches at Jamui. Rain has done much good, but more is wanted. This, however, may be hourly expected.
	33	Bhagulpore, „ 9† „	3 31	Weather—Much cooler, with cloudy skies. Rain has been capricious. It was short at Naradigur and Banka, while the fall at Soopole was double that at head-quarters. The prospects of the crops vary accordingly, but the condition of the *bhadoi* crops is generally very fair. Rice is being transplanted. Health of the district is good.
	34	Purneah, „ 7 „	2·63	Weather—Hot and cloudy. Slight rain has fallen one or two days all over the district, except Bulrampore. 1·45 inches registered at Arrarcah, and ·67 of an inch at Kissengunge. The prospects of the *bhadoi* crops are fair, but more rain is urgently needed.
	35	Maldah, „ 7 „	5·55	Weather—Now seasonable. The *dhan* crop has been damaged to some extent by want of rain.
	36	Sonthal Perghs.	.....	Return not received.
ORISSA.				
Orissa Divn.	37	Cuttack, July 7 '77	·80	Weather Cloudy with slight rain in the first portion of the week. Parts of the Kendrapara sub-division were flooded, but no damage is reported, and the river has since fallen. The weeding of *beali* rice is going on. *Sarad* rice is progressing favourably and the transplantation has commenced. The price of rice is very high. Public health is good.
	38	Pooree, „ 5 „	2·11	Weather—Cloudy and rainy. A breach in the embankment on the Bhargooi near Chandanpore has caused damage to the *sarad* rice plants in about forty villages. This crop in many other places is thriving. The state of other crops, viz. sugarcane, *mandia* (a small cereal), and jute is fair. The rains and the consequent flood have spoilt the harvesting of cotton and the late *dalua* crop. In many places these crops have been drowned. The attention of the Irrigation Department has been called to the state of the embankment. Cholera is very prevalent.
	39	Balasore, „ 6 „	2·62	Weather—Very hot and occasionally cloudy. The sowing of paddy is almost finished and the young plants are promising.
CHOTA NAGPORE. *South-West Frontier Agency.*				
	40	Hazareebagh, July 6 '77	1·20	Weather—Cloudy in the early part of the week, clear in the middle, and now cloudy again. The winter rice seedlings are healthy, and more rain is wanted for the preparation of lands for their transplantation. The broadcast *dhan* already sown also requires more rain.
	41	Lohardugga, „ 7 „	1·17	Weather—Seasonable. 1·65 inches of rain registered at Palamow up to 2nd instant. In the head-quarters sub-division paddy (broadcast sowings), *goondli*, *murwa*, *rahar*, and *makai* are well forward, and the prospects are good. In Palamow the late commencement of the rains makes all agricultural operations backward. There have been several deaths from small-pox in the Palamow sub-division; otherwise the public health is good.
	42	Singbhoom, „ 6 „	2·84	Weather—Seasonable. State and prospects of the crops are most favourable. The district is healthy.
	43	Manbhoom, „ 7 „	·03	There has been little or no rain during the week. The crops are doing well, but rain is wanted for the transplantation of rice seedlings.

* ·69 of an inch of rain since reported.

† Telegram of the 9th July shows rainfall during the seven days immediately preceding.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

NOTICE TO MARINERS.

(No. 10.)

CHINA SEA—SINGAPORE STRAIT.

Coral Patch near Sultan Shoal.

The Colonial Secretary, Singapore, has given notice of the existence of a coral patch not marked on the Admiralty Charts, on which the S. S. *Ajax* touched on the 30th April 1877.

The result of a careful examination by Commander Willcox, Commanding H. M.'s Ship *Growler*, places this danger one mile S. E. by E. ½ E. from the Sultan beacon; its length is half a cable N. E. and S. W., and the least water found was 19 feet at low-water spring tides.

A large iron *nun* buoy, painted red, has been placed on the centre of the patch, and the following bearings are given:—

Sultan Shoal beacon	N. W. by W. ½ W.
Raffles light-house (Cony Island) ...	S. E. ½ E.
Tanjong Bolus	W. by N.

RESOLUTION.

The 5th July 1877.

Read—

A letter, No. 798A., of 31st May 1877, from the Commissioners for making Improvements in the Port of Calcutta, applying for a loan of five lakhs of rupees for the purpose of constructing a new jetty to the south of No. 7 Jetty.

WHEREAS it appears probable to the Lieutenant-Governor of Bengal that the loan of five lakhs of rupees applied for ought to be granted to the Port Commissioners, it is hereby ordered that the application be published in the *Calcutta Gazette*, as required by the 5th of the rules made by the Governor-General in Council under the Public Works Loan Act of 1871, and published on the 15th October 1873.

H. J. REYNOLDS,
Secy. to the Govt. of Bengal.

No. 798A, dated Calcutta, the 31st May 1877.

From—The Commissioners for making Improvements in the Port of Calcutta,
To—The Secretary to the Government of Bengal, General Department.

WE, the undersigned Commissioners for making Improvements in the Port of Calcutta, do hereby apply to His Honor the Lieutenant-Governor of Bengal for a loan to be granted us under the provisions of Act XXIV of 1871, the Public Works Loan Act. The particulars to be set forth in accordance with the rules published under the aforesaid Act are hereto annexed.

(1) The work for the construction or repair of which the loan is required;

For the construction of a new jetty.

and an estimate of the cost thereof.

Rupees 5,00,000.

(2) The amount of loan applied for.

Rupees 5,00,000.

(3) The funds, cesses, rates, duties, or taxes, and the property, if any, on the security of which it is proposed that the loan shall be made.

The landing and shipping charges, wharf rents, and removal charges levied at the jetties and inland wharves; the jetties, quays, wharves, machinery, &c., &c., belonging to the Port Commissioners, and the Strand Bank lands.

(4) The law or laws under which the said funds, cesses, rates, duties, taxes levied or received, and the title on which the said property is held.

Act V (B.C.) of 1870.

(5) The period for which the loan is required;

Thirty years.

the number and amount of the instalments, if any, in which it is proposed the loan shall be made;

In five instalments of Rs. 1,00,000 each.

dates proposed for receiving such instalments;

First instalment three months after sanction to loan, other instalments at intervals of three months.

and the instalments in which it is proposed to repay the loan.

In accordance with the provisions of Rule X of the rules published under the Act, modified by clause (*d*) of the rule, the Commissioners will pay a fixed sum half-yearly, on the 30th June and 31st December, at the rate of Rs. 3,053-5 for each lakh of rupees borrowed. The table showing the proportion in which this half-yearly amount is divided between payment of interest and repayment of principal, which was forwarded with the Commissioners' letter No. 4785, dated 12th January 1874, will show that the terms of the rule above quoted are complied with, and that one-fifth of the amount borrowed will be repaid within ten years, one-half within twenty years, and the whole within thirty years.

(6) The proceeds of each of the funds, cesses, rates, duties, or taxes, and all other incomes received by the Port Commissioners for the purposes of the Act.

The ordinary income and expenditure of the Commissioners for 1871-72, 1872-73, 1873-74, 1874-75, 1875-76, and 1876-77, exclusive of repayment of loans:—

The 10th July 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF CEYLON.

NOTICE TO MARINERS.

Ceylon—South Coast.

BUOY MARKING GINDURAH ROCK.

NOTICE is hereby given that an Iron Buoy, painted red, is laid in 11 fathoms water about two cables length south of the Gindurah Rock. It is laid at this distance from the rock on account of the foul ground in its more immediate vicinity.

As the light-house at Point-de-Galle can be seen before the buoy which marks this rock, and its position can always be depended on, commanders of vessels should take it as the best mark to determine their position in making this port.

Vessels making the port from the westward or northward will, by keeping the light-house on the bearing of E. by N. ½ N., pass about two miles south of the Gindurah Rock, and clear the whales. All is clear and open to the southward of this bearing, which will also give vessels a good fair-way to the pilot grounds.

Vessels wanting a pilot should heave-to with the light-house about N. E to N. N. E. distant about one mile, which will keep them well clear of the Cadda Rocks, off the entrance to the port.

By direction of the Government of Ceylon,

DAN. BLYTH,
Master Attendant, Galle.

MASTER ATTENDANT'S OFFICE,
GALLE,
The 13th June 1877.

NOTIFICATION.

The 10th July 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Government of Bengal.

NOTICE TO MARINERS.

No. 2504.

THE Government of India having approved of the adoption on the Hooghly light-vessels of the Admiralty system of riding lights, it is hereby notified for general information that the following regulations have been established respecting the Hooghly light-vessels, and will come into force from the 1st August 1877:—

1. A white light, ordinary ship's lantern, will be exhibited from the forestay of each light-vessel, at a height of six feet above the rail, for the purpose of showing in which direction the vessel is riding when at her station.

2. When a light-vessel is driven from her proper position to one where she is of no use as a guide to shipping, the following signals will be made, viz.

3. The usual lights will not be exhibited, but a fixed red light will be exhibited at each end of the vessel, and a red flare light shown every quarter of an hour. By day the balls or other distinguishing masthead marks will be struck.

4. If from any cause the light-vessel be unable to exhibit all her usual lights whilst at her station, the riding light will be shown, and such portion of her usual lights as may be possible to exhibit.

5. The firing of special rockets of an explosive character from a light-vessel will denote the need of assistance from the shore.

MASTER ATTENDANT'S OFFICE,
The 2nd July 1877.

F. WARDEN,
Offg. Dy. Master Attendant in Charge.

NOTIFICATION.

The 29th June 1877.—The following bye-laws, framed by the Municipal Commissioners of Rungpore at a meeting under Section 313 of Act V (B.C.), 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information :—

For Regulating the Time and Mode of Collecting Taxes.

1. Every officer authorized to collect taxes of any kind and grant receipts shall be provided with a certificate of such authority bearing the seal of the Municipality and signature of the Chairman. Every collecting officer at the time of demanding or receiving payment shall be bound to show this certificate if required. On the suspension or dismissal of a collecting officer, the Vice-Chairman shall take back his certificate, and so destroy it that no future use can be made of it by any one.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20: provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer at his discretion to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die, unless he can bury the carcass at such depth below ground as may be determined upon hereafter by the Chairman, who shall specify certain depths for the burial of different species of animals, shall, within five hours of its death, or, if the death occurs at night, within two hours after daylight, either remove the carcass at his own expense to any of such places as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass, at such rate as the Commissioners may determine, and such expense shall be recoverable as a debt due to the Commissioners. In cases, if the owner of the premises is not the owner of the animal, and the owner is known, the latter shall alone be responsible for the payment of such expense. No overseer when called upon, except at night, shall neglect to remove a carcass within three hours of receiving the information.

Penalty for infringement not to exceed Rs. 10.

7. Every owner or occupier of any house, land, or premises from which night-soil, filth, or any other offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of such night-soil, filth, or other offensive matter, within such hours as may have been fixed by the Municipal Commissioners.

Penalty for infringement not to exceed Rs. 5.

8. Every person shall construct his privy above ground, and, when so required by notice, shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement not to exceed Rs. 20.

9. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water).

Penalty for infringement not to exceed Rs. 20.

11. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement not to exceed Rs. 20.

12. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health or for the prevention of infection or spread of disease, provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

NOTIFICATION.

The 27th June 1877.—The following bye-laws, framed by the Municipal Commissioners of Rajshahye at a meeting, under Section 313 of Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information :—

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer, at the time of demanding payment, shall be bound to show this certificate if required.

2. Every person required in writing to furnish any schedule or return, which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20, provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any human being may die shall, within 12 hours of the death, either remove the body at his own expense to such burning or burial ground as may be fixed by the Municipal Commissioners for the burning or burial of such body, or notify the death to the conservancy overseer, and in such latter case shall pay to the overseer the expense of removing the body at such rate as the Commissioners may from time to time determine.

7. Every person within whose premises any animal may die shall, within four hours of its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

8. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

For the Regulation and Management of Privies.

9. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed on by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

10 Every person shall construct his privy above ground, and shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice, Rs. 20.

11. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

12. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river tank, hollow, or excavation (or any place containing waste and stagnant water), or into any other receptacle but one of the nature described in bye-law 10.

Penalty for infringement, Rs. 20.

13. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement, Rs. 20.

14. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health, or for the prevention of infection or spread of disease: provided that the Municipal Commissioners shall be bound to supply deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

15. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

16. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights.

Penalty for infringement, Rs. 5.

17. No owner of any carriage shall allow it to be driven by a driver under 14 years of age.

Penalty for disobedience on the owner's part, Rs. 10.

For Regulating or Prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the vicinity of Public Roads.

18. No one shall let off any fire-balloon, fire-work, fire-arm, or any missile in or near any public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement, Rs. 10

General Bye-laws.

19. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare; and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement, Rs. 5.

20. No person shall construct, or place over, or by the side of any public drain any bridge, platform, building, or structure of any kind, except by and with the written permission of the Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 3 daily.

21. If any house, wall, or other erection, or any part thereof, fall upon any public highway, or into any public drain, the owner of such house, wall, or erection shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

22. No person shall prepare any channel, or convey water by any channel across any public thoroughfare except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 2 daily.

23. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river khal, tank, or ditch, offensive or noxious to the neighbourhood.

Penalty for infringement, Rs. 5; penalty for continued infringement after notice, Rs. 2 daily.

24. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course; and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 4 daily.

25. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement, Rs. 10; penalty for continued infringement after notice, Rs. 5 daily.

26. No person shall let loose, or cause or allow to be let loose, or allow to get loose, any diseased or worn-out animal on any highway or into any place whence such animal can escape into any highway.

Penalty for infringement, Rs. 20.

27. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement, Rs. 10.

28. No person shall bury, or cause to be buried, in any burial ground, any corpse, or part of a corpse, in a grave not constructed of masonry, which shall be less than six feet deep.

Penalty for infringement, Rs. 10.

29. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement, Rs. 20.

30. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement, Rs. 20.

31. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement, Rs. 20.

32. No person shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

Penalty for infringement, Rs. 10.

PUBLIC WORKS DEPARTMENT,—BENGAL

DISTRICT ROAD FUND.

NOTIFICATION.

No. 203.

The 10th July 1877.

UNDER Section 89 of Act X (B. C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Dacca, Furreedpore, Backergunge, Mymensingh, and Tipperah, of works done and in progress during the past cess year 1875-76, together with the remarks thereon of the Commissioner of the Dacca Division, are published for general information.

G. A. D. ANLEY, C. E.,
Asst. Secy. to the Govt. of Bengal
in the Public Works Dept.

No. 570, dated Dacca, the 15th December 1876.

From—D. R. LYALL, ESQ., Chairman, Road Cess Committee, Dacca,
To—The Commissioner of the Dacca Division.

I HAVE the honor to forward herewith in duplicate a detailed account of receipts and expenditure of the District Road Fund for the cess year ending 30th September 1876, and also to submit the following report on the works done by the District Road Committee during that year and those proposed to be undertaken during the current year 1876-77, in conformity with the instructions contained in Government circular No. 50, of the 23rd July 1873.

2. The year opened with a large balance of Rs. 49,464-11-2, in consequence of the cost of the dredger not being finally adjusted in the Executive Engineer's accounts during the preceding year, and the receipts of the year come to Rs. 89,927-1-10, the details of which are given in Part II of the annual account, making a total of Rs. 1,39,391-13-0 as the available funds of this district for the year. The total expenditure on works, establishment, tools and plant, &c., including also the moiety cost of the dredger, amounted to Rs. 83,354-2-8, leaving a balance of Rs. 56,037-10-4 at the close of the year. Of the total outlay more than two-thirds, viz. Rs. 57,728-13-7, were spent through the Department Public Works.

3. The main feature of the year under review is the absence of large original works, owing, in the first place, to the delay in the submission of the very detailed plans of the Goalundo road, the original works determined on which were required by Government; and in the next, to delay in any order being passed on these plans when sent up. The work is still not begun in consequence of sanction not having yet arrived, though reminders have been sent on the subject and the working season is half over.

4. The item of Rs. 7,681-4-10 entered against original works in the expenditure side of Part II of the annual account was expended in petty works executed by the Central and Branch Committees out of the allotment of Rs. 2,000, given to each of these Committees for petty village works within their respective jurisdictions, in survey operations, and in paying for works done last year.

5. Works done in 1875-76:—

(1) The extension of the Goalundo line of road from Dacca to Manickgunge, a distance of 25½ miles, has been fully surveyed at a cost of Rs. 1,237-1-9, including the outlay of the preceding year, and complete estimates and plans have been prepared and submitted to Government for sanction.

(2) The Taltolah khall has also been surveyed at an expenditure of Rs. 1,169-6-0. This work will probably be undertaken when the Goalundo road is finished and the plans have been got ready in anticipation.

(3) A grant of Rs. 1,000 was made out of the Sudder sub-divisional allotment for village roads to the inhabitants of Nasimpore for the construction of a road from their village to Nobabgunge, and a further sum of Rs. 100 was subsequently sent to the Sub-Inspector of Police, Nobabgunge, for a bit of that road leading to a kalibari. The former work was done by the villagers under the supervision of Baboo Obhoy Churn Bose, Roi Bahadoor, Honorary Magistrate of Joykrishtopore and a member of this Committee, and the latter by the Sub-Inspector. I have seen the work, and there is no doubt that good work for the money has been done.

(4) The item of Rs. 266-12-3, entered under original works against the Toonghy iron bridge, calls for special notice. This bridge was presented to the district by Rajah Kali Narain Roi Chowdhuri Bahadoor, of Bhowal, on the occasion of the Viceroy's visit, and it was expected it would cost about Rs. 20,000 landed in Dacca. The Road Cess Committee have provided the cost of putting it up in this year's budget Owing, however, to the bad rate of exchange, and to the difficulty in getting it from Calcutta here, it has cost Rs. 26,205-3-9

laid in Dacca, exclusive of Rs. 266-12-3 above mentioned, and the excess was advanced by the Committee pending recovery. The amount in question, Rs. 266-12-3, being the expenditure incurred by the Department Public Works in unloading the iron works of the bridge from the India General Steam Navigation Company's flat and storing them in the godown, was charged to works in the accounts rendered to this office by the Executive Engineer, and that officer was requested to expunge the item from his accounts, holding it also under advance pending recovery. In reply he stated that all charges connected with district works, whether they be expenditure on the execution of works or advances made on account of them, are debited to the District Road Fund and to the deposits of his office, and that the form of schedule prescribed for district work expenditure for submission to the Chairman provides no head for advances, and consequently he did not consider it necessary to alter the head under which the expenditure was shewn by him. The amount in question, though charged in the account, will be recovered along with the other advances outstanding. The bridge will be put up during the present cold weather.

(5) The section of the Goalundo road between Shealo and Manickgunge, a distance of 15¼ miles, has been repaired at an outlay of Rs. 3,738-6-9, including cost of planting young trees and pay of chowkeydars for nursing them and preventing cattle trespass on the road. The road was open to traffic all the year round.

(6) The metal in the Naraingunge road, which is the only metalled road in the district, has been repaired in places where it was found necessary, and the bamboo piling on the fifth mile has also been put into fair order. The total expenditure incurred on it is Rs. 947-15-3, including the cost of measuring the road from the sudder ghât with a view to removing and reposting the mile-posts. During the last flood a portion of the south parapet wall, together with the south-west wing of the bridge at Pagla, have fallen down, and also the arch of the bridge on the sixth mile has very badly cracked, in consequence of which a portion of the parapet wall has been dismantled. These bridges will have to be repaired during this year.

(7) The road from Dacca to Toke, commonly called the Mymensingh road (52 miles), has been cleared of jungles and repaired, five wooden bridges on the line have been put into working order, and the arch of a pucca bridge, which was found in an unsafe condition, has also been dismantled and rebuilt. The total expenditure incurred is Rs. 1,997-6-6. The original contractor failed to do the work, and it was put in the hands of a second man, who has finished the work. After the annual repairs were done, the part between Toonghy and the turn leading to Joydebpore was found in bad order, chiefly owing to holes caused by white-ant hills falling in, which appeared during the rains, and the sub-overseer was directed to put it into order, which has since been done. The whole has been done within the estimate.

(8) A sum of Rs. 2,726-11-0 was expended for the repairs of the Moonshigunge-Sreenugger road as far as Singpara. Out of this Rs. 1,370-3-0 was spent in earthwork, Rs. 150 in jungle-clearing, Rs. 626-11-0 in wooden bridges, and Rs. 577-15-0 in bamboo bridges, the remaining Rs. 1-14-0 being on account of cooly hire for collecting posts, planks, &c., lying on this road in secure places. The road is in a fair state of repairs, and passable throughout the year up to Singpara. A bridge on the Jonshar branch road has also been repaired at a cost of Rs. 340.

(9) Ordinary annual repairs were effected to the Kolatya road (nine miles), and temporary bamboo bridges erected thereon at a total cost of Rs. 307-6-9.

(10) Petty village works have also been executed by the Central Committee and the Branch Committees of Moonshigunge and Manickgunge out of the allotment for village roads, the details of which are given in the annual accounts.

(11) The road from Rampal to Toongibaree, shewn under works done by the Moonshigunge Branch Committee, calls for special remark. Baboos Deenobundhoo and Kali Kishore Chuckerbutty, of Toongibaree, paid a donation of Rs. 1,000 for this road, out of which Rs. 894-5-6 have been expended during the year, leaving a balance of Rs. 105-10-6. The Chairman of the Moonshigunge Branch Committee, under whose supervision the work was carried out, reports that earth has been thrown on nearly three-fourths of the road, half of which may be held as completed. The work has been done by the donors, who have also applied for a grant from Road Cess Fund to finish the remainder of the road.

6. The Moonshigunge Branch Committee again deserve credit for the way they have done their work. They have spent their money economically and judiciously.

7. The expenditure by the Manickgunge Committee has not been so well looked after, and one road (Gurpara) has been damaged by the rains owing to bad work. The present Chairman is likely to see things done better.

8. The main expense of the Committee this year has again been the dredger, on which a sum of Rs. 53,177-0-6 has been expended, of which Rs. 3,567-14-6 is for salary, Rs. 8,836-11-5 for stores, repairs, &c., and Rs. 40,772-6-7 for moiety cost of the vessel. This last named item is explained fully below.

9. From the accounts formerly received from the Examiner of Public Works Accounts the Committee were under the impression that the total cost of the dredger will not exceed Rs. 70,000, and they therefore paid to the credit of the Department of Public Works during the preceding year 1874-75 Rs. 35,000 as their half share of the expense of the vessel, but this amount was not finally charged in the Executive Engineer's accounts during that year. In the accounts received from the Examiner of Public Works Accounts the total cost of the dredger, including the two mud barges, has been shown to be Rs. 81,544-13-2, and consequently a further sum of Rs. 5,772-6-7, in addition to Rs. 35,000 already paid by the Committee, has been charged by the Executive Engineer in his accounts for this year. Government, however, refused to pay half the cost of the dredger, and a further sum of Rs. 1,404-8-0 is therefore due by the Committee, and will be paid.

10. The dredger has arrived here, but it has not as yet been worked, as the buckets drop the mud inside the well instead of throwing it out through the shoot. This will be put into order as soon as possible. The earth dredged here is either clay or sand, and both these adhere much more to the bucket than the ooze, which is usually dredged at home. I understand that the dredgers in the Hooghly experience exactly the same difficulty, and had this been provided for in the specification, this working season would not have been lost. If any other Committee gets out a dredger, this point should be insisted on.

11. During the whole year the repair works have been managed by the Committee themselves through a sub-overseer acting under their immediate orders, with the exception of the Goalundo and Naraingunge roads, which two, being very important, were left in the charge of the Department of Public Works. The repairs on them as well as the rest of the works have been managed by the Committee's own establishment, consisting of two overseers and temporary surveyors under the supervision of the Executive Engineer.

12. The particulars required in paragraph 10 of the Government Resolution, No. 1286, dated 13th March 1876, in regard to the meetings of the Central and the Branch Committees for the first cess year 1875-76, are exhibited in the statement appended herewith.

13. Works proposed to be undertaken during the current year 1876-77 :—

(1) Repairs to the road from Manickgunge to Shealo. The repairs to consist of surface repairs to the whole distance, earthwork in slope, repairs in places in the first three miles, dressing and turfing the above, and petty repairs to bunds, and bamboo piling at the end of the road at Shealo, and to bridges. Outlay sanctioned as per budget estimate is Rs. 1,300.

(2) Repairs to Naraingunge road, including metalling parts of the 3rd and 6th and the whole of the 7th mile, and also to bridges and bamboo spurs at Pagla, for which Rs. 3,000 have been sanctioned.

(3) Surface repairs to the road from Dacca to Toke, and to bridges situated on the line, including jungle-cutting to a breadth of 15 feet on each side from the centre of the road. Outlay passed for this is Rs. 2,372.

(4) Petty repairs to be done to the Bydebazar road, and a bridge on the line to be heightened, for which Rs. 2,500 have been sanctioned.

(5) Annual repairs to be effected to the Moonshigunge-Sreenugger road as far as Singpara, and bamboo bridges constructed thereon. The amount sanctioned is Rs. 2,355.

(6) The Kolatya road to be repaired, and wooden bridges in place of the present bamboo bridges erected thereon. Amount sanctioned, Rs. 1,200.

(7) The road from Palamgunge to Moniat, as well as from Palamgunge to Nolgunge, to be put into order, for which Rs. 666 have been passed.

(8) The Toonghy iron bridge, which is paid for by Rajah Kali Narain Roi Chowdhuri Bahadoor, is to be put up, for which Rs. 4,000 have been set apart.

(9) The Goalundo line of road from Dacca to Manickgunge will be extended and bridged as far as possible. Amount sanctioned as per budget estimate is Rs. 82,697. This amount, however, will be decreased by Rs. 2,406 for alteration to the dredger, which has been passed by you.

(10) Petty village works will also be undertaken by the Central Committee and the Branch Committees of Moonshigunge and Manickgunge, for which Rs. 6,000 have been allotted.

(11) Dredging operations to be done in the Dallessury, Burigunga, and Gajghata rivers, and also in the Hilsamari and Panya khalls. Two large mud barges suitable for river work have been applied for, for which Rs. 5,000 have been provided for in the budget.

14. All the works proposed will be met from the proceeds of the District Road Fund of the year, which is to be derived from the following sources :—

(1) Cess on lands,
(2) ,, on houses,
(3) Fines,
(4) Ferry tolls,
(5) One per cent. road cess,
(6) Other miscellaneous,

and which is expected to amount to Rs. 1,40,005, including balance of previous year.

Abstract of particulars regarding Meetings of Dacca District Road Committee and of the Sub-divisional Branch Committees for the cess year 1875-76.

Dacca	Dacca district ...	4	8	4	3	Nil ...	6	2	2	3	.....	3	1	1	50	The members took a great interest in their work and transacted their business satisfactorily. The reason of more meetings not being held is that as no original work was sanctioned, no points requiring the decision of a meeting arose.
	Moonshigunge sub-division.	4	6	3	2	Nil ...	6	2	3	5	2	2	.....	.....	60	All the members except two attended regularly and took a lively interest in their work. The proportion of the official members to non-officials is more than that allowed by law, and the Chairman of the Moonshigunge Branch Committee has been therefore requested either to nominate two more non-official members or reduce the number of official members by one.

RADHASYAM SEN, *Vice-Chairman.*

No. 63C., dated Furreedpore, the 14th November 1876.

From—The Chairman, District Road Cess Committee, Furreedpore,

To—The Commissioner of the Dacca Division.

I HAVE the honor to submit herewith the annual report and accounts of the Furreedpore Road Fund for the year ending 30th September 1876—

		Rs.	A.	P.
1.	The balance of the previous year was	39,224	5	8
	The receipt of the year under review	51,527	12	0
	Total ...	90,752	1	8

2. The expenditure during the year was as follows:—	Rs.	A.	P.
Collection establishment	3,291	4	6
Working ditto	5,398	5	1
Contingencies	2,412	6	6
Repairs	6,718	2	0
Original works	7,184	0	7
Tools and plant	1,080	11	9
Refunds	282	3	8
Total ...	26,367	2	1

The balance, therefore, at the close of the year was Rs. 64,384-15-7.

3. The regular working establishment has been maintained from January last, since which time they have been busy in levelling, surveying, and making estimates for works. Of these, the estimate and plan of the Ramnuggur khall have been submitted for sanction; those of the Hobra khall are ready. The plan and estimate of the Rajbari road (14 miles), re-excavation of the Marra Pudda (eight miles), and cutting of the Kristopore khall (one mile), are almost ready.

4. *Original works.*—The earth-work of the Huttoria road, a distance of four miles, has been completed; only a few bridges remaining to be done. Another road from Goalundo thana to the railway station, and several minor roads at Baniboho, Hamdampore, feeder roads, &c., have been made.

The Bakhunda khall, joining the Dhole with the Seetal Lakhya, has been deepened in certain places. The expenditure against Rajbari road and Hobra khall refer to the levelling and surveying charges, and for the preliminary steps to acquire lands for the former.

5. *Repairs.*—The Jessore road, a distance of 20 miles, was repaired. The Committee have not determined to renew the large bridges on this road that have gone to ruin, since it ceased to be a Grand Trunk road.

The Pungsa road, starting from Kanyapore to Pungsa, 34 miles, the entire length from Kanyapore to Baliakundi, have been thoroughly repaired, excepting one gap at Hatghat, where a bridge is contemplated. Earth-works on the other portions and repairs of the culverts will be done this year.

The new Tulma road has been thoroughly repaired to Tulma; distance ten miles. It will be extended to Ainpore this year.

Several village roads, of which the Sagaldi and Roopapat roads are important, have been done. The village road from Roopapat to Muxidpore, four miles, was in good order during the rains. The Sagaldi village road has been a failure, as I found that the earth-work was too low for the ordinary level of water in the height of the rains. The earth has in many places been washed away.

6. "Contingencies" include office furniture and boat allowance; hence a large expenditure, as the office was established during the year. Under "Tools and Plant" come instruments obtained for the use of the working establishment.

7. There has been much less work at Madaripore for one reason, because the country is very low and people do not care for roads, and because there was no working staff which could be deputed there; and no plans have yet been drawn up for roads or khalls. This will now be compensated for.

8. The Committee held nine meetings during the year, which were generally well attended. Owing to the District Engineer having been appointed in January, nearly at the end of the working season, and there being no plan or estimate ready, comparatively little could be accomplished during the year under report. The office have been diligently preparing estimates and making surveys, and it is hoped that, if the estimates obtain the necessary sanction soon, a good outturn of work may be accomplished this working season. The plan and estimates of the Ramnuggur khall—a canal which, it is hoped, will connect the Gorai and the Pudma—have received the sanction of the Executive Engineer of the Backergunge division.

No. 102, dated Goalundo, the 31st July 1876.

From—J. POSFORD, Esq., Chairman, Road Committee, Goalundo,
To—The Chairman, District Road Committee, Fureedpore.

IN reply to your memorandum No. 521C., I have the honor to submit the following report concerning what has been done in the way of roads since the last regular report. A few general remarks are given about village roads. They are small works, and it is not easy to describe them intelligibly otherwise. In Goalundo thanadaree two works have been done, viz. (1) chur Pallunda village road, which gives a short cut from the Katakhal to the new station road. It is about 900 feet long, and its repair was done for Rs. 75. (2) Fooltollah lane, which cost Rs. 100. It is about half a mile long, and gives access to Fooltollah bazar and to people living in the villages north of that place. In Belgachi thanadaree the Rupsa bunds have been repaired at a cost of Rs. 100, and two khalls (Furreedpore and Senghia khalls) have been dammed up to afford communication among villages on the left bank of the Chandna. They should also be of use in preventing the sudden flooding of those extensive rice lands to the east of the Chandna river. A village road costing Rs. 100 has also been made through Eliskol and other villages opposite Baliakundi.

In Pungsa thanadaree some portion of Jashae village road has been done, the roads leading into Pangsha bazar have been repaired at a cost of Rs. 25, and a road repaired through Baliakundi village at a cost of Rs. 50. The above have all been marked on the map recently returned to you. For several months a road sirear has been employed; his pay is Rs. 30 a month, and is met from the allotment for village roads.

2. Of district roads, I may venture to say good work has been done. Close to Goalundo are the new station road, rather more than a mile in length and 20 feet wide; also the Panchas Hazari road, running from the thana road to the new railway embankment, about 4,600 feet long and 16 feet wide. Both are now found very useful. The one cost Rs. 2,100, the other about Rs. 1,300; but there are some extras in the way of compensation for crops and acquisition of land.

3. The Hamdampore road, from Belgachi thana to the Pattani road, was finally completed and paid for. The Pattani road was partially repaired from the Marra Pudda to Fooltollah bazar at a cost of Rs. 125.

4. It has been decided to make roads through Baniboho and other villages to fall into the Rajbari feeder road at Sarjankanda. About two miles of road in separate parts have been executed, viz., from Sarjankanda to the Marra Pudda, at a cost of Rs. 450, about three-quarters of a mile long and 16 feet wide, and from Kajibadhar to Faizghattakhal about a mile long and 16 feet wide, at a cost of Rs. 548. On these and the roads near Goalundo the District Engineer's completion certificate is alone wanted to allow of the accounts of the contractors being finally settled.

5. In Pungsa thanadaree I believe the Pungsa-Furreedpore road has been to some extent repaired; but this work has been managed from head-quarters, and I know nothing about it.

6. As to village roads to be done during next year, there is a fine opening for works of this sort in setting to rights the numerous tracks that run from the Pungsa-Furreedpore road to the Chandna. In Belgachi thanadaree probably the only urgent work is a village road from Ramkanthapore to meet the Kajibadhar road. In Goalundo it will be advisable to continue the chur Pallunda village road to the Telegraph Office and Furreedpore road. The repair and improvement of Boalia village road, on the bank of the Chandna, is another work that might be done with advantage to numerous villages on the right bank of the Chandna.

7. Of new works, the following appear desirable and likely to be taken up:—A short extension of the Panchas-Hazari road southwards; the heightening of the Furreedpore road southwards for about a mile south of the new railway line; the completion of the roads through Kajibadhar, Mallibhara plain, and Baniboho; the extension of the Hamdampore road northwards to Sripore and southwards to Bagheea; the thorough repair of the Pattani road from the Marra Pudda to Fooltollah; a new road from Rajbari railway station to Godhar bazar; a new road from Belgachi railway station to Khangang, and repairs of the Pattani road in that quarter for about two miles; a road from Pungsa to Bheelchuttra, and a road from Pungsa bazar to Jasha. The first of the above-named works will benefit the chur village south of Goalundo, and all the others will be not only valuable feeders for the railway, but a great convenience to all people throughout the sub-division.

No. 161, dated Madaripore, the 13th October 1876.

From—A. J. FRASER, Esq., Chairman, Branch Road Cess Committee, Madaripore,
To—The Chairman, District Road Cess Committee, Furreedpore.

AGREEABLY to the instruction contained in Government circular No. 50, dated 23rd July 1873, forwarded with your No. 522C., dated 26th July last, I have the honor to submit a report on works of local improvements for the cess year ending 30th September 1876.

2. *Meeting of the Committee.*—The Committee sat four times during the year for the transaction of businesses, and copies of the proceedings were duly forwarded to the District Road Cess Committee.

3. *Attendance of Members*—The number of meetings attended by each member is shown below:—

The Sub-Divisional Officer	Twice.
Baboo Ram Gopal Chake	4 times.
„ Anonda Chandra Bose	3 „
„ Mohesh Chundra Sen	Twice.
„ Juggut Chandra Bose	Ditto.
„ Kali Chandra Bose	3 times.
„ Denonath Sen	Once.
„ Kaliprosunno Chowdry	Twice.
Moonshee Baseerudeen Ahmed	Ditto.
Baboo Luchmi Narain Bhuttacharji	Once.

4. The works done by the Road Cess Committee during the year have been already described in detail in the preliminary report submitted with this office No. 129, dated 24th August. Since that date only one application has been received for the repairs of a village road in thana Palony. The application has not been disposed of, pending inquiry as to the necessity of the work and its probable cost.

5. The allotment made to the sub-division for the year 1876-77 have been communicated in the Chairman's memorandum, No. 586C., dated 2nd September last.

6. Of the original works sanctioned, the execution of the Andha beel khall was as nearly completed during the past year; the remaining portion will be completed also on as the water subsides. As requested in your No. 607C., of the 18th ultimo, the canoongoe has been directed to make an estimate and plan.

7. For the village roads only one application, as stated above, has come to hand; but there will be several applications made, I believe, during the cold weather.

8. The usual accounts are herewith submitted.

JADUB CHANDRA GOSWAMI,
Vice-Chairman

No. 36, dated Burrisal, the 9th February 1877.

From—E. J. BARTON, Esq., Chairman, District Road Committee, Backergunge,
To—The Commissioner of the Dacca Division.

WITH reference to letter No. 4952, dated the 24th September 1872, from the Secretary to the Government of Bengal, Public Works Department, I have the honor to submit herewith the annual account of receipts and expenditure of the Road Fund of this district for the cess year ending with the 30th September 1876. I beg also to submit the following report on the administration of the Fund, as required in circular No. 50, of the 23rd July 1873, from the Government of Bengal in the Public Works Department.

2. By orders of the Government of Bengal, published in the *Calcutta Gazette* of the 7th October 1874, the Road Cess Act came into operation in this district in November of that year; but owing to the vast numbers of tenures and under-tenures which prevail here, the valuation of the district has not yet been completed. As a consequence, no cess was, or could be, levied during the year under review.

3. At the end of the year 1874-75 there was a balance in favour of the Fund of Rs. 5,253-13-8, and the receipts of the year amounted to Rs. 27,639-8-5. Thus the available fund for the year amounted to Rs. 32,893-6-1. This amount included the grant-in-aid of Rs. 10,000 received from Government. Under orders of the Government of Bengal a grant of Rs. 20,000 was originally assigned to this district for local improvements, (*vide* notification, Government of Bengal, Public Works Department, No. 364, dated 20th July 1875,) but by a subsequent order Rs. 10,000 was withdrawn (*vide* Government Proceedings No. 1725, dated 8th April 1876, Public Works Department). Of this available amount Rs. 21,355-10-8, or three-fifths, was expended on the heavy establishment of the Road Cess office, as detailed in Part II of the accompanying account, and Rs. 1,827 in the payment of the working establishment under the Committee: of the remaining Rs. 9,710-1-5, Rs. 7,107-1-1 was utilized by the Committee for necessary repairs of the most important existing roads, and for the original works that were taken in hand last year, viz. Rs. 3,248-13-3 for original works, and Rs. 3,858-3-10 for repairs. Of this sum Rs. 2,830-13-8 was spent by the Public Works Department.

4. The original work of first importance in the district is the construction of the Gournadi (*alias* Madaripore) road. This road extends from Burrisal to Gournadi, a distance of 21 miles. The first four miles of its length, *i.e.* from Burrisal to Lakhutiya (commonly called the Lakhutiya road), were completed many years ago by the enterprise of a private gentleman, the late Baboo Raj Chundra Roy, zemindar of Lakhutiya. The Madaripore road is an extension of this road. It was originally proposed to construct this road from Lakhutiya to Madaripore, but since the transfer of that sub-division to the district of Furreedpore, the idea of completing the whole length from the funds of the district has been given up, and the construction of so much of it as lies in the jurisdiction of this district is the aim of this Committee. This road, as it now stands, extends from Lakhutiya to Gournadi, a distance of 17 miles. Up to last year, 12 miles of its length, *i.e.* up to Batajar bazar, were completed, at a cost of Rs. 11,869-9-1, and in the year under review, a distance of two miles, extending from Batajar to Hârisena, was partially completed. The remaining two miles, extending from Harisena to Gournadi, are untouched. From Burrisal to Batajar (17 miles) there are six masonry bridges of about 12 feet span, and 14 wooden rustic bridges averaging 30 feet span. The road is 15 feet wide and unmetalled.

WORKS DONE DURING THE YEAR.—ORIGINAL WORKS.

1.—*Sudder sub-division.*—Madaripore road. Earth-work on the portion from Batajar to Harisena, a distance of two miles, was partially done, and five wooden rustic bridges constructed at a cost of Rs. 820-7-3.

2.—*Perozepore sub-division.*—Construction of a jetty on the Damoodar river. Rs. 175 was spent upon this work this year. It will be completed during 1876-77.

3.—Metalling of the roads in the head-quarters of the sub-division. This has been completed at a cost of Rs. 1,314, a little more than the amount estimated for.

4.—*Dukhin Shahbazpore sub-division.*—Road from outpost Tazumuddin to station Barhanuddin. Earth-work only was done on this road at a cost of Rs. 708.

5.—*Patuakhali sub-division.*—Kalikapore road: cost, Rs. 231-6.

REPAIRS.

6.—*Sudder sub-division.*—Jhalokati road. Four bunds protecting the road were repaired; earth-work to the approaches of the Pratap bridge and of culvert No. 10 was done. Bridge No. 1 and culvert No. 2 were repaired, and the culvert at the end of the road was finished. Expenditure, Rs. 701-12-8

7.—Amanatgunge road. The whole length of this road (two and a half miles) was repaired. One large wooden rustic bridge, of 80 feet in length, was repaired and culvert No. 4 was completed. The total cost on these works amounted to Rs. 926-2-1.

8.—Madaripore road. The first eight miles of this road were repaired at a cost of Rs 517-7-6. The repairs on these roads consisted in surface dressing, petty repairs to earth-work, and jungle-cutting.

9.—*Perozepore sub-division.*—Road and bridges at the head-quarters of the sub-division: cost, Rs. 208-14.

10.—Rayerkati road: cost, Rs. 250.

11.—*Dukhin Shahbazpore sub-division.*—Repairing and metalling the town roads: cost, Rs 222-5.

12.—Dowlutkhan to Bhola road: cost, Rs. 208-5-9.

13.—*Patuakhali sub-division.*—Town roads: cost, Rs. 373-5-9.

14.—Mirzagunge road: cost, Rs. 275-7.

5. The works executed under the supervision of the sub-divisional officers are of very small extent. It is not therefore necessary to give a description of them here, but I may add that the sub-divisional officers exercised due care and attention in expending the money entrusted to their care.

6. As will be seen, the fund at the disposal of the Committee, after deduction of the expenditure in the heavy Road Cess office, was very limited. As a consequence, the progress and extent of local works were small. Many of the works which it was originally proposed to finish this year have been left unfinished. The Government order alluded to before, curtailing the assignment of this district from Rs. 20,000 to Rs. 10,000, placed the Committee under a great difficulty. They had pledged themselves to expenses which were irrevocable, and works were undertaken which could not be stopped without heavy loss to the District Fund. To remove this difficulty, the Committee, in their letter No. 17, dated 30th November 1875, applied to Government for a loan of Rs. 35,000, to be paid from the first year's collection of the cess; but the Government, much to their regret, refused to grant it (*vide* Government letter No. 19, dated 4th January 1876).

7. Under the provisions of section 68 of the Road Cess Act, a supplementary list of works was forwarded to you with this office No. 145, of the 7th September last. As many of these works have not as yet been surveyed, and their measurements made, some of the descriptive columns are left blank.

8. The Road Cess Committee of this district consist of 23 members, of whom four are official and 19 non-official. As the Committee during the year had very small funds at their disposal, and as there were no matters of importance to deliberate upon, they met only once. The object of this meeting was to consider the budget estimate for 1876-77 and the supplementary list of works prepared under the provisions of section 68 of the Act. There were no Branch Committees in the district during the year. The formation of these Committees is under consideration, and a list of the members will be submitted to you this month for your approval and sanction.

8. There is no separate establishment for the Committee to carry on correspondence and keep the accounts prescribed by Government. The duty is performed by the Road Cess head clerk under my direction.

10. The following works are proposed in the budget estimates for the year 1876-77:—

ORIGINAL WORKS.—ROADS AND BRIDGES.

1.—*Gournadi road.*—Four and a half miles of this road to be completed.

2.—*Backergunge road.*—From Rupatali to Backergunge, a distance of ten miles. Project is under preparation.

3.—*Basanda road.*—It was taken in hand, and an expenditure of Rs. 1,000 was incurred; but it was stopped for want of funds.

4.—Two bridges on the Jhalokati road to be renewed. Project is under preparation.

5.—Sixteen wooden rustic bridges on the Dowlutkhan road, of an average span of 35 feet, with a roadway of five feet. The estimate is ready, and the work will be taken in hand when our funds are sufficient.

RIVERS AND CANALS.

6.—*Kumarkhali khall.*—It extends from Nulchitti river to Biskhali Don. Length, six miles. This khall to be deepened. Project is under preparation.

7.—*Taltali khall.*—It extends from Burrisal river at Amanathgunge to Burrisal river at Taltali. Length, three miles. To be deepened. Project is under preparation.

8.—*Ponabaliya khall.*—Project is under preparation.

9.—*Nulchitti Bharani khall.*—Extending from Nulchitti river at Nulchitti to Biskhali Don, six miles. To be deepened. Project is under preparation.

REPAIRS.—ROADS AND BRIDGES.

10.—*Gournadi road.*—Seventeen miles to be repaired. Repairs consisting of petty repairs to the earth-work, jungle-cutting, and renewing 14 wooden rustic bridges.

11.—*Jhalokati road.*—Extending from Sagardi to Jhalokati, a distance of 10·75 miles. It has 16 masonry bridges and culverts. Repairs to earth-work, jungle-cutting, surface dressing, and repairs to bridges and culverts, are to be made.

12.—*Madhabpasa road.*—Extending from Burrisal to Madhabpasa. Length, seven miles. It has six masonry bridges and culverts and seven wooden bridges.

13.—*Nulchitti road.*—Extends from Rupatali to Nulchitti. Distance, four and a half miles. It has two masonry bridges and culverts and five wooden bridges.

14.—*Dabdabya road.*—From Rupatali to Dabdabya, a distance of three miles. It has four wooden bridges.

15.—*Mukherji's road.*—Extending from Lakhutya to Madhabpasa. Distance, one and a half miles. It has two wooden bridges.

16.—*Amanathgunge road.*—Extending from Burrisal to Taltali or Saistabad ferry ghât. Distance, two and a half miles; having five masonry bridges and culverts and one wooden rustic bridge.

17.—*Dowlutkhan road.*—Nine and a half miles in length.

18.—Petty works in the sub-division of Perozepore.

19.— Ditto ditto of Dowlutkhan.

20.— Ditto ditto of Patuakhali.

11. As these works cannot be taken in hand until after a professional survey is made and measurements taken, and regular plans and estimates are framed and sanctioned by Government, it will be some months before we can begin actual work. As, however, the working season has far advanced, I do not think the Committee will be in a position to begin any work except repairs during the year. This is a large and a wealthy district, and we estimate that the road cess will yield a yearly income of about Rs. 1,50,000. It is, therefore, in my opinion, much to be desired that, in order to secure the proper execution and supervision of all our local works, the status of the district should be raised from class II to class I. To this matter I solicit your special attention.

E. J. BARTON,
Chairman.

No. 161R., dated Mymensingh, the 31st January 1877.

From—R. H. PAWSEY, ESQ., Chairman of the Road Cess Committee, Mymensingh,
To—The Commissioner of the Dacca Division.

I HAVE the honor to forward herewith statement No. III as described in the orders of Government, No. 4952, dated 24th September 1872, and as provided for in section 89, Act X, 1871. The period embraced by the accounts is the year terminating with 30th September 1876, and the delay beyond due date in the submission of the statement is owing to the meeting of the Committee, called for 13th instant for passing the accounts, having to be adjourned until this day in default of a quorum. The year under review was the first during which the cess has been collected in this district.

2. Four meetings only of the Committee were held during the year, but these meetings represent but a very small portion of the time that is devoted to road cess work by the Chairman, Vice-Chairman, and many of the members.

3. The accounts (see form No. 6, Part II) sent herewith give details of receipt and of expenditure on each item of work, and I have to add to the accounts the following report.

4. The actual receipts from the cess and other sources amounted to Rs. 1,45,721, the anticipated receipts as per budget submitted to you on 13th September 1875 having been put at Rs. 1,55,517.

5. The cess for the year was collected at full rates, but these were not resolved on without some discussion, the members generally being of opinion that no collection in excess of what could be expended advantageously during the year should be made. On this point, however, the estimates which had been drawn up proved satisfactory to the Committee.

6. The balance sheet is prepared according to the form prescribed by the Public Works Department, and before remarking on the items of expenditure on works, I would point out that Rs. 32,000 were devoted to the repayment in part to Government of the loan adverted to in paragraph 2 of my report, No. 589, dated 5th January 1876. Rs. 10,000 were also paid towards the expenses of Government on the staff of the Department of Public Works employed on road works during the year 1874-75; beyond these the establishment for the collection of the cess cost Rs. 9,500 odd. The working establishment (including the salary of the District Engineer for a portion of the year only) draw Rs. 5,250. Taking off the amount of unadjusted advances at the close of the cess year, the amount expended actually upon works amounted to Rs. 65,818 odd.

7. In the expenditure of these funds, the Committee have steadily pursued the system they have adopted from the time of their formation. The old roads are kept in repair and metalled, where there is a press of traffic, as funds admit. Bridges of timber on these roads are gradually being exchanged for masonry bridges. The new lines of road provided for in statement I, submitted in December 1872, are being undertaken by degrees, and temporary structures of timber are supplied to keep the roads passable for wheeled traffic until they can be bridged. Village roads are repaired and extended in the neighbourhood of the main lines and of rivers.

8. From the number of works included in statement I of December 1872, and the supplementary statement I submitted on 7th May last, it will be seen that the more obvious and crying wants in the way of communication by land have been looked to, and that the simple works of raised roads will be sufficient to employ the funds of the Committee for some years to come. In spite of occasional agitation on the subject, the Committee have determined to attempt no great work of excavation demanding an uncertain expenditure, and uncertain in its fruits, until the results of the work of dredging in the rivers of Dacca are known.

9. The original works in progress during the year were those briefly detailed in the list submitted with this office letter No. 589, dated 5th January 1876, and on which the estimated expenditure had been proposed on 13th September previously. The works were the same as those noticed by you as being in progress during the year 1874-75, with the addition of the road from Modhupore to Tangail, for which the sum of Rs. 25,000 was provided in the estimates, but on which Rs. 17,350 only was expended during the year under review (*see* paragraphs 17 and 18 of your report, No. 635R., dated 8th February last).

10. The next greatest expenditure has been in the way of repairs. The roads on which money was expended have been placed in repair for the dry season; but as none of them have up to date been metalled, some expenditure is required annually, at the close of the rains, on each. I should add that there are still remaining roads (which in some places have dwindled to mere tracks) which, though not encroached on by cultivators, require repairs, amounting to almost entire renewal, before they are brought to the condition they were, or were intended to be placed in when originally constructed.

11. The applications from local residents for village roads have been so numerous that it has been impossible to comply with all; the funds available for these works being limited in consequence of other more pressing wants. More of these small cost roads are, however, being taken in hand during the present year.

12. The expenditure on the working establishment during the year was considerably below what was provided in the estimate; but since the close of the year a demand has been made on the part of Government for payment for the services of the staff of the Department of Public Works employed until the District Engineer took charge of his duties in March last. The District Engineer took charge of his duties from the Executive Engineer, Public Works Department, but the latter official did not make over plans and estimates of original works then under preparation.

13. I take this opportunity of bringing to your notice the apparent necessity for revising the rules laid down by Government in circular No. 173, dated 7th May 1872, and on subsequent occasions. This district (as are also perhaps others) has hitherto been totally unprovided with made roads, not because the nature of the country forbids their existence, but from its being distant in situation and with a purely agricultural population, blessed some four months of the year with natural water highways. The grant of funds by Government for road-making was always most moderate. The cess has now provided a fund not more than sufficient, but still considerably greater than in many districts where the communications by land are in a very different state.

14. In utilizing these funds some of the standing rules have been violated, and it would seem that, unless some alteration in them is made, they are likely to be violated in future also by all the officials concerned. If no work is done until every preliminary rule has been observed, there will be a total stoppage of work.

15. For instance, rule 5 of circular No. 173, quoted above, points out the duty of the Superintending Engineer in regularly visiting at least once in the year all works. In this district the Superintending Engineer has not yet seen any work, either original or repair, undertaken since 1873, or since then either in progress or contemplation. It seems absolutely necessary that the official who has to give his professional opinion on projects before they are undertaken should have some acquaintance with the surface of the country. The effect of this want of knowledge is that when plans and estimates for a road with a petty temporary wooden bridge over a khall are submitted they are returned with the direction to employ a staff during the rainy season in ascertaining the height of floods for miles round, and the velocity of current in a khall which is actually stagnant or nearly so. These inquiries occupy much time, and if the Engineer spent a single half hour in riding over the road, he would himself be satisfied, from the conformation of the country, that the inquiries are in such cases unnecessary.

16. The difficulty in the way of carrying on pressing works has been recently still further enhanced. It has been ordered that no road is to be widened without plans and estimates being prepared and submitted as in the case of a new work. To carry out such an arrangement, the entire income of the Committee will have to be spent in establishment of surveyors. To prepare the information required for two new lines of road only, an Executive Engineer, Assistant Engineer, overseer, and draughtsman, have been employed for some two years. How much more labour is necessary if every existing road that requires widening and raising must be submitted with every detail to the central authority in Calcutta.

17. If you also are of opinion that the rules referred to require revision to become practicable in working, I would venture to ask that you will propose some alterations. Hitherto original works known to be of pressing need have been commenced without being submitted to Government, and, as in paragraphs 17 and 18 of your No 653R., dated 8th February last, approval has been given to the carrying on of such works in an informal manner, and to the expenditure of these funds by the Committee in accordance with estimates previously submitted.

R. H. PAWSEY,
Chairman, Road Cess Committee, Mymensingh District.

No. 293 R., dated Camp Chandpur, the 9th December 1876.

From—N. S. ALEXANDER, Esq., Chairman of the District Road Cess Committee, Tipperah,

To—The Commissioner of the Dacca Division.

I HAVE the honor to submit the annual report on the administration of the Road Cess Department for the year 1875-76, as also the accounts which have been scrutinized and audited by a Sub-Committee of three members, as required by section 88 of the Road Cess Act.

2. The Act came into actual operation in this district on 1st October 1874. This report is therefore for the second year the Act has been in force.

3. The Committee consists of six official and 12 non-official members. During the year under report the following gentlemen were members:—

Members.

1. The Magistrate and Collector of Tipperah, *Chairman* ... } *ex officio.*
2. The Senior Covenanted Assistant to the Magistrate and Collector. } *ex officio.*
3. Mr. Robert Carstairs.
4. The Executive Engineer of Dacca ... ... } *Ditto.*
5. The Deputy Collector in charge of Road Cess .. } *Ditto.*
6. The District Superintendent of Police ... ... } *Ditto.*
7. Mr. E. DeLauney.
8. ,, H. L. Weathrall.
9. Baboo Shib Churn Aich.
10. ,, Ramdolal Roy.
11. ,, Nilmony Doss.
12. ,, Umalochun Mozumdar.
13. ,, Harish Chundra Bose.
14. ,, Nobeen Chundra Sein.
15. ,, Krishna Lall Nag.
16. ,, Kali Krishna Chowdhury.
17. Mahomed Gazi Chowdury.
18. Munshee Ali Karim.

The changes in the Committee during the year were—

Mr. Robert Carstairs, who was appointed in place of Mr. Thomas Smith, left the district.

Baboo Nobeen Chundra Sein, in place of Mr. J. P. DeLauney. who left the district.

Moonshee Ali Karim, *vice* Mr. Hume Smith, who left the district.

Baboo Kali Krishna Roy Chowdhury, *vice* Aftabuddin Mahomed.

,, Krishna Lall Nag, *vice* Eshan Chundra Roy.

Amiruddin Mahomed, *alias* Moonshee Lall Meah (deceased).

4 Seven meetings of the District Committee were held during the year, six members being required to form a quorum. Once a quorum was not obtained, and no meeting could be held. Most of the members showed a fair interest in the proceedings. Among the most active members were Messrs. H. Smith, H. L. Weathrall, George Ridsdale, E. DeLauncy, and Baboos Nilmoney Doss and Ramdolal Roy. The non-official members who attended most meetings were Messrs. E. DeLauney and Baboo Ramdolal Roy, who attended at five and six meetings respectively. Only two members attended no meetings at all; these were Baboos Krishna Lall Nag and Umalochun Mozumdar. The former left the

district during the year under report, and the latter prefers to attend the meetings of the Muradnagar Branch Committee, of which he is also a member. The Chairman, Vice-Chairman, and Road Cess Deputy Collector, attended the whole of the seven meetings.

5. The total income for the year 1875-76 from the assessment on lands and houses amounted to Rs. 1,85,651-10. This included the balance of Rs. 38,012-6, carried over from 1874-75. The total outlay during the year amounted to Rs. 1,02,014-5-1, leaving a balance in hand of Rs. 33,637-4-11.

6. *Original works.*—One of the chief was the *Brahmunberiah road.* Unfortunately, during the two past years we have had unprecedentedly high floods: each year, in 1875 and in 1876, great damage has been done to the earth-work of this road by the floods; the new earth is of course not sufficiently firm to stand the effects of such floods as we have had in August 1876. The flood water topped the newly-constructed road, doing a good deal of damage. This has much delayed the finishing of this road during the past year. There was an expenditure of Rs. 7,000 on earth-work from Nayanpore to Brahmunberiah, 22 miles, and Rs. 1,376-13-3 on the part between Nayanpore and Comillah, 16 miles; for construction of bridges on the same road, Rs. 10,561-0-9. In my last year's report, paragraph 8, I pointed out how this road is intersected at every half mile or so by hill-streams, and the necessity therefore of frequent bridges, which renders the work on the road so much more costly than ordinary. This road will be completed this year, and will establish easy communication between the sudder station of Comillah and the sub-division of Brahmunberiah, if we can only get one year's immunity from floods to allow the earth-work time to consolidate a *little*.

The *Kali bazar hill road*, also an original work, on which was expended the sum of Rs. 2,818-14-9. This road is cut through the Lalmye Range of hills, and when completed will open up communication with the centre and south-west of the district; this road will be continued on to Dollye on the west and Kudbah on the south, and thus open up communication in a part of the district hitherto roadless. The work was of a somewhat difficult nature, the gradients of ascent and descent requiring some engineering skill in construction. The total sum expended by the Sudder Committee on original works was Rs. 60,436-15-5. This includes the building of some inspection bungalows and construction of village roads (for which see paragraph 9).

7. The amount expended on maintenance and repairs was Rs. 9,129. The chief repairs were to the various district roads, a small sum only being expended on repair to the Comillah Road Cess office bungalow.

8. Rs. 1,439-2-3 were expended on the Chandpore canal noticed in paragraph 8 (E) of last year's report. This canal connects the Megna with the Dacaitea, and saves boats a weary long round and the dangers of the big river north of Dukhin Shahbazpore and Hatya. In the rains boats get to Noakhally in safety. If this channel were closed, the voyage would have to be made down the Big Megna and *viâ* the wide channel between Noakhally and the islands of Shahbazpore, Hatya, and Sundeep. It is a great object, therefore, to keep the channel open and navigable for the largest boats.

9. *Village roads.*—A large amount, viz. Rs. 30,333, was expended on these roads and khalls, 120 in number, in the following proportions:—

			Rs.	A.	P.	
Sudder or the District Committee		...	16,108	11	0	36 roads. 4 water-courses.
Brahmunberiah Branch	ditto	...	5,087	7	6	10 ditto. 29 roads.
Chowdagram	ditto	ditto ...	3,580	0	0	18 „
Muradnagar	ditto	ditto ...	3,376	13	6	3 „ 9 water-channels and some temporary bridges.
Nursingpore	ditto	ditto ...	2,180	0	0	3 water-channels. 8 roads.
		Total ...	30,333	0	0	120 roads and water-channels.

It is found that members of the various Committees and the people of the district generally take more interest in this class of works than in any other. It renders more tangible to them that the money raised in the district is being expended for their benefit and on local objects. The amount expended by Branch Committees was double what it was in 1874-75, and I believe this shows the increasing popularity and demand for such works. In a district like this, which was almost devoid of roads between one village and another, these small roads are of great importance as aiding to establish more general intercommunication, connecting remote villages with main roads and the larger marts, and with also the various waterways and village hâts or markets. These works include the bridging of khalls, opening water-channels, and other petty works under Rs. 500 cost each.

10. The establishment consists of an Engineer, Baboo Khettra Nath Bhuttacharjia, formerly in the Public Works Department, and a staff of overseers and sub-overseers. The Engineer is well paid, his salary and allowances amounting to Rs. 7,800. The amount of work to be done and the income of the department warrant our having a well-paid officer as our Engineer.

11. The Vice-Chairman's office was held first by Mr. Manson, and afterwards by Mr. Carstairs, both of whom performed the duties of the office to the entire satisfaction of the Committee.

12. The Branch Committees of Brahmunberiah, Muradnagur, Chowdagram, and Nursingpore, all worked well, and credit is due to their Chairmen, especially to the moonsifs of Chowdagram, Muradnagur, and Nursingpore, who perform their duties as Chairmen so satisfactorily, in addition to the heavy work they are called upon to do as moonsifs; and the office of a moonsif in this district is by no means a sinecure.

13. I submit a copy of the statement of progress on the various works submitted to me by the District Engineer.

14. The estimates for the various works to be undertaken in the ensuing cess year 1876-77, and for the various establishments, have already been submitted to you and obtained your approval,* but I give them appended in a concise form.

* In letter No. 367R., dated 5th September 1876.

SHAM LALL HALDAR,
Chairman of the Branch Road Cess Committee, Chowdagram.

No. 757R., dated Dacca, the 23rd March 1877.

From—F. B. PEACOCK, Esq., Offg. Commissioner of the Dacca Division,
To—The Secretary to the Government of Bengal, Public Works Department.

WITH reference to your circular No. 51, dated 8th August 1874, I have the honor to submit herewith the annual accounts and reports of the several District Road Cess Committees* of this division for the cess year (1875-76) ending with 30th September last.

* (1) Dacca. (2) Furreedpore. (3) Backergunge. (4) Mymensingh. (5) Tipperah.

2. In all the districts of this division, except Backergunge, road cess on lands and houses is being levied, and hence the funds available for expenditure on the roads and canals of those districts were mainly derived from the proceeds of this cess and of ferry tolls. In Backergunge, where the valuations of lands and houses under the Road Cess Act have not as yet been completed, tolls on ferries, fines under Road Cess Act, and the grant from Provincial Fund, made up the amount for expenditure during the year of report.

3. Subjoined is a brief statement which shews the financial condition of each district during the past cess year.

† Deficit balance.

4 Every district had ample funds for its requirements during the year, and I will now notice in the following paragraphs how these have been expended, and with what advantage to the people from whom the road cess has been levied.

5. *Dacca.*—In Dacca the total amount available for expenditure amounted, as per details given on the margin, to Rs. 1,39,391-13. Of this sum Rs. 4,860 12 3 have been expended in office establishments and contingencies; „ 4,198 6 10 have been expended in establishments on works; „ 7,681 4 10 ditto ditto original works; „ 13,318 12 9 ditto ditto repairs; „ 53,200 4 6 ditto ditto tools and plant; „ 94 9 6 ditto ditto refunds;

Total ... 83,354 2 8

leaving a balance of Rs. 56,037-10-4 at the close of the year.

6. Under the head of "Original Works," for which a sum of Rs. 7,681-4-10 is shewn to have been expended, are comprised the construction of some bridges on the Goalundo road between Manickgunge and Shealo, the making of village roads, and the execution of some other petty works; while the heading "Repairs," in which Rs. 13,318 12-9 are shewn to have been expended, includes all works done on existing roads, canals, or bridges. In fact, all works not involving the use of steam-dredger, that were proposed to be undertaken‡ during the past year, have been executed, except that portion of the Goalundo road which lies between Dacca and Manickgunge, the plans and estimates of which are awaiting Government orders since July last, notwithstanding repeated reminders§ and telegrams sent on the subject. This accounts for the large cash balance of Rs. 56,037-10-4, which sum was kept unexpended in order that this work might be taken up as soon as Government sanction was received. Unfortunately no sanction has as yet been received, and another working season has slipped away without this most important work being at all advanced. The Committee have also been unable to carry out the dredging work proposed in the last report, as the steam-dredger, which arrived in August last, was found to be defective in construction to an extent which rendered her unworkable.

‡ *Vide* paragraph 8 of this office No. 653R., dated 8th February 1876.

§ No. 333R., dated 23rd August 1876.
„ 504R., „ 6th November „
„ 609R., „ 22nd December „

7. The large amount of Rs. 53,200-4-6 shown under the head of tools and plant represents the moiety of the total cost of the steam-dredger, price of stores, and charges for establishment, &c.

8. The following are the works proposed to be undertaken during the current year 1876-77:—

(1) Construction of that part of the Goalundo road which lies between Dacca and Manickgunge, No. 12;

(2) Ditto of Tonghy iron bridge on the road to Mymensingh, No. 2;

(3) Repairs of the road from Manickgunge to Shealo, No. 5;
(4) Ditto Narraingunge road, No. 1;
(5) Ditto Mymensingh road, No. 2;
(6) Ditto Bydebazar road, No. 1;
(7) Ditto Sreenuggur road, No. 4;
(8) Ditto Kolatya road, No. 7;
(9) Repairs of several village roads, &c.;
(10) Dredging operations in the rivers Dallessery, Borigunga, Gajghata, and also in the Hilsamari and Punya khalls,

at an aggregate cost of Rs. 1,06,090.

9. *Furreedpore.*—In Furreedpore the receipts, including the cash balance of the preceding year, amounted to Rs. 90,752-1-8, and the expenditure therefrom has been as follows:—

	Rs.	A.	P.
Collections under Road Cess Act ...	48,804	12	10
Other cesses ...	1,595	9	6
Ferry tolls ...	826	15	6
Miscellaneous ...	390	6	2
Cash balance of 1874-75	39,224	5	8
Total ...	90,752	1	8

	Rs.	A.	P.

District engineering establishment and contingencies	6,352	11	1
Original works	7,184	0	7
Repairs	6,718	2	0
Refunds	282	3	8
Tools and plant	1,080	11	9
Total ...	26,367	2	1

leaving a large cash balance of Rs. 64,584-15-7 unexpended at the close of the year. This the Chairman of the District Road Cess Committee explains was due to the fact that there was no District Engineer until the middle* of the working season, and consequently but little could be done. The non-completion of the plan and estimate of the Rajbari road and of the Hobra khall, proposed to be undertaken within the year, may also be urged as some excuse for this; but at the same time I do not feel satisfied that some portion at least of the balance could not, had more energy been displayed, have been spent in village roads and canals, which afford ample scope for a useful expenditure of money all over the district.

* District Engineer was appointed under Government order No 591, dated 17th December 1875, and he joined his appointment in January 1876.

10. None of the original works, except two or three petty ones, proposed in the last report to be undertaken during the year, have been executed or even commenced. The sum of Rs. 7,184-0-7, shewn to have been spent in "Original Works," has been principally expended in the Goalundo sub-division in making some railway feeder roads.† The principal roads of the district have been put in proper repair, and Rs. 6,718-2 have been well spent on them.

† Entered in the revised budget estimate submitted with this office No. 29R., dated 19th April 1876.

11. Besides the District Road Cess Committee at Furreedpore, which met nine times, there are two Branch Committees—one at Madaripore and another at Goalundo: the former had four and the latter six sittings during the year. Considering the means at its disposal, the Committee at Goalundo has worked most energetically and successfully, the one at Madaripore having done the least. During the last two years it has been unable to spend even a thousand rupees in the entire sub-division of Madaripore, although its ordinary requirements demanded an outlay of many times that amount. The Chairman's remarks in paragraph 7 of his report, dated the 14th November 1874, hereto appended, to the effect that the people of the sub-division of Madaripore do not care for roads, is not borne out by the real state of things, for on a visit which I recently paid to one of the five thanas of the sub-division, I received several petitions from the inhabitants for roads. To show, too, that they were quite willing to contribute towards the cost of what they so much desired, I may mention that one native gentleman offered Rs. 5,000 for a road from his village to the police station, while another, in begging for a road to connect his village with a daily market, offered to contribute largely towards its cost if the Committee would only undertake it. This, I am glad to say, has since been taken in hand.

12. In February 1876 the small outturn of work in the sub-division of Madaripore was particularly noticed and pointed out to the Chairman of the District Road Cess Committee, his attention being called to the Government circular No. 32, of the 27th September 1873, and the Government proclamation notifying the rates of road cess for 1873-74, which enjoined that every effort should be made to see that "all local claims are freely met, and that every tax-payer derives a fair benefit from the tax which he pays." He will be again shortly addressed on the subject, and I trust that the current year will show a much more satisfactory outturn of work than the past.

13. The following works are proposed to be undertaken during the current year in addition to the repairs of the existing roads and petty village works:—

	No.
(1) Rajbari road	6
(2) Godda Bazar „	61
(3) Furreedpore „	60
(4) Hamdampore „	62
(5) Road from Furreedpore to Madaripore	11

		No.
(6)	Panchash Hazaree road	59
(7)	Excavation of a khall from Kalligunge to Hurrydaspoor	82
(8)	Ditto of Amsarbeel	83
(9)	Ditto Ramnugger khall	79
(10)	Ditto Marra Pudda	80
(11)	Ditto Kistopore khall	81

at an aggregate cost of Rs. 1,04,000.

14. Some of these works are large and will not be completed, even if undertaken, during the year, as the plans and estimate of none of the works, except those of Rajbari road and of Ramnugger and Kistopore khalls, have as yet been received. The Chairman's attention has been called to this, and he has been desired to push on this work as much as possible, and to see at all events that there is no avoidable delay in his office.

15. *Backergunge.*—In Backergunge the total receipts amounted to Rs. 32,893-6-1, as per details given on the margin; nearly two-thirds of which were spent on office establishment and contingencies to complete the valuations of the numerous estates and under-tenures of the district. The remainder was spent on original works and repairs, leaving a balance of Rs. 2,603-10-4 at the close of the year.

	Rs.	A.	P.

* In Government notification No. 364, dated 20th July 1875, an allotment of Rs. 20,000 was made from the Provincial Reserve Fund, but subsequently half of the amount was withdrawn under order No. 1725, dated 8th April 1876.

16. With the means at the disposal of the District Road Cess Committee nothing more could be expected. They had to meet only once during the year to consider the budget estimate of works to be undertaken in the current year, there having been no other matters for deliberation.

17. Under the orders of Government No. 2230, dated 29th August last, to the address of the Board of Revenue, road cess commenced to be levied from 1st October. The receipts are estimated to amount to nearly one and a half lakhs.

The following original works, in addition to repairs of existing roads and bridges, have been proposed for the current year:—

(1)	Gournadi road	No. 6.
(2)	Backergunge road	,, 7.
(3)	Basunda road	,, 8.
(4)	Two bridges on the Jhallokati road	,, 1.
(5)	Kumarkhali khall	Not numbered yet. The list is under revision.
(6)	Taltollah ,, ...	
(7)	Punabalya ,, ...	
(8)	Nulchitti Bharani khall ...	

18. Beyond repairs to existing roads and bridges, and the execution of some petty original works, nothing more can be expected within the present year, as the working season is now so far advanced and a proper working establishment has still to be organized. A separate application will be made on the subject mooted in paragraph 11 of the Chairman's report of the 9th February 1877, hereto appended.

	Rs	A.	P.
Collections under Road Cess Act	1,40,138	14	3
Other cesses	165	10	0
Ferry tolls	5,067	5	9
Miscellaneous	349	5	3
Total ...	1,45,721	3	3

19. *Mymensingh.*—In Mymensingh the receipts amounted to Rs. 1,45,721-3-3, from which the deficit balance of last year, amounting to Rs. 48,243-0-3, being deducted, there remained Rs. 97,478-3-0 available for expenditure during the year.

The subjoined memorandum shews how this sum was laid out:—

Rs.	A.	P.	
9,503	3	7	on account of office establishment and contingencies;
15,253	12	6	on account of engineering establishment, and payment to Government on account of services rendered by Public Works Department officers;
38,596	1	3	on account of original works;
24,570	15	7	ditto of repairs;
2,651	7	9	ditto of tools and plant;
Total ... 90,575	8	8	

leaving a balance of Rs. 6,902-10-4 at the close of the year.

20. A large amount of work has been done both under the head of "Original Works" and "Repairs," but none of the works executed or undertaken had been formally sanctioned, nor have plans and estimates of any of the original works as yet been received in my office. The Chairman of the Road Cess Committee having been called upon to explain this disregard of standing rules, refers to paragraphs 13 to 17 of his report herewith submitted, and adds that the inclusion of the works in the budgets of the last year submitted by this office to Government was considered as conveying sanction to their execution. In this he is certainly wrong; and however strong may be the arguments advanced in the paragraphs of his report above referred to, it is clear that existing rules, until can-

celled or modified, must be strictly adhered to. To this subject I shall revert at the close of this report. I would merely add here, with reference to what the Chairman says in the 17th paragraph of his report, that he appears to be altogether under a misapprehension. There is nothing in paragraphs 17 and 18 of my predecessor's report, No. 653R., dated 8th February last, which approves of works being carried on in an informal manner.

21. The expenditure on village roads in the sudder sub-division has been very small, being only Rs. 55-14 against Rs. 1,000 budgeted; while in the sub-division of Atia and Jamalpore the expenditure has been nearly double the amount allotted, and in Kishengunge sub-division the allotment has been exceeded by Rs. 120. The Chairman has been requested to explain these.

22. The works proposed to be undertaken during the current year are as follow :—

		No.
(1)	Road from Ramgopalpore to Eshwargunge	12
(2)	Ditto Shumbhoogunge to Doorgapore	10
(3)	Ditto Mudhoopore to Tangail	11
(4)	Timber bridges on the Subankhally road	1
(5)	Repairs to existing roads	

at an aggregate cost of Rs. 55,230.

23. *Tipperah.*—In Tipperah the amount available for expenditure during the year was Rs. 1,35,651-10-0, of which—

	Rs.	A.	P.
Collections under Road Cess Act ...	86,801	0	3
Other cesses ...	1,091	5	1
Ferry tolls ...	21,48	2	11
Miscellaneous ...	6,698	11	9
Cash balance of 1874-75 ...	38,012	6	0
Total ...	1,35,651	10	0

Rs.	8,039	2	8	were on account of office establishment and contingencies.
,,	17,102	5	6	ditto of engineering establishment and contingencies.
,,	60,436	15	3	ditto original works.
,,	10,568	2	3	ditto repairs.
,,	3,806	5	9	ditto tools and plant.
,,	2,061	5	6	ditto refunds.
Total ...	1,02,015	5	1	have been expended, leaving a balance

of Rs. 33,637-4-11 at the close of the year.

24. The Chairman's report, with enclosures herewith submitted, give full details of the works executed, and I have nothing to add to it beyond expressing my approbation of the energy, zeal, and discretion with which the works have been carried out. I notice prominently that out of the sum of Rs. 60,436-15-5, shown under the head of "Original Works," upwards of Rs. 30,000 have been spent in village roads, which must have gone far towards convincing the rural population that the road cess levied from them was meant to be expended for their benefit.

25. The engineering establishment, it seems to me, is rather larger and more costly than it need be, and is possibly susceptible of some reduction. The Chairman will be addressed on the subject. Petty works may frequently be carried on without much professional supervision, as the villagers for whose benefit they are intended would gladly undertake to execute them properly if they are allowed the sums estimated for them.

26. The works proposed to be undertaken during the current year are as follow :—

(1)	Brahmunberiah road ...	...	Nos. 3 and 4.
(2)	Kalibazar ,, ...	...	No. 10.
(3)	Augurtollah ,, ...	...	,, 16.
(4)	Comillah embanked road ...	...	,, 56.
(5)	Kuddumtullee road ...	...	,, 7.
(6)	Repairs to existing roads and canals.		

27. In addition to the above, the Laksham road between Tipperah and Noakhally, which was proposed to be undertaken in the last year, may be undertaken this year. Its plans and estimate are now under preparation. The Mukram khall, proposed last year, has been for the present disapproved in consequence of some engineering difficulties.

28. *General remarks.*—The working establishment of each district, except Backergunge, where the cess had not begun to be levied, was sufficient for its requirements. Under the classification laid down in the Government resolution No. 1209, dated 8th March 1875, Mymensingh and Tipperah are each districts of the 1st class, and each have a District Engineer of its own, with several overseers. Dacca and Backergunge are in the 2nd class, all their works having been carried out by overseers of the District Committees, under the professional supervision of the Divisional Executive Engineer. Furreedpore is in the 3rd class, with a Resident Engineer of its own, and some overseers under him.

29. The largest amount of work was done in Tipperah, and its several Road Committees appear to have worked with great energy and zeal, while the outturn of work in Furreedpore, compared with its income, has been the least.

30. In conclusion, I would take this opportunity of adverting to one or two of the rules for the guidance of District Committees and Engineers in carrying out works from Road Cess Funds, as contained in Government orders No. 173, dated 7th May 1872, and

No. 1209, dated 8th March 1875, and first with regard to rule 5 of the first orders, which requires the Superintending Engineer to make regular tours of inspection at least once a year. It will be seen from the report of the Chairman of the Mymensingh Committee that the Superintending Engineer has not seen a single work, either original or of repair, since 1873. Mr. Pawsey's remarks as to the necessity or, at all events, the advisability of this officer having some acquaintance with the district appear to me to have much truth in them; and the result of this want of knowledge appears to be not unfrequently waste of time and an expenditure of money that would not be necessary had this officer any acquaintance with the general features of the country. I think, therefore, that for the future these tours should be insisted on.

31. I think it would facilitate the operations of the Committee if the money limit on their power of sanctioning original works were extended.

In cases where the District Engineer has the qualifications of an Executive Engineer, and where the proposed work could not injure the country by obstructing the drainage, or in any other way, I think this limit might with advantage be raised from Rs. 2,500 to Rs. 5,000, and in cases where he has those of an Assistant Engineer, from Rs. 1,500 to Rs. 2,500, or perhaps Rs. 3,000. Similarly I would extend Commissioner's powers of sanction to Rs. 15,000, subject, as now, in the case of works costing above Rs. 10,000, to the professional approval of the Superintending Engineer. Repairs may continue to be dealt with as at present. There is seldom any delay in these being taken in hand, as the Commissioner's powers of sanction are unlimited, and his approval can at all times be speedily obtained.

32. It has been recently ruled that the widening of an existing road must be treated as a new work. I venture to think this is not necessary. The mere widening of a road is usually hardly a matter for professional consideration; indeed such works have generally to be undertaken in consequence of some purely local circumstances with which the Local Committee may, I think, be safely left to deal, provided the cost of such work does not exceed the limit up to which they can carry out repairs. When this is exceeded the Commissioner's sanction should be obtained.

Vide letter No. 40, dated 16th January last, from Secretary to Government, Public Works Department.

33. In Mymensingh and Backergunge particularly there will soon be a very large annual income available for expenditure on district works. The requirements of both are almost illimitable, and I am very strongly of opinion that some increased facilities for carrying on works are much required. The District Committees are composed of men of intelligence and local knowledge; they have the means of obtaining proper professional advice, and as the money under their controlis raised from their own district, I think they may safely be trusted to spend it to the best advantage, and to work subject to fewer restrictions than they are at present.

DISTRICT ROAD FUND.

NOTIFICATION.

No. 204.

The 13th July 1877.

UNDER Section 89 of Act X (B.C.) of 1871, the following annual accounts and reports of the Road Cess Committees of Chittagong, Noakholly, and Chittagong Hill Tracts, of works done and in progress during the past cess year 1875-76, together with the remarks thereon of the Commissioner of the Chittagong Division, are published for general information.

G. A. D. ANLEY, C.E.,

Asst. Secy. to the Govt. of Bengal
in the Public Works Dept.

No. 36L., dated Chittagong, the 8th December 1876.

From—BABOO NOBIN CHUNDER SEN, Vice-Chairman, District Road Committee,
To—The Chairman of the District Road Committee, Chittagong.

I HAVE the honor to submit a report of the Road Cess Committee's operations in the district during the cess year 1875-76, together with the detailed account current of the receipts and expenditure of the District Road Fund for the same year.

2. The Committee during the year consisted of 5 official and 10 non-official members, and they had 7 meetings, the average attendance being 6·14. The names of the members, together with the number of meetings attended by them, are given below :—

Official.

Names of Members.	Designation.	Number of meetings.
T. M. Kirkwood, Esq. ...	Magistrate and Collector ...	4
J. C. Veasey, Esq. ...	Covenanted Deputy Collector ...	2

F. E. Pargiter, Esq. ...	Assistant Collector, in charge, road cess	5
Baboo Khetter Mohun Bose ...	Executive Engineer	4
B. Rattray, Esq. ...	District Superintendent ...	1

Non-official.

R. Macalpine, Esq. ...	Tea Planter	6
W. Campbell, Esq. ...	Ditto	2
Baboo Lal Chand Chowdry ...	Zemindar and Merchant ...	3
„ Kanta Persad Hazari ...	Zemindar	6
„ Gopee Mohun Ghose ...	Ditto	0
Shaik Abdul Malum ...	Merchant	7
Baboo Rames Churun Roy ...	Zemindar	0
Meah Mobaruk Ali Chowdry	Ditto	0
Shaik Abdullah Khan ...	Ditto	0
„ Assanullah Chowdry ...	Ditto	0

An abstract of attendance is also submitted with the appendix in the regular form.

The following members were conspicuous by their non-attendance; and as they neither take any interest in any other way in matters connected with the district road, their names ought to be removed from the list, and their places usefully filled up :—

Baboo Gopee Mohun Ghose.
„ Rames Churun Roy.
Moulvi Mobaruk Ali Chowdry.
„ Abdullah Khan.
Moulvi Assanullah Chowdry.

The rest of the members have, I think, evinced fair activity and interest in discussing matters that were laid before them, though, owing to the paucity of funds, there was nothing of any exceptionable importance done during the year.

3. The estimated receipts of the year, as contrasted with the actuals, are shown below :—

	Estimated receipts.			Actual receipts.		
	Rs.	A.	P.	Rs.	A.	P.
1. Miscellaneous cesses	1,450	0	0	2,656	9	2
2. Canal tolls	7,410	0	0	6,558	0	0
3. Ferry tolls	6,663	0	0	7,204	5	0
4. Grant-in-aid from Government	7,500	0	0	7,500	0	0
5. Ditto khas mehal	1,034	0	0	.....		
6. Ditto private source ...	2,200	0	0	600	0	0
7. Fines and refunds	.....			95	11	9
8. Miscellaneous receipts	6,958	0	0	99	11	3
Total ...	33,215	0	0	24,714	5	2
Balance at close of 1874-75 ...	5,592	4	10	5,592	4	10
GRAND TOTAL ...	38,807	4	10	30,306	10	0

It will be thus seen that the actual has fallen short of the estimates by Rs. 8,500-10-10, the reason being as follows.

Canal tolls.—The canals were sold for Rs. 7,410, out of which Rs. 741 were realized in 1874-75 and Rs. 5,844 have been realized during the year, the balance being Rs. 825, of which Rs. 318 have been remitted, as one of the canals was closed during a part of the year for silt clearance, and Rs. 507 have yet to be realized from the farmers. Besides Rs. 5,844 realized as stated above, Rs. 714 have also been credited to the last year's account, being the advance for the current year.

Khas mehal.—The Collector has declined to pay this grant that was estimated from Government khas mehal, as Government sanction has not yet been received by him. It is difficult to account for this extraordinary delay; the amount has, however, been credited to the current year's estimate.

Out of Rs. 2,200, estimated as receipts from private sources, Rs. 1,600, which was expected from the Conservator of the Port, has been withheld, as there was no sufficient surplus at credit of the Port Fund—*vide* Commissioner's letter No. 82C.C., dated the 5th May 1876.

Miscellaneous receipts.—Under the heading of Miscellaneous receipts, Rs. 6,958 was expected to be refunded by Government, as this amount was advanced by the District Road Fund to the road cess assessment establishment; but as the Accountant-General, Bengal, latterly, by his letter No. 697T.M., dated the 28th September 1875, has simply authorized us to overdraw our fund by Rs. 1,250 every month for the said establishment, the estimated amount could not be recovered. Rs. 99 shown above as receipts are proceeds from other sources.

Increase is observable only in cases of miscellaneous cesses and ferry tolls. The former is attributable to the realization of Rs. 1,196 over and above the amount estimated as fines for non-submission of returns under the Road Cess Act, and the latter is chiefly due to the increased sales and the consequent increase in the advance of the current year. This year they sold for Rs. 8,632, against Rs. 6,663 of the previous year.

4. The subjoined table shows the estimated as well as the actual expenditure of the year under report:—

Deficit at close of 1875-76	.....	15,417 8 0

The above figures will show that the Committee's finance is not at all in a flourishing state. The actual expenditure exceeds the estimate by about Rs. 17,000, Rs. 22,138-12-5 having alone been advanced to the road cess collection establishment, for which no provision was made in our estimate, under the impression that the necessary funds will be supplied by the Government, subject to repayment from the proceeds of the road cess when it begins to be collected. But, as explained above, Government has subsequently decided otherwise. The actual expenditure, both on original works and repairs—noticeably on the former—shows a considerable falling off from the estimate, owing to the sanction of the Superintending Engineer to the estimate of the former having been received too late in the year—*vide* Commissioner's letter No. 109G.M., dated the 16th March 1876. This, however, looking to the drain that was put on our fund by the road cess valuation establishment, must, I think, be considered fortunate, otherwise we would have been landed in a greater bankruptcy than what is shown above. As it is, we have begun the year with a deficit of about Rs. 15,000.

All road and canal works, original and repair, were undertaken during the year under report by the Committee's own establishment, the original works alone being under the supervision of the Executive Engineer. The total cost of establishment, together with the percentage (4½ on the value of the original works) paid to the Executive Engineer, was Rs. 4,209, or about 25 per cent. of the total outlay, viz. Rs. 14,475. This high percentage is attributable solely to the paucity of outlay. The work done was little, but nevertheless it was scattered all over the year, and the establishment had to be retained in full.

5. The details of the work done during the year will be found in the Appendix B. It may, however, be briefly stated here that over 87½ miles of road repairs have been executed, while 3½ miles have been constructed during the year; and with this slight addition indicated above, the length of the unmetalled roads in this district may be stated at 307 miles. This slight addition was made to the Hill Tracts and Ramghur roads. The importance of these two roads was strongly pointed out in the last annual report; but the Committee regret that, owing to the lowness of their fund, there is little prospect of these two lines of roadways being completed even in another two years.

Besides the above, one mile of Banskhali canal was also cleared of its silt.

6. The prospect of the current year is also by no means cheering. Considering the want of the district, little has been done during the year under review: that during the current year promises to be still less. The receipt of the current year has been estimated at Rs. 25,000, while the cost of the road cess collection establishment alone is expected

* Sanctioned by the Board of Revenue as per No. 2058, of 17th August 1875.

to be about Rs. 20,000. Our budget was framed with an estimated deficit of Rs. 35,000 at the end of the year, it being understood that Government will allow us to overdraw our fund for the cost of the said establishment; but while our budget, on the one hand, has been returned for submission of a revised one equalizing the receipts and disbursements of the year, the treasury officer has, on the other hand, already deducted Rs. 10,000 from our current year's receipts on account of the deficit at the end of the last year, which amounted to Rs. 15,000. So we have virtually only Rs. 15,000 as our receipts, a portion of which only we will, I think, be able to lay out on roads, as, until we have run completely through our funds, we will have to bear the cost of the collection establishment.

7. This is not all. The cyclone, which passed over the district just after the close of year, viz. on the night of the 31st October last, has caused considerable damage to several roads and bridges, some of the latter having been completely swept away. It was only last year that the Committee sustained serious loss by an unprecedented inundation, the effects of which on their roads and bridges have not as yet been wholly removed; and the late cyclone will, therefore, probably make it necessary for them to apply for a loan from Government to be repaid from the proceeds of the road cess. Details of the damages caused by the late cyclone are given below.

Arracan Road.—A portion of the western side of the road and the wooden bridge No. 1 have been washed away. A temporary bamboo bridge has lately been put on in the place of the latter.

Chandpore Road.—This road has sustained great damage in several places. Two piles of the bridge No. 1, and the platform of the bridge No. 21, have been carried away; also the approaches of all the bridges have been severely injured, and the bridges are now made passable by putting up bamboo platforms on either ends.

Anwara Road.—The slope of the road has been partly washed away by the inundation, but no damage done to the existing bridges.

Moiskhal Strand Road.—The road has severely been damaged in two places, and the stone ballasts which were put alongside on the slope of the road, for protection of the embankment from the river Kurnafoolee, have partly been swept away by the inundation. A masonry pillar of the bridge No. 5 has fallen down, and the abutments and wings of the bridges Nos. 4 and 5 have slightly been injured.

Moiskhal towing path.—This road and its bridges have sustained great damage by the flood Four wooden bridges from the line of this road have been swept away; temporary bamboo bridges have been put up in order to make the road passable for foot traffic.

Khaloo Ghât Road.—This road has been injured in several places, and the existing bridges, with the exception of one which has suffered rather badly, have all been damaged by the inundation.

8. In conclusion, I have to notice with satisfaction the conduct of the officers who were borne during the year on the Committee's establishment. The District Overseer has shown his usual activity and energy throughout the year, and was prompt in carrying out the orders of his superiors. The Committee's clerk also deserves favourable notice. He has discharged his responsible, and somewhat intricate duty with great punctuality and attention. I regret that, compared with other districts, his pay is rather small; but I hope the Committee will gladly take his case into their special consideration when the collection of the road cess will enable them to give him an increase.

No. 49L., dated Chittagong, the 15th December 1876.

Memo. by—H. J. NEWBERY, Esq., Chairman of the District Road Committee.

COPY forwarded to the Commissioner of the Chittagong Division. The finances are of course in a very depressed state, and I see no way out of the difficulty but to incur a debt to Government, to be repaid by instalments from the time the assessments are completed. At present establishment swallows up so much that the fund, as a road fund, is altogether paralysed.

APPENDIX B.

Memorandum of Chittagong District Works executed during the year 1875-76.

ORIGINAL WORKS.

Roads and Bridges.

Widening and straightening the Ramghur road.—This road has been widened and straightened two miles between the 18th and 19th miles, and made passable for carts.

Widening and straightening the Hill Tracts road.—One and a half mile of embankment has been completed on this road between the 3rd and 6th miles.

River and canal works.—Banskhali canal.—The canal has been cleared out one mile in length from the mouth of Kodala Nallah to Kookorree Surrah, and it is in fair condition; no repair will be executed during the current year.

REPAIRS.

Roads and Bridges.

Repairs to the Arracan road.—This road has received surface repair between the east bank of the river Kurnafoolee to the north bank of the old Hanger Nallah, on the 4th, 6th, 7th, 15th, 16th, 22nd, 23rd, 25th, 26th, 27th and 28th miles; wooden bridges Nos. 1, 2, 3, 9, 12, and 15, have been repaired, and partly the level of the road on the 8th and 9th miles has been raised. The road is in fair condition, and passable for carts. The floating jetty has been re-fixed, and a new road has been branched off from the Arracan road leading to the jetty (200 feet in length and 12 feet wide) on the east bank of the Kurnafoolee and on the mouth of the Boalkhali canal, and it is perfectly in good order: 81,867 bricks have been made for construction of abutments and wing walls to the ends of bridges Nos. 22½, 23, and 25 on the 16th mile.

The construction and repair to the bamboo bridges on the Southern Arracan, Gurjoneeah, Ukheah, Nheela, Juldee, Parkee, Eastern Hill Tracts, and Raujan roads, have been completed, and the jungles from the sides of the hilly road have also been cleared out.

The masonry abutments and wings to the north ends of the bridges Nos. 23 and 25, and the wings walls to the culvert No. 22½, will be constructed during the current year in place of the old wings, which have been damaged by the floods of August 1875. Necessary surface repair to the road will be executed from east bank of the river Kurnafoolee to the Choonate hills, and the bridges will receive necessary repairs.

Wooden revetment and wings will be put on to the east approach of the bridge No. 9 over the Nallah Chandkhali.

Repairs to the Ramghur road.—Surface repair has been made to the road between 3rd and 26th miles, and 20 wooden bridges have been repaired. The road and bridges are in fair condition, and are passable for vehicles. During the year 1876-77 necessary repairs to the road as well as to the bridges will be done from the northern boundary of the Municipality to Jogeeny Ghât. The road will be widened and straightened between Coterpur and 15th mile, as this was not completed in 1875-76.

Repairs to the Hill Tracts road.—Necessary repairs on the surface of the road from Hâthazari to the third mile have been done, and the wooden bridge No. 4 has been repaired. It is in good condition, and passable for carts up to one and a quarter mile; the remaining part being unfit for cart traffic, owing to the absence of bridges and narrowness of the old bridge No. 4. In 1876-77 surface repair will be executed to the road, and the bridges Nos. 1, 2, and 4, will be repaired. It is proposed to extend the road from Sultanpore to the western boundary of the hill tracts by the old Raujan road.

Surface repairs to the following minor roads have been executed:—Tipperah pass road, Nasirabad road, Kalurghat road, Bakolia road, Hallieshahar road, Moheskhali towing path, Moishkhali strand road, Chandpur road, Unwara road, Poroykora road, Shakirapole road, Dhulghat road.

Bridge No. 4 has thoroughly been repaired on the Shakirapole road; seven old wooden bridges have received repairs on the Chandpur road, and eighteen bamboo revetments have been placed to the approaches of nine bridges on the same; one wooden bridge on the Dhalghat road has also been repaired.

Repairs to the Ramoo road.—40,893 cubic feet of earth-work were done in filling up gaps of this road, at a cost of Rs. 92-11-1; ninety-two thick jarool planks were purchased at a cost of Rs. 276 for bridge work, and Rs. 3-1 were incurred in conveyance and removal of the same to proper places.

Petty repairs were done to the extension of this road to the beach, at a cost of Re. 0-12-9.

No. 1R.C.C., dated Noakholly, the 28th February 1877.

From—R. PORCH, Esq., Offg. Magistrate and Chairman, District Road Cess Committee, Noakholly,

To—The Commissioner of the Chittagong Division.

I HAVE the honor to submit the following report in connection with the local works undertaken during the past cess year ending with the 30th of September 1876.

2. During the year under report there have been three sittings of the District Road Cess Committee, attended by the following members:—

Meeting held on the 3rd November 1875.

A. Manson, Esq., *Chairman.*
Babu Bogula Prosono Mojumdar, *Vice-Chairman.*
A. Blair, Esq., *Official Member.*
Moulvi Abdul Aziz Khan, *Non-official Member.*

3. This meeting was called to consider the annual accounts, but as a quorum was not formed nothing could be done; but, with the concurrence of the members present, the accounts were passed and submitted under the Chairman's countersignature.

4. *Meeting held on 10th May 1876.*

PRESENT:

R. Porch, Esq., *Chairman.*
Babu Bogula Prosono Mojumdar, *Vice-Chairman.*
Moulvi Abdul Aziz Khan, *Non-official Member.*

5. The business proposed to be transacted in this meeting had to be deferred to another meeting owing to no quorum having been got together; but, in consideration of the urgency, the revision of the budget, which formed one of the subjects of business proposed to be considered by the Committee, was passed under the sanction of the Chairman.

6. *Meeting held on 15th August 1876.*

PRESENT:

R. Porch, Esq., *Chairman.*
Babu Bogula Prosono Mojumdar, *Vice-Chairman.*
Moulvi Abdul Aziz Khan, *Non-official Member.*
Hasan Ali Chowdhry, ditto.
Babu Chandra Nath Chowdhry, ditto.
Munshi Munwar Meah, ditto.
Babu Kali Nath Bose, *ex-officio Road Cess Deputy Collector.*

7. This was the only meeting during the year in which a quorum was got together, and the very important business, viz. the consideration of the budget estimate for the cess year 1876-77, was transacted and submitted to your office, viz. to the Commissioner of the Division.

8. As hitherto, the District Road Cess Committee of Noakholly has been found to be nominal in character. The members living in the interior take little interest and no part in the Committee's business, and render no assistance whatever in the execution of projects for local improvements.

9. The management of the works carried out in the district falls upon the Chairman, along with the direction of the Committee's business. The Chairman has to suggest the works and put forward projects for the working establishment. During the last three years not a single suggestion from any member in the interior connected with local improvements has been received. No one among them notices the way in which any road work in their immediate vicinity has been carried out.

10. The business of the Committee is for the most part delayed, and otherwise inconvenienced, owing to the difficulty of getting a quorum together.

11. The members of the Committee out in the district are generally very apathetic, and can hardly be got to apply themselves to any object not immediately and visibly productive of individual lucrative advantage.

12. Nothing but the promotion of their own interests ever brings them willingly to the head-quarters. They only leave home when their absence for a time is likely to be of personal benefit.

13. Their ways, habits, and idiosyncrasies, do not as yet fit them for being active practical members of a working committee at head-quarters; they are all of them, nevertheless, useful, as associated with the head of the district for district improvements; and communicating personally with these local representatives on road cess matters when on tour near their homes I consider to be an important part of the duties of the cold-weather tour, and do not object to such persons continuing members of the Committee, though, consulting their own convenience, they may seldom or never attend the meetings of the Committee. There is much to be said in excuse for these well-meaning men, whose homes are a long way from the station.

14. I have recently submitted certain nominations of neighbouring residents as members of the District Road Cess Committee, and hope that when those nominations are sanctioned, the inconvenience now felt in the transaction of the Committee's business will be obviated to a certain extent by exalting the requirements of the law to be at once fulfilled.

15. During the year under report, the district roads sustained considerable damage from the flood of August 1875, and they could not be restored to fair order even owing to paucity of funds and to the sudden and unexpected curtailment of the Government grant. Every possible effort was made to move the Government to reconsider its order in respect to the withdrawal of the allotment made to this district, but without success. An attempt was made also to procure a loan, which was disallowed; the Committee then had no alternative but to carry out urgent and necessary repairs as far as means at their disposal admitted.

16. During the year the following works have been executed.

17. Four miles of the Lucksham road were raised and widened at a cost of Rs. 2,350-1-3. The earthwork done to this portion of the road amounted to 779,620 cubic feet.

18. The masonry work of the six timber-topped bridges on the Lucksham road was completed at a cost of Rs. 207-4-11. The necessary materials were procured in the preceding year, but the planking of the bridges was deferred for want of funds.

19. Bamboo spurs and palisades were fixed at Mohindaghona to prevent an encroachment on the road by the Noakholly khall. This work is carried out every year for the protection of the road. The Committee proposed to alter the line of the road, and laid down Rs. 800 for the purpose in the original estimate for the year under notice as a measure of economy, wishing thereby to avoid annual waste of money by temporary construction of bamboo spurs; but the project was temporarily abandoned, owing to the curtailment of the budget grant.

20. A section of the Shahebghatta road was altered owing to the original line of road having been cut away by the current of the Noakholly khall.

21. *Rivers and canals.*—The only work undertaken during the year under notice under this head is the cutting of a short canal at Shahebghatta, to save the Taktakhali road and the adjacent country from the constant encroachment of the Noakholly khal. This was a cutting of a bend of the khal to straighten the passage and to divert the stream. This work was finished, at a cost of Rs. 1,179-5-3, to a distance of 2,000 feet.

22. Parts of the district main roads passing through the sudder station have been metalled to the extent of 1,190 cubic feet.

23. Considerable repairs were done to the main roads of the district, viz. Devangunge, Begumgunge, Old Lakhipur, Taktakhally, Chittagong, and Luksham roads: Rs. 6,309-7 were thus expended on these roads.

24. Surface and slope repairs, jungle clearing, and filling up rat-holes, have been attended to on the other petty roads of the district, so as to render them passable.

25. The station roads were dressed to a length of 268,750 feet, and levelled to the extent of 207,000 cubic feet earth-work.

26. The Ramgunge road has been repaired to the extent of 226,900 cubic feet. Much earth-work was done to it in order to make it passable by travellers and convenient for the conveyance of the dâk. This road, though not open to much cart-traffic, is much frequented by people of that part of the district when coming to and from between head-quarters and the interior.

27. The flood of August 1875, and the incessant rains that fell during the year, caused considerable damage to the district bridges. Also they were made passable by repairing the masonry portions, and by re-planking the superstructure where necessary, so as to prevent any interruption of traffic, so far as the limited means at the disposal of the Committee would admit of.

28. Besides the amount disbursed from the District Road Cess Fund, Rs. 262 were spent during the year from the Circuit-house Fund in improving the roads leading to the circuit-house, by repairs to the existing roads and by the construction of two culverts.

29. The Dhumchur bridge, where a toll-bar is established, had undergone considerable repairs. Part of the bridge had been reconstructed by building masonry buttresses and

renewing the wooden platform. Rs. 1,472-14-4 had to be spent on this bridge owing to the damage it had sustained from the flood of August 1875.

30. The same work has to be renewed this year, as all that was done last year was swept away by the cyclone and inundation of the 31st of October last. Immediate steps were taken to restore it as before.

31. I may remark here that the cyclone and inundation of the 31st October 1876 have caused very great injury to the district roads and bridges, and a considerable amount will have to be expended to restore them to their former condition.

32. I have the honor to state that the submission of this report has been delayed owing to the non-receipt of certain information called for from the Executive Engineer of the division, which has not yet been supplied.

33. As it does not seem expedient to wait for the above information, I beg to submit the report as it is, without further delay.

Chittagong	Noakholly.	4	14	6	3	2	4·6	9	1	1	0	1	2	5	2	Great difficulty was experienced in forming a quorum, owing to the non-attendance of the non-official members in the Committee. This might be attributed owing to these residents being distantly situated from the head-quarters, and also for their not taking any interest in the matter of local improvement.

Explanation.

AN increase of Rs. 9-6 will be observed under the head of "Miscellaneous," and a decrease of the same amount under the head of "Tolls," when compared with the quarterly returns. This was owing to the amount having been shown in the third quarterly return under the head of "Tolls" instead of "Miscellaneous."

A decrease of the sum of Rs. 466-14-8 will also be seen under the head of "Repairs" when compared with the quarterly returns. As the amount of Rs. 350 advanced from this office direct to Mr. Andrews, local Overseer, was included in the fourth quarterly return, and now omitted owing to the Executive Engineer having proposed to show the amount in his account in the present cess year, the amount was shown in the annual account as outstanding balance. A further sum of Rs. 116-14-8 has been deducted from the outlay on repairs of roads and bridges, under the instructions of the Examiner of Public Works Accounts, Bengal.

3. At the commencement of the year there were Rs. 8,071-4-6 outstanding on account of advances made to Tipras in 1872 for immigrating into Myoni Valley, and for advances made to sufferers during the heavy floods of July and August 1875, as per Bengal Government letters, Nos. 3071 and 2137, of 18th May 1872 and 25th August 1875, received with Commissioner's Nos. 257 and 294H, of 23rd May 1872, and 4th September 1875, respectively. From the amount in question Rs. 6,001-4-7 were recovered during the year, leaving a small balance of Rs. 2,069-15-11 recoverable during 1876-77; but to that amount a sum of Rs. 4,829 was added, owing to the scarcity which prevailed in the Chingree Valley and in other places within the Hill Tracts during the last rainy season, which scarcity was warded off by advances to hill chiefs and other headmen. Both the above items of advances make up a sum total of Rs. 6,898-15-11 shown under the head of advances outstanding at the close of the year under review. The greater portion of these will undoubtedly be reimbursed to Government in cash or labour during the next four or five months.

4. The sum of Rs. 3,600, shown as balance at credit of deposits, was added to the funds of this district in May 1874 by the Accountant-General of Bengal, which amount is in excess of this District Road Fund grant. The Treasury Officer and the Accountant-General were repeatedly requested to adjust the accounts, but they have not done so up to date.

5. The District Road Cess Act, X of 1871, cannot be introduced into this district, as there are no landed interests on which the tax may be levied; hence a Road Cess Committee has not hitherto been needed in this district. The works are executed under the immediate supervision and control of the Deputy Commissioner, and the expenditure is incurred under the authority of the Commissioner of Chittagong.

6. The following works were executed on the main road from the Rangamattee towards Chittagong.

7. *Communication, original works, Roads and Bridges, South-Eastern Trunk Road, Looshai Branch, Rangamattee, towards Chittagong, 24 miles. Class IV, No.* 5.—The sides of the hills near Rangamattee for a distance extending over a mile were levelled, giving a breadth to the road varying from ten to eighteen feet at the top; and about 97,000 cubic feet of earth were excavated and removed: cost, Rs. 972-6-4.

8. About two miles of road running through marshy land was made into a permanent road by excavating and throwing on that road about 350,000 cubic feet of earth, at a cost of Rs. 2,938-5-8. A large quantity of the earth was brought from a distance of 150 to 200 yards. This part of the road opens out a large piece of flat land watered by small hill streams to plough cultivation. A part of the land was taken up for that purpose by some hillmen and a dam constructed to collect water for the purpose of destroying the jungle

which grows luxuriantly on both sides of the road; but unfortunately the embankment gave way in August last, and the large collection of water covering an immense area of rice land escaped. The men will reconstruct the dam next dry season.

9. The top of the hill near Rangamattee was cut, and 191,000 cubic feet of earth removed: cost, Rs. 1,494-8-6. The height of the hill has now been reduced by about 50 feet, rendering it easy to climb, and has been nearly fitted for wheeled carts.

10. About 70,000 cubic feet of earth were cut and removed from Manickcherry hill at a cost of Rs. 615-4. The Executive Engineer has requested a large portion of that hill to be cut down, without which a road practicable for wheeled carts cannot be made.

11. About 300 feet of the rocky sides of hills below Goagramoin on the above road were cut and the road improved: cost, Rs. 190-3.

12. About 1,450 yards of small roads were constructed at the station at a cost of Rs. 292-2, by cutting the sides of hills and removing 18,200 cubic feet of earth; and 700 yards of road from the police new hospital to the foot of the Deputy Commissioner's cutcherry at Rangamattee improved by cutting 5,000 cubic feet of earth: cost, Rs. 195.

13. Of the 89 temporary bridges constructed on the road from Rangamattee towards Chittagong, 64 were made of bamboos with light wooden logs and props, and 25 of thick logs of wood. Mules and cattle can pass over the former, and elephants over the latter bridges. The total length of these is about 2,000 feet, and the average breadth about 5½ feet: cost, Rs. 2,024-7-3.

14. A dam for keeping a reserve of water was constructed at Rangamattee at a cost of Rs. 471-10, and 11,800 cubic feet of earth were thrown and turfed at the junction of the beds of two hill streams. A waste drain was also cut to a length of 160 feet with a depth of 7 feet. It has stood the rains, and is in good order.

15. A masonry spring well for pure water was constructed at a cost of Rs. 425-6-6 below the new hospital at Rangamattee. The well and its water are in excellent condition.

16. A circuit bungalow was constructed at Rangamattee,—*vide* Bengal Government letter No. 3935, of 7th August 1875: cost, Rs. 712-9.

17. A village road to Linginullah from the bank of the river Kurnafoolee was constructed by cutting and removing jungle: cost, Rs. 28.

18. *Kurnafoolee River, one mile. Class IV, No.* 9.—The channel at Uttanchuttra, between Rangamattee and Demagree, of the river Kurnafoolee, was improved by cutting and removing *débris* which had collected during the rains: cost, Rs. 492-15-1.

19. *Repairs and maintenance, Chunderconah, towards Rangamattee, three miles. Class II, No.* 2.—Repaired three miles of road from Chunderconah, towards Rangamattee, by cutting and removing jungle; also the wooden bridge on that road: cost, Rs. 21-13-8.

20. *Rangamattee, towards Chittagong, 24 miles. Class IV, No.* 5.—Repaired twenty miles of road from Rangamattee, towards Chittagong, twice in the year—once in December and again from August onwards, by cutting and removing jungle and sunn grass: cost, Rs. 568-0-9.

21. *Débris* and boulders which had fallen on the road towards Chittagong were removed: cost, Rs. 160-5-6. About 650 yards of road, at a cost of Rs. 96-10; the revetment of the road and two masonry wells, at a cost of Rs. 68-12-9, were repaired and white-washed at head-quarters.

22. Bricks were burnt and lime purchased for repairing the masonry ghât at Rangamattee at a cost of Rs. 145-2; but the repairs could not be executed owing to an outbreak of cholera towards the close of March and beginning of April last, and to the setting in of the rains earlier than usual. The repairs will be executed as early as they can conveniently be taken in hand during the present cold weather.

23. *Ruma to Rangamattee, 66 miles. Class IV, No.* 7.—About 24 miles of road from Ruma, towards Rangamattee, were repaired by cutting and removing jungle twice in the year—once in December, again in July and August last, and ten temporary bridges made on that road: cost, Rs. 560.

24. *Rangamattee, towards Chittagong, 24 miles. Class IV, No.* 5.—The survey of the road from Rangamattee towards Chittagong, which had been placed under the supervision and direction of the Executive Engineer of Chittagong about the commencement of the road cess year, was closed in July last; but that officer has re-opened the survey of a part of the road which passes through the foot of high hills and is intersected by several hill streams. The levels of the road have yet to be taken and the estimate framed.

25. The road from Rangamattee towards Chittagong, which is being surveyed, will undoubtedly be of great importance when completed in opening out the Kurnafoolee Valley. The road from that district towards Rangamattee is pushed on for that purpose with great energy and vigour (*see* annual report of that District Road Fund for 1874-75, published in *Calcutta Gazette* of 10th May 1876, Part I, page 469), but owing to want of funds the construction of the road from this district lags far behind. It will take years before it can be made fit for carts.

26. *Establishment, contribution to Public Works Department.*—Under Government Notification No. 364, of 20th July 1875, the grant-in-aid from the Provincial Reserve Funds for 1875-76 was Rs. 15,000. On its basis the budget estimate was framed and submitted with this office letter No. 151R., of 17th September 1875, and a sum of Rs. 3,385 was reserved for contribution to Public Works Department; but subsequently, by Government Proceedings No. 1725, of 8th April 1876, the grant was reduced to Rs. 7,500, and a revised

estimate was forwarded with this office No. 118, of 28th April last, fixing the amount of contribution for that Department at Rs. 2,531-3-3, as follows :—

	Rs.	A.	P.
For surveying the road from Rangamattee towards Ghittagong by Public Works Department	2,031	3	3
Further contribution to Public Works Department ...	500	0	0
Total ...	2,531	3	3

The Government of Bengal has not sanctioned the above allotment, but has required (*vide* its Proceedings No. 3101A., of 29th August 1876, received with Commissioner's No. 372G.M., of 14th September 1876,) to be placed at the credit of the Department of Public Works the large sum of Rs. 3,385, and the Controller of Accounts has thrown the burden of the survey, to the extent of Rs. 1,077-10-8, on the local establishment. The two items make a total of Rs. 4,462-10-8, the payment of which, on account of establishment, is quite out of proportion for a small district like the Chittagong Hill Tracts, the only income of which is the grant-in-aid from the Provincial Reserve Fund, not amounting to more than Rs. 7,000 to Rs. 10,000 annually. If the above payment be made, the funds of this district will greatly be crippled. Moreover, the services rendered to this district by the Public Works Department is the veriest trifle in comparison with those rendered to the regulation district of Chittagong, in which the contribution is about 4½ per cent.,—*see* Bengal Government Proceedings No. 4002, of 11th August 1875, paragraph 8, received with Commissioner's endorsement No. 328G.M., of 1st September 1875.

27. The expenditure on account of local establishment—special allowance of Mr. A. DeRozario, Inspector of Police, Rs. 600; salary of a mohurir and two Overseers, Rs. 259-7-8; new tools and repairs, Rs. 34-0-3—needs no explanation.

28. *Communications, original works, Road and Bridges, South-Eastern Trunk Road, Looshai Branch, from Rangamattee towards Chittagong, 24 miles. Class IV, No. 5.*—The execution of the following works are proposed for the year 1876-77.

29. Constructing one and a half mile of road from Rangapaniabil towards Chittagong by raising the earth-work three feet in height and 18 feet broad on the top: cost, Rs. 1,500.

30. Cutting down the top of Manickcherry hill, at a cost of Rs. 2,000, so as to make it practicable for carts.

31. Constructing half a mile of road by cutting the sides of Manickcherry hill: cost, Rs. 400.

32. Constructing one and a half mile of road from the foot of Manickcherry hill towards Chittagong by raising the earth-work three feet high, and making the road 18 feet broad at the top: cost, Rs. 1,500.

33. Clearing jungle to construct three and a half miles of the above road: cost, Rs. 75.

34. Improving the roads at the head-quarters station of Rangamattee: cost, Rs. 400.

35. Constructing a road from the foot of the Police office hill towards the bazar at Rangamattee: cost, Rs. 100.

36. Improving the road from the hospital to the river: cost, Rs. 40.

37. Compensation for taking up land for the construction of three miles of road from Rowjaun thana, in Chittagong, towards Rangamattee: cost, Rs. 2,000.

38. Raising the dam at Rangamattee for a roadway 18 feet broad, six feet high, 150 feet long: cost, Rs. 450.

39. Constructing a road from Ruma to Polityc, one from Porce Rajah's village to Pyramid Hill and another road from Tega to Oipoom No. 1, the new frontier police posts, at Rs. 600 each, Rs. 1,800.

40. *Ruma to Rangamatee, 66 miles. Class IV, No. 7.*—Constructing a road at Ruma, the head-quarters of the Sungoo sub-division: cost, Rs. 250.

41. Constructing a village road from the bank of river Kurnafoolee to Singinullah, two miles in length, four feet in breadth, by cutting drains on both sides and throwing the earth on the road: cost, Rs. 80.

42. *Maintenance and repairs, Roads and Bridges, Rangamattee towards Chittagong, 24 miles. Class IV, No 5.*—The following repairs are entered in the budget estimate :—Repairing two and a half miles of road from Rangamatee to Rangapaniabil: cost, Rs. 500; one mile of road at the head-quarters of Rangamatee: cost, Rs. 150; one and a half mile of road below Gogra Hill by cutting and removing *débris*: cost, Rs. 100; 89 temporary bridges: cost, Rs. 712; the wooden bridge at Rangamattee: cost, Rs. 25; repairing and keeping the road open from Rangamattee towards Chittagong by cutting and removing jungle and sunn grass twice in the year—once in December, and again in July and September: cost, Rs. 500; the masonry ghât, the revetment and three wells: cost, Rs. 325.

43. *Ruma to Rangamattee, 66 miles. Class IV, No. 7.*—Repairing 24 miles of road from Ruma towards Rangamattee by cutting and removing jungle and sunn grass twice in the year—once in December, again in August and September: cost, Rs. 600.

44. *Kurnafoolee River, 1 mile. Class IV, No. 9.*—Repairing 1 mile of channel at Uttaunchuttra Rapids, between Rangamattee and Demagree, in the river Kurnafoolee: cost, Rs. 150.

45. Repairing two and a half miles of road from Feskichera to Burkal: cost, Rs. 250.

46. *Chunderconah, towards Rangamattee, three miles. Class II, No. 2.*—Repairing three miles of road from Chunderconah towards Rangamattee, by cutting and clearing jungle and by surface repair of the road: cost, Rs. 30.

47. *Establishment.*—Cost of surveying the road from Rangamattee towards Chittagong, Rs. 680, and for the services of the Executive Engineer and his establishment, Rs. 200, total Rs. 880, are reserved for contribution to Public Works Department. For local establishment, Rs. 600, special allowance of Mr. A. DeRozario, Inspector of Police, and the salary of a mohurir Rs. 120.

48. A sum of Rs. 100 for new tools and repairs, and Rs. 463-10-7 for unforeseen contingencies, are entered in the budget estimates.

49. The following is the sum total of the proposed budget estimates for 1876-77:—

	Rs.	A.	P.
Actual balance available on the 1st October 1876 ...	6,100	10	7
Grant-in-aid from Provincial Reserve Fund ...	10,000	0	0
Total ...	16,100	10	7
Expenditure proposed, original works, roads and bridges	10,595	0	0
Maintenance and repairs, roads and bridges ...	3,192	0	0
River and canal works	150	0	0
Contribution to Public Works Department... ...	880	0	0
Local establishments	720	0	0
New tools and repairs	100	0	0
Unforeseen contingencies	463	10	7
Total as above ...	16,100	10	7

50. During the cyclone on the morning of the 1st November some damage was caused to the temporary bridges, and a considerable number of big trees have fallen on the road from Rangamattee towards Chittagong, on which account the budget estimates of this district will hardly be affected.

51. The survey of the road from Ruma to Rangamattee, which was sanctioned by the Commissioner in his letter No. 309G.M., of 18th August 1875, at a cost of Rs. 1,500, could not be carried out, owing to a fit officer not being available to execute the work, hence the works on that road cannot be estimated for, and that sub-division has not the proper means of communication either with the men of the plains or the head-quarters of the district.

52. Finally, it is gratifying to state that the year 1876-77 has opened a field for competition for labour in the hill tracts. Hitherto, all works were executed by hill and Bengali coolies employed at a fixed salary, and very little work could be obtained from them, while the expenditure was exceedingly large. This year all earth-work has been made over to a contractor at Rs. 4-8 per every 1,000 cubic feet, and there is every likelihood that much work will be executed at a very much smaller expenditure. This being only the commencement, savings may be effected in subsequent years and changes made in the rates of contract.

53. Statement No. 6, Parts I and II, and memoranda are enclosed.

J. ANDERSON,
Officiating Deputy Commissioner.

No. 103G.M., dated Chittagong, the 5th April 1877.

From—E. E. LOWIS, Esq., Commissioner of the Chittagong Division,
To—The Secretary to the Government of Bengal, Public Works Dept.

I HAVE the honor to submit the following report on the operation of the District Road Fund in the district of the Chittagong Division during the cess year ending 30th September 1876, and to forward herewith the divisional accounts of the fund, together with copies of the district reports and accounts for the cess year in question.

2. The submission of this report has again been delayed this year owing to the non-receipt of a complete report from the Chairman of the District Road Committee, Noakholly, until the 3rd ultimo. The attention of the Chairman has been drawn to this delay.

3. An abstract of particulars regarding the meetings of the District Road Committees in the regulation districts of this division during the year also accompanies. There being no landed interest properly speaking in the Hill Tracts on which the road cess may be levied, Act X (B.C.) of 1871 has not been extended to that district, nor has any committee been formed for the management of its road fund, which rests solely with the Deputy Commissioner.

4. During the year under review the Committee in Chittagong consisted of five official and ten non-official members, and they had seven meetings, the average attendance being 6·14.

5. Some of the non-official members were conspicuous by their non-attendance, and are reported to have evinced no interest whatever in the duties entrusted to them. The Vice-Chairman suggests that their names should be removed from the list of members, and their places filled up by men who are likely to take interest in a work of this nature. The Chairman has accordingly been asked to revise the list and, if necessary, to submit fresh nominations. The rest of the members seem to have shown fair activity and interest in discussing matters that were laid before them.

6. In Noakholly the Committee comprised four official and 14 non-official members. They had only three meetings, with an average attendance of eight, in two of which no quorum could be formed. This is most unsatisfactory. The Chairman has not only been, as he admits, transacting the business of the meetings himself in the absence of a quorum, which is irregular, but it is a matter for surprise how virtually in one meeting the business of a whole year could have been satisfactorily disposed of. As, however, the Chairman

expects no such difficulty in forming a quorum after the late revision of the list of members, I have taken no further notice of the matter than to intimate that I expect there will be a marked improvement in this respect during the current year.

7. The non-official members are reported to have taken no interest in matters connected with the district road works, nor to have lent any assistance in the execution of them.

8. The receipts of this division during the year under review on account of the District Road Fund amounted to Rs. 44,377, against Rs. 56,054-3-5 of the preceding year, viz.—

	Cess year. 1875-76. Rs. A. P.	Cess year. 1874-75. Rs. A. P.

9. The total receipts (Rs. 44,377) during the year, with the unexpended balance (Rs. 25,736-0-3) of the preceding year, aggregating Rs. 70,113-0-3, was available for expenditure during the year.

10. The actual expenditure was, however, Rs. 79,641-10-4 during the year under review, against Rs. 82,303-3-9 of the preceding year, viz.—

	Cess year. 1875-76. Rs. A. P.	Cess year. 1874-75. Rs. A. P.
On collection of revenue	23,331 9 8	8,318 5 1

On establishment	7,314 5 6	4,932 4 10
On tools and plant	429 15 5	2,490 0 7
Total ...	79,641 10 4	82,303 3 9

11. The total expenditure (Rs. 79,641-10-4) of the year under review, with the unexpended balance (Rs. 14,174-1-11) on the 30th September 1876, amounted to Rs. 93,815-12-3, out of which Rs. 20,102-12 were deficit overdrawn from the treasury by the Chairman of the Chittagong District Road Committee in excess of the actual receipts, the fund at his disposal having been inadequate to meet the annual requirements; while Rs. 3,600 remained as a balance at credit of deposits not included in the fund at the disposal of the Deputy Commissioner as unadjusted balance.

12. As the valuations under the District Road Cess Act X (B.C.) of 1871 were not completed in Chittagong and Noakholly, where the Act has been introduced, the cess on land, &c., could not be realized during the year. This, combined with the withdrawal (*vide* Government orders No. 1725, of 8th April 1876,) of half the grant-in-aid allowed by Government resolution No. 3710, of the 24th July 1875, precluded the execution of many urgent works in those districts as well as in the Hill Tracts, which latter district entirely depends on grant-in-aid, there being no local sources of income.

13. With the diminished resources at their disposal the Committee managed in a measure to maintain their roads, bridges, &c., doing slight repairs on many of them, at the same time executing the most urgent original works.

14. The cost of repairs and maintenance during the year in this division amounted to Rs. 21,274-3-3, and of original works to Rs. 27,291-8-6. Of the former, Rs. 2,361-0-7 were spent for the maintenance of Kumaria and Moishkhal ferries in Chittagong, and of the latter, Rs. 2,600 were paid as compensation for lands acquired during the year, the cost of original works and repairs having been curtailed to the utmost.

15. There was, however, a very large expenditure of Rs. 22,844-14-9 in Chittagong on establishment that had to be entertained to make assessment, under the District Road Cess Act, on the numerous petty estates which exist in that district. The maintenance of this establishment has told seriously on the Committee's resources, and, as will be seen from its annual accounts and reports, has almost reduced the fund to a state of bankruptcy; but the Committee, it is hoped, will shortly recover from this financial difficulty, as the cess is expected to be levied in Chittagong from the commencement of the ensuing cess year.

16. It is pleasing to note that in the district of Chittagong a sum of Rs. 600 was obtained from private contribution, offered by Sheik Abdool Maloom and Kali Kumar De, towards the construction of roads in the neighbourhood of their respective villages.

17. The following is a statement showing the proposed works and the amounts estimated to be spent on them during the current year :—

18. In Chittagong the estimates originally drawn up had to be curtailed, owing to there being no fund at the disposal of the Committee; and pending the orders of Government, solicited in this office memorandum No. 17G.M., dated the 18th January last, the works in this district have been entirely kept in abeyance, as the greater part of the sum, made up of the advances sanctioned by Government and the grant-in-aid, contributions, receipts from ferries, &c., and overdrawals, has already been absorbed in the maintenance of the road cess establishment.

19. The cyclone of the 31st October last did much damage to many of the district roads in Noakholly, and the estimates that were originally drawn up by the Committee had therefore to be revised, the repairs to the damaged roads being first provided for.

HIGH COURT NOTICES.

RULES FOR REGULATING SALES BY THE REGISTRAR.

IT is ordered that the following Rules be read and passed as the Rules and Orders of the High Court of Judicature at Fort William in Bengal, to take effect from the first day of August 1877:—

Copy of decree or order for sale to be filed in the Account Department.

1. An office copy of every decree or order for the sale of property otherwise than in execution shall be filed in the Account Department of the Registrar's Office.

Sale to be conducted by, or with the approbation of, the Registrar.

By public auction.

Exception.

2. Unless otherwise ordered, every such sale shall be by, or with the approbation of, the Registrar, and shall be made by public auction, except that if the property to be sold shall consist of negotiable securities, or of shares in any railway, banking, or other public company or corporation, the Registrar shall be at liberty to sell the same through a broker at the market rate of the day.

Sale to be to the best purchaser offering a sufficient sum.

3. Every such sale shall be to the best purchaser that can be got for the same, provided the Registrar shall consider that a sufficient sum has been offered.

Conduct of proceedings.

4. When mortgaged property is to be sold, the mortgagee, or first mortgagee, and in other cases the plaintiff, or party having the carriage of the general proceedings, shall have the carriage of the proceedings relating to the sale; but a Judge may, when necessary, commit the carriage of such proceedings to any other party.

Documents of title to be left with the Registrar, and to be disposed of under his directions.

5. All documents of title relating to the property to be sold in the possession or power of any of the parties shall be produced to and left with the Registrar, and shall be subject to his directions, both as to their custody pending the sale and their ultimate destination, such directions being subject to appeal to a Judge.

Appeal.

Mode of notifying sale of Calcutta property.

6. A notification of every intended sale by public auction under these rules shall be published in the *Calcutta Gazette*, and such other public papers, and as often, as the Registrar shall direct, having regard to the nature and value of the property to be sold; and shall also, when the property to be sold is out of Calcutta, be proclaimed and published in the mode prescribed by the Code of Civil Procedure for the notification of sales in execution.

Of mofussil property.

Sale to be regulated by conditions.

7. Every such sale shall be regulated by conditions in writing, which, when immoveable property is to be sold, shall be adapted to the state of the title to such property.

Notification and conditions of sale and abstract of title by whom to be prepared.

8. The notification and conditions of sale, together with, when immoveable property is to be sold, an abstract of title, shall be prepared by the attorney of the party having the carriage of the proceedings.

Notification of sale.

9. The notification shall specify the time and place of sale, and shall contain a description and particulars of the property, together with a statement that it is to be sold by, or with the approbation of, the Registrar pursuant to a decree or order of the Court, and of the manner in which it is proposed to lot the same. When the property, or any portion of it, is to be sold subject to an incumbrance, the nature and amount of such incumbrance shall, as far as practicable, be also stated.

Conditions of sale.

10. The conditions of sale shall be as few and simple as may be compatible with the nature of the property to be sold. If a reserved bidding be fixed, the fact of a reserved bidding having been fixed, but not the amount, shall be stated in the conditions. When moveable property is to be sold, unless otherwise ordered or agreed to by the parties, it shall be a condition that the whole of the purchase-money shall be paid to the Registrar at the time of the sale, and that upon such payment the sale shall become absolute and delivery of the property sold given to the purchaser, but that in default of such payment the property shall be again immediately put up for sale. When immoveable property is to be sold, unless otherwise ordered or agreed to by the parties, it shall be a condition that not less than twenty-five per cent. of the purchase-money shall be deposited with the Registrar at the time of the sale, and that, unless so deposited, the property shall immediately be again put up for sale: and it shall be stated in the conditions that the purchaser shall, at his own expense, take such steps as may be necessary for the purpose of obtaining possession. When immoveable property is to be sold in lots, and the same muniments of title relate to more than one lot, or when the same muniments of title relate to property a portion of which remains unsold, provision shall be made in the conditions for the destination of the original muniments, and for the production thereof and the furnishing of copies.

Settlement of notification and conditions.

11. The notification, conditions, and abstract shall be left with the Registrar, and an appointment obtained from him to go through the same. Notice of such appointment shall be served on all parties entitled to attend. At such appointment, or an adjournment thereof, the notification and conditions shall be settled, the day, time, and place of the sale fixed, the days appointed for delivery of the abstract and of objections and requisitions to and on the title, and for payment into Court of the purchase-money, and the notification shall be signed and issued, and directions given for its publication.

Reserved bidding.

12. When a sale is ordered at the instance of a subsequent incumbrancer or of a mortgagor, or when a party having the carriage of the proceedings has obtained leave to bid, unless otherwise ordered, or unless dispensed with by the proper parties, a reserved bidding shall be fixed by the Registrar. The Registrar may also in any other case in which it may be deemed necesary or desirable fix a reserved bidding.

Valuation.

13. For the purpose of fixing a reserved bidding, the Registrar may, on notice to the parties, direct a valuation, or a survey and valuation, to be made of the property to be sold. The same shall be made by a surveyor or other competent person to be appointed by the Registrar, who shall certify the result under his signature, and shall deliver or transmit such certificate to the Registrar under a sealed cover, with the words on the cover, "private and to be opened only by the Registrar." The Registrar may, if he shall think fit, require the certificate to be verified by an affidavit or affirmation of the valuer. In that case the certificate shall be referred to without being annexed to or filed with the affidavit or affirmation, which shall be so prepared as not to disclose the contents of the certificate. On the reserved bidding being fixed, the certificate shall be put up in a sealed cover and kept with the proceedings.

Mode of certifying and verifying.

Reserved bidding not to be divulged.

14. Unless otherwise ordered, the reserved bidding shall not be divulged to any person either before, at, or after the sale.

15. On the notification and conditions being settled, a fair copy thereof, and of the abstract, shall be filed in the Account Department of the Registrar's Office.

Copy of notification; conditions, and abstract to be filed.

16. A copy of the notification and conditions of sale, with a translation thereof in the Bengali language, shall be posted up at the door of the Registrar's sale-room on the day of the sale, and for a week previously.

Copy of notification and conditions, with translation, to be posted up.

17. When immoveable property out of Calcutta, or any right, title, or interest in such property, is to be sold, two copies of the notification, and of a translation thereof in the current language of the district in which the property is situate, shall be transmitted by the Registrar to the Judge of the principal Court of the district in which the property is situate, with a letter requesting that one copy of the notification and translation may be affixed on the Court House of the Judge, and that the other copy thereof may be affixed on the office of the Collector of the district, and that the intended sale may be otherwise proclaimed in the mode prescribed by the Code of Civil Procedure for the notification of sales in execution of decrees, and that a certificate that such notification has been duly made may be sent to this Court without delay.

Notification of sale of mofussil property to be proclaimed and published in the district in which it is situate.

18. In any case in which it may be deemed desirable, and the value of the property to be sold shall admit of it, it shall be in the discretion of the Registrar to cause the conditions of sale, or any part thereof, to be published with the notification, and also, with a view to give greater publicity to the sale, to cause hand-bills to be prepared and distributed.

When conditions of sale to be published and hand-bills distributed.

19. The attorney of the party having the carriage of the proceedings, or his principal clerk, shall be present at the sale.

Attorney conducting the proceedings to be present at the sale.

20. On the day, and at the time and place appointed for the sale, the notification and conditions of sale shall be read out in the English and Bengali languages preparatory to the property being put up for sale. The name of each bidder shall be entered in the Registrar's note-book, and each bid offered by him shall be entered opposite his name.

Sale.
Biddings to be entered in the Registrar's note-book.

21. If there be no bid, or the highest bid be below the reserved price [if any], or be deemed insufficient by the Registrar, he shall postpone the sale and record the reason for such postponement in his note-book.

Postponement of sale for want of sufficient bidding.

22. If the highest bid be equal to or higher than the reserved price [if any], or be deemed sufficient by the Registrar, he shall, subject to the provisions of Rule 23, make an entry in his note-book to the following effect: "I declare A. B. to be the purchaser of the property comprised in lot——for the sum of rupees——."

When property sold, form of entry to be made in the Registrar's note-book.

23. If in the case of moveable property the purchase-money, or so much thereof as may be payable at the time of the sale, or if in the case of immoveable property the amount to be deposited, be not at once paid to, or deposited with, the Registrar, the bid of the person who would otherwise have been declared the purchaser shall be rejected, and the property again immediately put up for sale: provided that, at the request and risk of the party having the carriage of the proceedings, such bid may be accepted and time allowed to the purchaser to pay the amount payable by him.

Property to be again immediately put up for sale if deposit or purchase-money not paid.

24. The result of the sale shall also be set forth in a paper to be called "the bidding paper," with particulars showing the lots which have been sold and for what price, and the lots which have not been sold, and stating the names of the purchasers, and what sums have been received as deposits, and the balance remaining due in respect of each purchase. If there be no bid for any lot, the words "no bidding" shall be written in the bidding paper opposite the number of the lot. If the highest bid be deemed insufficient, the words "not sold" shall be written opposite the number of the lot. If the property be sold, the highest bid shall be inserted opposite the number of the lot, and the purchaser shall write his full name opposite such entry, and shall add his address and quality. All notices thereafter served at the address so given shall be deemed to have been duly served.

Bidding paper.

To be signed by the purchaser,

25. A person purchasing as agent for another shall sign the bidding paper as such, giving the full name, address, and quality both of himself and his principal. All notices thereafter served at either of the addresses so given shall be deemed to have been duly served.

or by his agent as such.

26. The Registrar, if unable to attend on the day appointed for the sale, or for other sufficient cause, or with the consent of the parties, may postpone the sale. The costs of a postponement rendered necessary by the Registrar's absence, or the conduct of the party whose property is to be sold, shall be costs in the cause. The costs of a postponement made at the request of a party shall be borne by him, or as shall be consented to be by the parties.

Postponement of sale otherwise than under Rule 21.

27. When a sale is postponed, the Registrar shall be at liberty, without further order, to appoint a new day for the sale of the property, and, on notice to the parties, to make any necessary alterations in the notification and conditions of sale.

When sale postponed, a new day to be fixed.

28. When a sale is postponed, or when a re-sale is directed, a fresh notification shall be issued and published, and the proceedings down to the certificate of sale shall be similar to those on an original sale.

Proceedings on a postponed sale or re-sale.

29. The Registrar shall, as soon as possible after the sale, proceed to certify the result. Such certificate shall, within eight days after the sale, be filed by, and at the cost of, the party having the carriage of the proceedings. In case of his neglect, the purchaser of the property comprised in any lot shall be at liberty to file the same and to retain the cost out of the purchase-money.

Certificate of result of sale.

30. A certificate of the result of a sale of moveable property shall not be liable to objection, but a certificate of the result of a sale of immoveable property, or a certificate upon any question as to title, or stating who are necessary parties to a conveyance, or of the approval of a conveyance, may be objected to like any other certificate or report of an officer.

Certificates that may be objected to.

31. If no application be made to discharge or vary a certificate of sale of immoveable property within the time allowed for applying to discharge or vary a certificate or report of an officer, such certificate of sale, except as provided in Rule 55, shall be deemed to be confirmed from and after the expiration of the time aforesaid.

Certificate of sale confirmed by effluxion of time.

32. A purchaser may, at his own expense, apply, on summons, for an order to confirm any certificate liable to be objected to under Rule 30 before the expiration of the time allowed for applying to discharge or vary the same, and such order shall be made thereon as to the Judge shall seem fit.

Certificates confirmed by order.

33. If the abstract of title be not delivered within the time specified in the conditions of sale, a summons may be taken out by the purchaser and served on the party conducting the proceedings, requiring him to deliver the abstract within a limited time. Such order shall be made thereon, and as to the costs of the application, as to the Judge shall seem fit.

Application to compel delivery of abstract.

Costs.

34. Any disputed question arising out of objections or requisitions by a purchaser may be brought by either party before the Registrar, who shall certify his opinion, and shall also certify by whom the costs ought to be paid.

Questions arising out of objections or requisitions.

Costs.

35. When important questions of title are in dispute, either party may apply, on summons, for an order that it may be referred to the Registrar to enquire whether a good title can be made.

Inquiry whether a good title can be made.

36. If the title be found to be good on grounds not appearing on the abstract, the purchaser, unless otherwise ordered, shall be entitled to his costs of the enquiry. If the title be found to be good on grounds appearing on the abstract, the purchaser, unless his objections have been frivolous and vexatious, or unless otherwise ordered, shall not be liable to pay more than his own costs of the enquiry.

Costs of enquiry.

37. When a sale of immoveable property is set aside, the purchaser, unless precluded by the conditions of sale, or unless otherwise ordered, shall be entitled to receive back his deposit or purchase-money, and to be paid his costs, charges, and expenses occasioned by his bidding for and being declared the purchaser of the property, and of and incidental to his application to be discharged. If there be a fund in Court standing to the credit of the cause, the purchaser's taxed costs, charges, and expenses may be ordered to be paid out of it; but if there be no such fund, the costs, charges, and expenses may be ordered to be paid by the party having the carriage of the proceedings, or otherwise as the Judge may think fit, without prejudice to the question by whom such costs, charges, and expenses shall be ultimately borne and paid.

If sale set aside, purchaser entitled to receive back his deposit or purchase-money with costs.

38. After a certificate of sale has become binding, the purchaser may, if prepared to accept the title, apply for leave to pay the balance of the purchase-money into Court, to the credit of the suit, or he may, if not prepared to accept the title, apply for leave to pay the purchase-money into Court, without prejudice to any question as to the title to the property. The application shall be made on summons to the party having the carriage of the proceedings, and also to the party whose property has been sold. Such terms as to the Judge shall seem fit may be imposed upon the purchaser as to his paying interest upon the purchase-money, or waiving his right to the rents in the event of a good title being made to the property up to the time when the question as to title shall be determined.

Application by purchaser for leave to pay his purchase-money into Court.

39. Any party interested may apply, on summons, for such order or orders as it may be necessary to obtain for the purpose of compelling a purchaser who has neglected to pay his purchase-money in due time to comply with the conditions of sale. Such order or orders may be made subject to the right [if any] of the purchaser to obtain an enquiry as to whether a good title can be made.

Application by any other party against defaulting purchaser.

Direction for investment of purchase-money.

40. When an application is made under either of the last two preceding rules for payment of the purchase-money into Court, the purchaser, or the attorney of the party having the carriage of the proceedings, may at the same time obtain directions for the investment of the purchase-money. Any subsequent application for that purpose shall be on summons, and, unless otherwise ordered, at the expense of the applicant.

Purchase-money to remain uninvested until otherwise ordered.

41. The purchase-money, if paid into Court without any directions as to investment, shall, until otherwise ordered, remain uninvested.

Not to be paid out without notice to the purchaser.

42. The purchase-money, after being paid into Court, shall not be paid out or otherwise disposed of, except under an order to be obtained from a Judge in chambers, on summons to the purchaser.

Purchaser when deemed to have accepted the title.

43. A purchaser of immoveable property, or of any right, title, or interest in such property, who pays his purchase-money into Court without his right to object to the title being reserved, or who enters into possession, shall be deemed to have accepted the title.

Possession of moveable property.

44. On the purchase-money of moveable property being paid, the purchaser, unless otherwise provided for in the conditions of sale, shall be entitled to obtain immediate possession thereof; and if such property shall consist of negotiable securities, or of any shares in any railway, banking, or other public company or corporation, to have the same duly transferred to him.

Transfer of securities and shares.

Conveyance.

45. On the purchase-money for immoveable property being paid, the purchaser [except in cases in which the legal estate is already in him, and the equitable estate has passed to him by virtue of the sale so as to complete his title] shall be entitled to a proper conveyance, in which all necessary parties shall join as the Registrar shall direct, but shall not be entitled to a certificate of sale under the provisions of the Code of Civil Procedure.

By whom to be prepared.

46. Unless otherwise ordered, the conveyance shall be prepared by and at the expense of the purchaser, and shall be sent for approval to the attorney of the party having the conduct of the proceedings.

Improper delay in perusing and returning.

Costs.

47. If there be any improper delay in perusing and returning the conveyance to the purchaser, he may apply, on summons, for the return thereof to him; and such order shall be made thereon, and as to costs, as to the Judge shall seem fit.

Conveyance to be settled by the Registrar.

48. Subject to appeal to a Judge, every conveyance shall be settled by the Registrar if the parties differ about the same, or if any of them be under any legal disability.

Certificate of approval.

49. When a conveyance is settled by the Registrar, a certificate of approval shall be issued by him.

Proceeding to procure execution of conveyance.

50. If any person certified by the Registrar to be a necessary party to a conveyance be a minor, or otherwise under disability, or, being *sui juris*, shall neglect or refuse to execute the conveyance, an order may be obtained, in the case of a person under disability, directing the Registrar to execute the conveyance for him and in his name, and, in other cases, directing the person to execute the conveyance within a time to be fixed by the order, and, in default thereof, directing the Registrar to execute the same for him and in his name. The application shall be on summons, and shall be supported by an affidavit or affirmation of the facts; and it shall be shown that the person required to execute the conveyance was certified by the Registrar to be a necessary party, and that the conveyance has been approved of by such party or by the Registrar. Unless otherwise ordered, the costs of such application, in the case of a person under disability, shall be part of the costs of the sale, and, in other cases, shall be borne and paid by the defaulting party.

Costs.

Possession of immoveable property.

51. On the purchase money for immoveable property being paid, and the title accepted, the purchaser shall be entitled to proceed to obtain possession of the property purchased by him in like manner as the purchaser of immoveable property sold in execution under the provisions of the Code of Civil Procedure, and, unless otherwise provided for in the conditions of sale, the costs of such proceedings shall be payable by the defaulting party, or, if he cannot be made to pay the same, by the party liable in the first instance to pay the costs of sale.

Costs.

Bidding not to be opened. Exception.

52. No bidding shall be opened except with the consent of the purchaser, or unless it be shown that there has been fraud or misconduct in the management of the sale, or that the purchaser, by reason of being in a fiduciary position, was disqualified from purchasing.

Leave to bid.

53. A party to the cause may obtain leave to bid at the sale. Such leave, if not contained in the decree or order directing the sale, may be obtained on summons; but the costs of a separate application, unless otherwise ordered, shall be borne and paid by the applicant.

Costs.

Costs of infructuous sale when party conducting proceedings has leave to bid.

54. When a party having the conduct of the proceedings has obtained leave to bid, the costs of an infructuous sale, unless otherwise ordered, shall be borne and paid by him.

Special certificate.

Confirmation.

Costs.

55. If a party to the cause not having the conduct of the proceedings without obtaining previous leave to bid be accepted as the purchaser, that fact, together with the circumstances under which he was allowed to bid, shall be specially stated in the certificate of sale. In every such case the certificate of sale shall not be binding without an order to be obtained on summons. Unless otherwise ordered, the costs of obtaining the order shall be the costs of the person so accepted as the purchaser.

Application of incumbrancer to be made a party to the suit or to join in the sale.

56. An incumbrancer not a party to the suit may, at any time before the sale, apply by motion in Court to be made a party, or without being formally made a party, for leave to join in the sales, and such order shall be made thereon, and in protection of his rights and as to costs, as to the Judge shall seem fit.

Substitution of name.

57. The name of a principal or sub-purchaser shall not be substituted for that of the person certified to be the purchaser without an order to be applied for on summons. The application shall be supported by an affidavit or affirmation stating the facts; and when it is sought to substitute the name of a sub-purchaser for that of an original purchaser, the affidavit or affirmation shall also show that there was no collusion or under bargain between the purchaser and sub-purchaser before the certificate of sale was binding, or shall disclose the terms of the under bargain, if any.

Not allowed after execution of conveyance.

58. No order shall be made for the substitution of names under the last preceding rule after the execution of a conveyance to a purchaser.

When additional price, if any, to be paid into Court.

59. Unless it shall appear that the purchase by a sub-purchaser was made after the certificate of sale had become binding, or unless otherwise ordered, every order for the substitution of the name of a sub-purchaser for that of an original purchaser, shall be made subject to the payment into Court as part of the purchase-money of any additional price obtained by the original purchaser from the sub-purchaser.

One application to be made for the substitution of names and payment of purchase-money.

60. Application for the substitution of names under Rule 57 may be made as part of the application for leave to pay the purchase-money into Court.

Extra costs of obtaining substitution of names.

61. Unless otherwise ordered, all extra costs incurred in obtaining the substitution of names under Rule 58, beyond those of an ordinary application for payment of the purchase-money into Court, shall be borne by the principal whose name is to be substituted for that of an agent, or by the sub-purchaser, whose name is to be substituted for that of an original purchaser

Forms.

62. The forms set forth in the schedule A annexed are to be followed, with such variations and additions as the circumstances of each case may require.

Sale by private contract.

63. The sale of property ordered to be sold by the Registrar by private contract shall be regulated by the foregoing rules, so far as they are applicable.

Provision for the performance of the Registrar's duties during his absence.

64. In case of the temporary absence of the Registrar, the chief clerk or other qualified officer may be authorized by the Chief Justice to perform the duties usually performed by the Registrar, whether in connection with sales or otherwise.

SCHEDULE OF FORMS REFERRED TO IN RULE 62.

[FORM OF ORDINARY CONDITIONS OF SALE OF IMMOVEABLE PROPERTY.]

Conditions of Sale of the property described in the Notification of Sale in suit No. of 187 .

1. No person shall advance a less sum than Rs. or retract a bidding.
2. The sale is subject to a reserved bidding, which has been fixed by the Registrar.
3. The highest bidder shall be the purchaser, provided the Registrar shall consider that a sufficient bid has been offered; and if any dispute arise as to the last or highest bidding for any lot, the same shall be put up again at a former bidding and re sold.
4. The purchaser shall at the time of sale subscribe his name and address to his bidding, and the abstract of title and all written notices and communications and summonses

shall be deemed duly delivered to and served uponthe purchaser by being left for him at such address, unless or until he is represented by an attorney.

5. The purchaser shall, at the time of sale, pay a deposit of twenty-five per cent. on the amount of his purchase-money to the Registrar, otherwise the lot shall be again immediately put up and re-sold.

6. The Registrar shall, as soon as possible after the sale, proceed to certify the result, and such certificate shall, within eight days after the sale, be filed by and at the expense of the party having the carriage of the proceedings, and in case of his neglect, the purchaser of any lot shall be at liberty to file the same and to retain the costs out of the purchase-money.

7. The party having the carriage of the proceedings shall, within days after such certificate has become binding, deliver to the purchaser or his attorney an abstract of the title to the lot purchased by him, subject to the stipulations contained in these conditions, and the purchaser shall, within days after the actual delivery of the abstract, deliver at the office of Mr. , the Attorney of [the party having the carriage of the proceedings], at No. , Street, in the town of Calcutta, a statement in writing of his objections and requisitions [if any] to or on the title as deduced by such abstract and to and in respect of the description of the property; and upon the expiration of such last mentioned time [and in this respect time is to be deemed of the essence of the contract], the title shall be considered as approved of and accepted by the purchaser, subject only to such objections and requisitions, if any.

8. The purchaser shall, under an order for that purpose to be obtained by him, or, in case of his neglect, by the party having the conduct of the proceedings, at the cost of the purchaser, upon application to a Judge in chambers, pay the amount of his purchase-money [after deducting the amount paid as a deposit] to the Comptroller-General of Accounts for the time being of the Government of India and the Secretary and Treasurer for the time being of the Bank of Bengal, with the privity of the Accountant-General of this Court, to the credit of the suit No. of 187 , [wherein A. B. is plaintiff and C. D. is defendant] within one month from the day of sale [*or* if the title be complicated, such longer period as may be deemed necessary], and if the same be not so paid, then the purchaser shall pay interest on his purchase-money at the rate of per cent per annum from the end of one month from the day of sale [or such longer period as may be allowed] to the day on which the same is actually paid.

9. Upon payment of the purchase-money in manner aforesaid, the purchaser shall be entitled to possession of such parts of the property as are in hand, and to the rents and profits of such parts as are let, as from the day of such payment, and shall be entitled to a proper conveyance, wherein all proper parties shall join as the Registrar shall direct. Such conveyance shall be prepared by and registered at the expense of the purchaser, and shall be tendered and left by him at the office of the said Mr. for execution by the proper parties

10. The purchaser shall not be liable to pay the outgoings previous to the day of payment of the purchase-money, and the rents and outgoings shall be apportioned if necessary.

11. The production and inspection of all deeds, evidences, and muniments of title which are not in the possession or power of the party having the conduct of the proceedings, and the procuring and making of all certificates attested, or other copies or extracts of or from any registers, deeds, wills, or other documents, and of all declarations or other evidences as to identity, whether required for the verification of the abstract or for any other purpose, shall be at the expense of the purchaser requiring the same.

12. If any error or misstatement shall appear to have been made in the particulars or description of the property, such error or misstatement [if capable of compensation] shall not annul the sale, nor entitle the purchaser to be discharged from his purchase, but a compensation shall be made to or by the purchaser, as the case may be, and the amount of such compensation shall be settled by a Judge in chambers.

13. If the purchaser shall not pay his purchase-money at the time above specified, or at any other time which may be named in any order for that purpose, and in all other respects perform these conditions, an order may be made by a Judge in chambers for the re-sale of the property and for payment by the purchaser of the amount of the deficiency, if any, in the price which may be obtained upon such re-sale, and of all attorney and client's costs and expenses occasioned by such default.

14. When a re-sale is directed, if for want of bidders the property cannot be re-sold, the purchaser at the former sale shall pay the whole amount of his purchase-money into court; but if the property be re-sold, and if the price obtained at the re-sale be less than the purchase-money payable by the original purchaser, he shall pay the amount of the deficiency. The costs occasioned by the default of the original purchase shall also be paid by him. An order containing these directions may also be obtained from a Judge in chambers.

Note.—Special conditions will be required when the title is bad or doubtful.

It is desirable that the attention of intending purchasers should be called to the reason for imposing special conditions when the title is bad or doubtful.

[*Form of ordinary conditions of sale of moveable property other than negotiable securities, or of shares in any railway, banking, or other public company or corporation.*]

Conditions of sale of the property described in the notification of sale in suit No. of 187 .

1. No person shall advance a less sum than Rs. , or retract a bidding.

2. The highest bidder shall be the purchaser provided the Registrar shall consider that a sufficient bid has been offered; and if any dispute arise as to the last or highest bidding for any lot, the property shall be put up again at a former bidding and re-sold.

3. The purchaser shall at the time of sale pay the full amount of the purchase-money, otherwise the property shall be again immediately put up and re-sold.

4. Upon payment of the purchase-money the purchaser shall be entitled to obtain immediate possession of the property.

5. The Registrar shall, as soon as possible after the sale, proceed to certify the result. Such certificate shall be filed by and at the expense of the party having the conduct of the proceedings.

[*Form of Certificate of Result of Sale.*]

Suit No. of 187 .

In the High Court of Judicature at Fort William in Bengal, Ordinary Original Civil Jurisdiction.

WHEREAS by a decree [or order] of this honorable Court made in the above suit, and dated the day of one thousand eight hundred and seventy- , it was ordered that the premises comprised in the mortgage therein referred to should be sold by the Registrar to the best purchaser or purchasers that could be got for the same, provided the Registrar should consider that a sufficient sum had been offered, and that all proper parties should join in the conveyance as the Registrar should direct, and that the conveyance should be settled by the Registrar if the parties should differ about the same, I do hereby certify as follows:—

1. I certify that I did this day in my sale-room, subject to the conditions specified in the conditions of sale, hereto annexed and marked with the letter A, put up for sale by auction the said premises described in the notification of such sale, a copy of which is hereunto annexed and marked with the letter B, and that the result of such sale is truly set forth in the bidding paper, hereunto annexed and marked with the letter C.

2. I further certify that the sums set forth in the second column of the said bidding paper are the highest sums bid for the respective lots, the numbers of which are set forth in the first column opposite to such respective sums, and that the persons whose names are subscribed in the fifth column of the said bidding paper as purchasers were respectively the highest bidders for, and became the purchasers of, the said respective lots, at the prices or sums set opposite to their respective names in the said second column thereof.

3. I further certify that I have received the sums set forth in the third column of the said bidding paper as deposits from the said respective purchasers in respect of their respective purchase monies set forth in the said second column of the said bidding paper, leaving due in respect of the said purchase monies the respective sums set forth in the fourth column of the said bidding paper.

4. I further certify that the several lots opposite to the numbers of which I have in the third column of the said bidding paper written the words "not sold," were not sold, no person having bid a sufficient sum for the same.

5. I further certify that no person bid any sum whatever for the several lots opposite the numbers of which I have in the second column of the said bidding paper written the words "no bidding."

Dated this day of in the year of our Lord one thousand eight hundred and seventy- .

The following orders, issued by the Government of India in the Department of Revenue, Agriculture, and Commerce, are republished for general information :—

No. 246.—*Simla, the 6th July* 1877.—*Notifications.—Commerce and Trade.*—The following translation of a letter, dated the 26th April 1877, addressed to Her Majesty's Consul-General at Cairo by the Egyptian Minister for Foreign Affairs, relative to the establishment of a new light at the port of Berberah and the dues that will be charged to vessels entering that port, is published for general information :—

"With the object of affording easy and safe access to the port of Berberah, the Egyptian Government has caused a light-house to be constructed there which will be established and in working order from the 1st June 1877.

"According to the description of the Controller-General of Ports and Light-houses, it will consist of a fixed dioptric white light of the fourth order, 76 feet above high-water, and visible at a distance of 14 miles.

"It is situated in latitude 10°-23'-0" North, and longitude 45°-7'-0" East of Greenwich.

"The light is on the mainland, and by keeping it open to the Eastward of South (magnetic) the Spit of Ras Tamar will be avoided.

"The construction, maintenance, and service of this light-house, established in the interests of navigation and commerce, are a source of considerable expenditure to the Egyptian Government.

"In accordance with the usual practice for diminishing charges in analogous cases by means of a contribution from those for whose benefit they have been incurred, it has been decided that every sailing ship (*Sambouk*) entering the port of Berberah shall pay the low port due of 15 piastres 16 paras (equal to 4 francs), whatever may be its tonnage, and every steam-ship a port due of 1 piastre (about 25 centimes) per ton.

"I have the honor to inform you of this decision, and to beg you to be good enough to communicate it to those of your Administration whom it may concern."

No. 1844*G.*—*Simla, the 6th July* 1877.—*Notifications.*—*General.*—The following extract from the *London Gazette*, dated 18th May 1877, is published for general information :—

Foreign Office, May 17th, 1877.

The Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs, has received the following despatches from Her Majesty's Consul-General at Odessa and Her Majesty's Consul at Taganrog, forwarding translations of regulations issued by the Russian authorities at the Ports in the Black Sea and Sea of Azof :—

Her Majesty's Consulate-General,
Odessa, May 7th, 1877.

MY LORD,

I HAVE the honor to transmit herewith a Declaration issued by the Commander-in-Chief of the Military District of Odessa, containing regulations for the departure of neutral vessels from Odessa at the present time, and specifying on what conditions they will be allowed to leave should the enemy's fleet appear before the port.

I have, &c.,

(Sd.) G. E. STANLEY.

The Right Honorable the Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs.

(TRANSLATION.)

Declaration.—The Commander of the Troops of the Military District of Odessa, Chief of the Coast Defences of the District, General Aide-de-Camp Sémóka, has the honor of notifying that, in consequence of the laying of torpedoes, ships of neutral States requested to withdraw in view of a bombardment cannot do so except on condition of being piloted by Russian officers through the passages left between the torpedoes; but as this operation carried out in the face of the enemy might point out to them the position of these passages and enable them to make use of them, thereby depriving the town of its most important line of defence, General Aide-de-Camp Sémóka, in view of a state of affairs new in maritime warfare, and consequently not foreseen by International law, has the honor to request the enemy's ships of war to withdraw out of sight for the time necessary for the removal of neutral ships (namely, for . hours), warning them that if they do not agree to this demand, neutral ships will not be allowed out, and the Imperial Russian Government declines all responsibility for the consequences.

Her Britannic Majesty's Consulate,
Taganrog, May 4th, 1877.

MY LORD,

I HAVE the honor to hand herewith a notice sent to me by His Excellency the Governor of Taganrog, who at the same time has given assurance that every assistance will be afforded to foreign vessels of friendly neutral powers on their passage at the respective ports, in order that trade may not be impeded.

I have, &c.,

(Sd.) H. CARRUTHERS.

The Right Honorable the Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs, &c., Foreign Office, London.

(TRANSLATION.)

Approved by the Commander of the Odessa, Military Department, April 12th, 1877.

NOTICE.

From the time of the declaration of war ($\frac{12}{24}$th April 1877) the entrance of, and the departure of vessels from the Port of Odessa, from Liman of the Dnieper, and from the Boug, the Straits of Kertch, and the Bay of Sebastopol, is only permitted subject to the following conditions, which are not provided for by Maritime International law, but which must necessarily arise now that harbours are protected by barring them with mines, the passage through which is kept absolutely secret:—

1. Every vessel on arriving must stop outside the line of mines. Russian officers with a crew will go and meet her; they will assume command of the said vessel and navigate her into the harbour, after having satisfied themselves that the ship's papers are in regular order.

2. The Captain of the said vessel shall engage in writing on behalf of himself and his crew and passengers that, while passing through the line of torpedoes, no person shall remain on the bridge, or watch through portholes or other openings the course followed by the ship.

3. The same rule shall be enforced when merchantmen quit the harbour; that is to say, a Russian officer and crew shall, in conformity with Articles I and II, take command of the said vessels.

4. If a man-of-war should make its appearance at a spot whence it would be possible to watch the entry and departure of vessels, the Russian authorities will insist upon its retiring to a certain distance during a period of time sufficient to navigate a vessel in or out. Until this formality is complied with, no vessel will be allowed to enter or leave.

No. 1845*G.*—The following extract from the *London Gazette*, dated the 29th of May 1877, is published for general information:—

Foreign Office, May 29th, 1877.

The Right Honorable the Earl of Derby, Her Majesty's Principal Secretary of State for Foreign Affairs, &c., &c., has received the following note from His Excellency Musurus Pasha, Turkish Ambassador at the Court of Saint James, forwarding the Notification issued by the Serdar Ekrem with regard to the treatment of neutral vessels on the Danube.

* * * * * *

(TRANSLATION.)

Imperial Ottoman Embassy,
London, May 25th, 1877.

MY LORD,

IN continuation of my note of the 12th instant, I have the honor to transmit herewith the Proclamation published by His Excellency the Serdar Ekrem relating to the measures he has taken on the Danube in view of the military operations.

I have, &c.,
(Sd.) MUSURUS.

Sublime Porte.

Proclamation of His Excellency the Serdar Ekrem concerning the measures taken on the Danube.

The Commander of the Forces, making use of the right and power belonging to him, proclaims as follows:—

War having broken out between the Ottoman Empire and Russia, the part of the Danube surrounded by Ottoman soil is considered a line of defence. The rules followed elsewhere with regard to the navigation and commerce of neutral ships shall not be applicable here. Consequently all vessels are prohibited from passing up and down and carrying on commercial operations in this part of the Danube.

The rules relating to spies shall be applied from the 21st of April (old style), in the case of captains and masters of all steam or other ships, large or small, who infringe this prohibition, or do not apply to the authority.

The ships as well as their cargoes shall be seized and confiscated.

Nevertheless, the cargo of ships detained up to the 21st of April on the points of the Danube referred to shall not be liable to seizure if it does not consist of contraband of war.

The present decision is to have a general application. The Civil and Military authorities will attend to its being strictly carried out.

No. 1846*G.*—*Appointment.*—Mr. J. G. S. Hodgkinson, Officiating Magistrate and Collector of Moorshedabad, is appointed to the temporary charge of the office of Agent to the Governor-General at Moorshedabad, in addition to his own duties, with effect from the date of receiving charge, *vice* Captain Muir, proceeding on furlough.

The following orders, issued by the Government of India in the Financial Department, are republished for general information :—

No. 1150.—*Simla, the 9th July* 1877.—*Notifications.—Separate Revenue—Stamps.*—In exercise of the powers conferred by section 16 of the General Stamp Act, 1869, the Governor-General in Council is pleased to remit the duties chargeable under the said Act on tenders for any portion of the loan advertised in the *Gazette of India* Extraordinary of the 7th June 1877.

No. 1754.—*The 6th July* 1877.—*Pensions, Gratuities, &c.*—The Governor-General in Council directs the publication of the following addendum to the Acting Allowance Code of the Financial Department :—

Insert the following as Clause (*a*1), *Section* 38 (*a*) :—

"A Clergyman appointed by the Additional Clergy Society to a station at which the appointment of a Clergyman of the Society has been authorized by the Government of India in the Home Department, or to a charge usually held by a Chaplain on the regular establishment, is entitled, provided that there is no Chaplain on duty at the same place, to an allowance of Rs. 150 a month."

The following orders, issued by the Government of India in the Military Department, are republished for general information :—

No. 605.—*Simla, the 6th July* 1877.—*Furlough and Leave.*—The undermentioned officers are granted furlough to Europe, with the necessary subsidiary leave :—

* * * * * * * *

Captain William James Wemyss Muir, Bengal Staff Corps, Political Agent, 2nd class, Rajpootana Agency, Officiating Political Agent, 1st class, Officiating Agent to the Governor-General, Moorshedabad,—medical certificate, for eighteen months, under Rule XIV, Clause I, of the Regulations of 1868.

No. 609.—*Pay and Allowances.—Furlough.*—Under the authority of the Right Hon'ble the Secretary of State for India, it is hereby notified that all officers who, from the 25th February 1874, the date of the publication of the G. G. O. No. 171 of 1874 having less than two years' furlough at their credit, obtained furlough for such period under Rule IX of the Regulations of 1868, and who obtained an extension of furlough on medical certificate, under Rule XIII of those Regulations, for any period not exceeding two years in all, and did not draw furlough pay for the entire period, shall be allowed the difference between the pay they received and the "furlough pay" authorized.

2. Any officer now in India who may desire that arrears of difference of pay may be issued to his Agents in England should submit an application, through the Controller of Military Accounts, to that effect to the Government of the presidency to which he belongs.

The following order, issued by the Government of India in the Marine Department, is republished for general information :—

No. 15.—*Simla, the 6th July* 1877.—*Organization.*—The Right Honorable the Governor-General in Council is pleased to direct that the whole of the marine establishments afloat and on shore now employed under the several Governments and provinces of India shall be amalgamated into one Imperial Service, to be designated "Her Majesty's Indian Marine."

2. This service will be entirely under the Supreme Government of India, and such portion of it as may be required for service within the limits of minor Governments and other local authorities shall from time to time be placed at the disposal of those authorities for the discharge of their current duties.

3. All officers and others belonging to Her Majesty's Indian Marine shall be brought upon an amalgamated list according to their several ranks, grades, and classes, and shall, no matter where serving, be subject in future to the same regulations in regard to employment, pay, &c.; and all existing vessels, whether in Bengal, Bombay, or elsewhere, shall be placed on one list and classified and employed under the orders of the Government of India.

4. The officers of Her Majesty's Indian Marine will, so far as may be considered advisable, bear the same titles as officers of the Royal Navy and will have the same relative army rank.

RESOLUTION ON THE ANNUAL REPORT OF THE MARINE DEPARTMENT FOR THE YEAR 1876-77.

No. 1869A.

GENERAL DEPARTMENT.—MARINE.

Calcutta, the 3rd July 1877.

READ—

The Annual Report of the Master Attendant's Department for 1876-77.

The Annual Report of the Government Dockyard and Marine for the year 1876-77.

IT has hitherto been the practice to include all Marine matters under the control of the Government of Bengal within a single report from the Marine Department. For the past year, however, two reports of the Marine Department have been prepared under recent orders of the Government of India, with reference to the Marine business transacted in the Department of Revenue, Agriculture, and Commerce, and that transacted in the Marine Department of the Government of India.

2. Lieutenant F. Warden was in charge of the entire department throughout the year as Officiating Deputy Master Attendant. Shortly after the close of the year Captain Harris, Conservator of the Orissa Ports, was drowned on the 8th of May while proceeding to inspect the light-house at False Point. His death has deprived Government of the services of an able and energetic officer, who had a large experience of the Orissa coast and a thorough knowledge of the requirements of the sea-going trade of that province. Lieutenant Warden observes that the staff of the Master Attendant's Department is weaker by three officers than it was ten years ago, and that the reforms introduced by the Consulting Naval Officer to the Government of India have materially increased the

work. A scheme for the reorganization of the Marine Service has, however, been drawn up by the Government of India and will shortly take effect. The Lieutenant-Governor has more than once expressed his opinion that reforms were needed to secure the efficient administration of Marine affairs in these provinces.

3. In the year under report the Pilot Service numbered 70 members, that being the strength to which it was reduced last year, and which it is intended to maintain in future. Forty-seven pilots belong to the covenanted service, and 23 are licensed pilots. Of the 47 service pilots, 33 were actually running, 3 were in command of pilot vessels, 10 were on leave, and 1 was employed on staff duty. The 23 licensed pilots were all actually running, so that altogether 56 pilots, or two less than last year, were available for service on vessels entering and leaving the Hooghly. This number of 56 running pilots was considered by the Committee of 1872 to be sufficient for the working of 2,000 vessels in the year, allowing an average of four days as the period for taking a ship up or down the river. The actual number of ships piloted during the year, including 28 pilot vessels and light vessels, amounted to 2,310; but as the time now occupied in the pilotage of each vessel is much shorter than was allowed for in the Committee's estimate, there seems no reason to doubt that the number of 56 running pilots is sufficient for the work of the port, provided that proper arrangements are made for sending a sufficient supply of them down to the Sandheads to await the arrival of incoming ships.

4. The scheme proposed by this Government for recruiting the Pilot Service has been accepted by the Secretary of State. Leadsmen apprentices will in future be selected from the training ships in England, and no more appointments will be made in this country.

5. The following statement shows the number and tonnage of the vessels visiting the port during the last two years :—

Year.	Arrivals.	Tonnage.	Departures.	Tonnage.	Total vessels.	Total tonnage.
1875-76	914	1,274,944	906	1,284,321	1,820	2,559,265
1876-77	1,161	1,696,701	1,121	1,598,250	2,282	3,294,951

6. A considerable increase is apparent both in the number of vessels and in the gross tonnage, which is believed to be due for the most part to the number of short voyages to and from the ports of the Madras coast undertaken by steamers and sailing vessels exporting rice from Bengal. A similar expansion of the traffic of the port was observable in a less degree in 1874, when distress prevailed in Behar, and rice was largely imported from British Burmah. It was noticed in the Resolution on the report for 1875-76 that the decrease in the number of vessels entering and leaving the port was entirely in steamers, the number and tonnage of sailing vessels showing an increase. During the past year the increase in the number of steamers was 277, and in the number of sailing vessels 185. The average tonnage of steamers is slightly less than in the previous year, but there is a considerable rise in the average tonnage of sailing vessels.

7. The following statement shows the number of sailing vessels and steamers that entered and left the port in the last two years, as well as the number of each that passed through the Suez Canal :—

		1875-76.	1876-77.
Arrivals ...	Number of steamers	406	552
	Ditto of sailing vessels	508	609
	Ditto of steamers which came through Suez Canal	149	161
Departures ...	Number of steamers	405	536
	Ditto of sailing vessels	501	585
	Ditto of steamers which went through Suez Canal	134	147
Total tonnage, inwards and outwards, of steamers		1,454,264	1,945,577
Average tonnage of steamers		1,793	1,788
Total tonnage, inwards and outwards, of sailing vessels		1,105,001	1,349,374
Average tonnage of sailing vessels		1,095	1,130

8. The report contains a statement showing the number of vessels piloted by the 56 running pilots, and the annual and monthly average piloted

by each member of the several grades of the Service. From this statement, which has been prepared in accordance with the instructions conveyed in the Government letter of 10th October 1875, it appears that each Branch Pilot piloted on an average 5·35 ships a month. For Master Pilots the monthly average was 3·60 ships, and for Mate Pilots 2·94 ships a month. It will be remembered that the Pilot Committee of 1872 considered that the strength of the Pilot Service should be fixed at that number which would allow each pilot an average of three ships a month. From the figures now presented, it is clear that the recent reorganization of the Service has operated to raise the average earnings of a pilot considerably above the scale which the Committee held to be adequate; and that the reduction of 15 per cent. from the pilotage fees, which has been made under recent orders, has not afforded any reasonable ground of complaint.

9. There were 32 cases of grounding during the year, being 13 less than last year, and 36 less than in 1873-74. In 29 cases no damage was done, two vessels were totally lost, and a third was dismasted and obliged to put back into harbour. Marine Courts were held in the two cases of total loss. In one case the pilot in charge was acquitted, while in the other, that of the *Cawdor Castle*, the pilot was found guilty of unskilfulness and was dismissed. There were seven collisions, but considerable damage was done only in one case. Departmental Courts of Enquiry were held in two cases of grounding and one of collision. Special Courts under section 4 of Act IV of 1875 were convened to enquire into the loss of the *Asia* by fire while at anchor in the port, and of the *Prince Waldemar* on the *Roy Mutlah* sand. In the former case the Court found that the fire was accidental, and in the latter that the ship was 30 miles out of her reckoning when she struck. The general conduct of the Pilot Service is reported to have been good throughout the year. Considering the increase that has taken place in the number and tonnage of vessels, the crowded state of the port, and the great length and draught of water of the steamers which have lately been built for the Suez Canal trade, it is satisfactory to find so few cases of grounding, and so few collisions of a serious nature.

10. There seem to be no grounds for believing that the channels of the Hooghly have materially deteriorated of late years. It is known that 40 years ago a draught of 17 feet was considered the maximum that could safely be allowed to proceed up as far as Calcutta; while now vessels drawing over 21 feet pass up and down at all seasons of the year. The general use of steam has no doubt much to say to this; but it is clear at the same time that the river has not fallen off as a navigable channel. The following statement shows the number of steamers drawing over 21 feet that passed up and down in 1876-77:—

Month.	21-23 feet.	23-24 feet.	24-25 feet.	25-25½ feet.	Total.
April 1876	11	3	1	..	15
May ,,	1	4	.....	.....	5

11. The Committee appointed to enquire into the survey of the Hooghly have submitted their report, and the proposals of this Government have been laid before the Government of India. In the meantime, the urgent necessity for replacing by steamers the sailing vessels at present employed on the work of

the river survey has become very apparent, and proposals are now under consideration for the immediate employment of the steamer *Nemesis* on survey duty in the room of the *Kedgeree*. The details given in the report show the changes which have taken place in the navigating channels during the year. The buoys from Calcutta to the sea have been put in good order, and the *Dolphin* buoy vessel has also overhauled and refitted the buoys on the Orissa coast.

12. The working of the quarterly examinations for certificates of competency is described in the report. Lieutenant Warden observes that the examinations are held at too long intervals, and that this bears hardly upon young officers whose promotion is delayed thereby. On this point, however, the Government of India have expressed a wish that the examinations should be held half-yearly or quarterly, and it is obvious that, when a large body of examiners has to be assembled, there would be much practical inconvenience in holding examinations at shorter intervals than three months. The Lieutenant-Governor is therefore unable to reconsider the decision which was previously arrived at.

13. The pilot vessels and floating light-vessels are reported to be in good condition. The new light-ship *Canopus* has recently been sent to relieve the *Planet*, which has been brought into dock for repairs; but as soon as the *Planet* returns to her post, the *Canopus* will be sent to a new station between the Lower Gasper and the Outer Light.

14. The *Vulcan* anchor vessel has been employed during the year in recovering lost anchors and chains, and has also rendered assistance to the River Survey Department both in the Hooghly and on the Orissa coast. The cost of the establishment of the vessel amounted to Rs. 5,208, and Rs. 959 was paid to the crew for salvage. The stock in hand of recovered anchors and chains is estimated to be worth Rs. 5,514. Although the vessel was employed during a part of the year on survey duties, and in spite of a serious misunderstanding with the crew, which resulted in the suspension of the commander, the income, excluding the value of the stock in hand, exceeded the expenditure by Rs. 1,828.

15. The houses of refuge were visited several times in the year, and have lately been thoroughly refitted and replenished with stores. Two houses have been entirely rebuilt.

16. The account given in the Marine Report shows the distribution of the Inland Flotilla up to the end of the year. Since then the *Prince Albert*, with the large flats *Ganges* and *Konai*, and No. 10 famine steamer, with two smaller flats, have been placed at the disposal of the Chief Engineer, Northern Bengal State Railway, for the conveyance of railway plant, and the hulk *Ghazeepore* has been transferred to the Port Fund of False Point. It is understood that steamers and launches employed under the orders of this Government will in future be treated as a charge on the Provincial Revenues. Information is now being collected, showing the actual cost of each of the vessels now employed in Bengal, and a detailed proposal will shortly be submitted to the Government of India with regard to the steamers which the Lieutenant-Governor would desire to retain permanently.

17. The silting up of the foreshore of the Dockyard has formed the subject of a separate correspondence with the Marine Department of the Government of India and with the Port Commissioners. Some delay has been occasioned by the reluctance of the Port Commissioners to commence dredging so long as Fort Point remained in its present condition. But it has now been explained to the Commissioners that it is not likely that any works will be undertaken at Fort Point of such a kind as materially to affect the river below the Point; and a hope has been expressed that they will recognise the urgency of the case, and direct the immediate removal, by means of the dredger, of the accumulation of silt complained of by the Marine authorities.

The details given in the report show that an unusually large amount of work was done in the Government Dockyard and Steam Factory during the year.

By order of the Lieutenant-Governor of Bengal,

H. J. REYNOLDS,
Secy. to the Govt. of Bengal.

SUBORDINATE CIVIL SERVICE EXAMINATION, 1877.

APPOINTMENT DEPARTMENT.

Darjeeling, the 9th July 1877.

READ again—

The Report of the Superintendent of the Subordinate Civil Service Examination on the result of the examination held in 1876, and the Resolution of the Government thereon.

The Minute recorded by the Lieutenant-Governor of Bengal, dated the 25th September 1875, on the competitive examinations for the admission of candidates to the Native Civil Service of Bengal.

The Notification of this Government in the General Department, Section B., dated the 23rd November 1875, promulgating revised rules to regulate the examination to be held in 1876 and subsequently.

Read also—

Letter from the Superintendent of the Subordinate Civil Service Examination, No. 27, dated the 13th June 1877, reporting the result of the examination held in March 1877 at Hooghly, Patna, and Cuttack.

THIS examination was the second on the competitive principle under the revised rules of November 1875.

The number of appointments offered for competition was four in the higher (Rs. 100 per mensem), and six in the lower grade (Rs. 50 and Rs. 25 per mensem).

2. The number of candidates examined was 20 in all, of whom 13 were for the entire examination, two who partially passed last year were for examination in the unpassed subjects only, and five were assistants in the Opium Department for examination in botany and chemistry.

3. Of the 13 candidates for the entire examination (ten for the higher and three for the lower grade) not one was passed completely. Two of them, however (named on the margin), who were candidates for the higher grade, though they failed for that grade, yet obtained more than the requisite number of marks to pass them for the lower grade.

Poorno Chunder Dutt, B.A.
Baroda Dass Bose.

4. By paragraph 7 of the Examination Rules, a candidate who fails in the examination for the upper grade is not entitled to be considered as passed by the lower grade merely because he earned a sufficient number of marks to pass him for that grade; but in accordance with precedent, and with the recommendation of the Superintendent of the Examination, the Lieutenant-Governor has been pleased to permit Baboos Poorno Chunder Dutt and Baroda Dass Bose to be declared as having passed for the lower grade.

5. Baboo Baroda Dass Bose, however, now holds a temporary Sub-Deputy Magistracy on the strength of the examination which he passed in 1873. His position will not be injuriously affected by his failure to pass for the higher grade on this occasion.

6. Of the three candidates for the lower grade, Baboo Sarut Chunder Dass already fills an appointment in the Subordinate Executive Service. He was appointed to be a First Grade Canoongoe in Tipperah in 1873, subject to passing in Surveying and Engineering at the examination in 1874. He failed to pass at that examination, and as this was partly due to his having been employed in the interior of the district on special work, his failure was passed over. He was afterwards employed on settlement duty, and could not attend the examinations in 1875 or 1876. At the present examination he obtained the following marks:—

	Full marks.	Marks obtained.
Engineering	240	94
Drawing	120	59
Surveying	240	104
Total ...	600	257

and has thus failed to pass under the existing rules; but as he has obtained more than one-third of the marks, and these, under the rules in force when he

entered the service, would have passed him for the lower grade, the Lieutenant-Governor has been pleased, in consideration of this fact and of the Baboo's past service, and of the recommendation made by Mr. N. S. Alexander, Magistrate and Collector of Tipperah, in January 1876, to exempt Baboo Sarut Chunder Dass from further examination.

7. Of the two candidates* in unpassed subjects, Baboo Kader Nath Banerjee was for the higher and Baboo Ram Lall for the lower grade, and both have now passed. The latter is already in the service as a Canoongoe, and the former is now eligible for employment under the old rules.

*Baboo Kader Nath Banerjee.
„ Ram Lall.

8. As regards the five officers of the Opium Department, Mr. T. E. D. Innes has now passed in Botany, and as he has already passed in the other subjects, he is now declared to have passed completely. Mr. G. Nicholson has also passed in Botany, but has yet to pass in Surveying and Chemistry. The remaining three officers all failed to pass in any subject.

10. The thanks of Government are due to Mr. Grimley and the gentlemen who aided him in conducting the examination.

By order of the Lieutenant-Governor of Bengal,

S. C. BAYLEY,

Secretary to the Govt. of Bengal.

REPORT ON THE WORKING OF THE JUTE WAREHOUSE AND FIRE-BRIGADE ACT FOR THE YEAR 1876-77.

No. 190A, dated Howrah, the 26th May 1877.

From—F. H. PELLEW, Esq., C.S., Chairman of the Municipal Commissioners of Howrah,

To—The Commissioner of the Burdwan Division.

IN accordance with the provisions of section 31 of Act II of 1872, "The Jute Warehouse and Fire-Brigade Act," I have the honor to submit the following report on its administration in this Municipality for the year ending the 31st March 1877.

Jute Warehouses.

2. There were 25 warehouses licensed during the year for the storage of loose jute and cotton; a classified list of them is given in appendix A.

3. There was only one new warehouse constructed during the year, which was within the premises of the Ganges Manufacturing Company, and, as required by the Act, plans of the building were approved and passed at a special meeting.

4. The total income during the year amounted to Rs. 5,320-9-5, of which the following are the details:—

	Rs.	A.	P.
Balance of funds on the 1st of April 1876	199	12	0
License fees	5,075	14	11
Fines	41	0	0
Refunds	3	14	6
Total ...	5,320	9	5

5. In the amount received from license fees is included the sum of Rs. 525 which was paid in advance for licenses for the current year, and more properly appertains to the income of the latter period.

6. There has been a further falling off in the income, the cause of which was a further depression in the jute-pressing and screwing trade. During the year many of the warehouses were leased for the storage of salt and grain, and the owners have almost despaired of engaging in the jute trade again.

7. The expenditure in the inspection of jute warehouses amounted to Rs. 707-14-0, which consisted of—

Inspection Establishment.

	Rs.	A.	P.
Inspector	657	0	0
Contingencies	13	6	0
Refund of license fees	37	8	0
Total ...	707	14	0

8. Owing to the large reduction in the income, the cost of the inspection establishment has been reduced to a minimum. The salary of the Inspector, which was formerly Rs. 100 per mensem, has been reduced to Rs. 50, and the staff of peons has been entirely dispensed with.

Fire-brigade.

9. The reduced scale of establishment entertained for the working of the fire-brigade, as reorganised on the 5th of November 1875, was maintained throughout the year and found to work satisfactorily.

10. At a meeting of the Fire-Brigade Special Sub-Committee, held on the 4th November 1875, it was deemed expedient to make certain alterations in the construction of the small engines, viz. that the unions of the delivery hoses of all the engines should be made to fit each other, and the arrangement was carried out during the year under report with a very advantageous result in working the engines in point of expedition.

11. During the year twenty-four fires occurred within the jurisdiction of the Municipality, which were entirely confined to private dwellings and straw depôts, and originated in the majority of instances from negligence and cooking. There was not a single fire amongst the jute and cotton warehouses.

12. Owing to the rise in the price of horses, consequent on the Prince of Wales' visit, a suitable pair could not be provided for the large engine until the 5th May 1876, when a horse was purchased at a cost of Rs. 200, which was matched with a horse that drew the hospital ambulance.

13. A watch was regularly kept, both night and day, on the top of the cutcherry building which commands an extensive view of the town, and intimation of fires was promptly given by means of the fire-bell.

14. The firemen were drilled and all the stations were regularly visited by the Superintendent. During the hot season the services of the firemen were utilized in pulling the office punkahs, and this effected a saving to the general charges.

15. The following is an abstract statement of the expenditure in this department during the year:—

	Rs. A. P.	Rs. A. P.
I.—*Establishment*—		
Superintendent	1,200 0 0	
Tindals	419 8 0	
Khalassees	1,602 5 6	
Coachman	32 0 0	
Syces	143 12 0	
Rewards to police	*10 12 0	
		3,408 5 6
II.—*Purchase of stock*—		
Repairs and alterations to engines ...	211 4 6	
New delivery hose	206 9 0	
Brass unions for hose	20 0 0	
Cost of a horse	200 0 0	
Feed, keep, &c., of horses	297 9 7	
		935 7 1
III.—*Contingencies*	.....	124 12 0
Total ...		4,468 8 7

* The actual amount earned by the Police was Rs. 42-8-0, but they did not draw the whole amount within the year owing to delay in submitting bills.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 14th July 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, July 16* '77	2·33	The rainfall at Culna has been 3·08 inches, at Cutwa 6·84 inches, at Bood-Bood 3·28 inches, at Jehanabad 5·10 inches, and at Raneegunge 3·99 inches. The cultivation of paddy is progressing favourably.
BURDWAN DIVN. 2	Bankoora, „ 14 „	·3·97	General rain has fallen throughout the district during the week. It has removed all present apprehensions. The rice seedlings are being transplanted in all directions.
BURDWAN DIVN. 3	Beerbhoom, „ 14 „	3·10	Weather—Seasonable and satisfactory. There has been a sufficient fall of rain all over the district during the week. The state and prospects of the young rice are now everywhere good.
BURDWAN DIVN. 4	Midnapore, „ 14 „	2·99	Weather—Raining every day. The state and prospects of the crops are as good as can be desired.
BURDWAN DIVN. 5	Hooghly, „ 14 „	2·70	Weather—Cloudy and rainy. Strong wind on the 12th instant. Transplantation of late rice is going on. Early rice, jute, *sone*, sugarcane, and other crops are doing well. The mango harvest is over. Public health is good. Cattle disease still continues in one village in thana Bullagur.
	Howrah, „ 14 „	2·04	Rain fell during the greater part of Saturday. The rain which has fallen will greatly facilitate the ploughing and sowing which are now going on.
	Central Districts.		
PRESIDENCY DIVN. 6	24-Pergunnahs, July 16† '77	2 57	Weather—Rainy and windy. The prospects of early rice and jute are good. Transplantation of *amun*, or late rice, is progressing satisfactorily. Public health is generally good.
PRESIDENCY DIVN. 7	Nuddea, „ 14 „	2 90	Weather—Frequent rain. Rice, both early and late, is very promising. The weather during the week has been too wet for indigo at its present stage.
PRESIDENCY DIVN. 8	Jessore, „ 14 „	1·80	Weather—Rainy. Indigo is doing well, and the rice crops are very promising.
PRESIDENCY DIVN. 9	Moorshedabad, „ 14 „	3·01	Weather—Seasonable. The prospects of the crops are good, except in the Jungypore sub-division, where only 1·38 inches of rain were registered up to 13th instant, and more is much wanted.
10	Dinagepore, „ 13 „	6 06	Weather—Heavy rain during several days of the week followed by great heat, but less rain than there should be. 2·99 inches registered at Roygunge. The prospects of *bhadoi* rice, jute, sugarcane, and maize are at present very good.
RAJSHAHYE AND COOCH BEHAR DIVN. 11	Rajshahye, „ 14 „	·46	Weather—Cloudy and cool; strong south-west breezes in the latter half of the week. There has been a moderate rainfall in all parts of the district. The prospects of the rice and jute crops are good. The late heavy rains have submerged the autumn and winter rice in the low lands. The river Ganges is rising rapidly.
RAJSHAHYE AND COOCH BEHAR DIVN. 12	Rungpore, „ 13 „	10·03	Weather—Very wet in the commencement of the week; after that warm and close; but for the last two days a high easterly wind has cooled the atmosphere. 7·66 inches registered at Gaibanda and 4·58 inches at Kurigram. The heavy rain in the beginning of the week has done much good as regards cultivation. *Aous* is being reaped and *amun* vigorously transplanted The state and prospects of the crops are very good Public health on the whole is good.
RAJSHAHYE AND COOCH BEHAR DIVN. 13	Bogra „ 14 „	1·61	Weather—Cloudy. The crops are all in good condition. Jute and *til* oil-seed have not yet completely been cut.
RAJSHAHYE AND COOCH BEHAR DIVN. 14	Pubna, „ 14 „	1·34	Rain fell heavily in the first part of the week, which has done good to the crops. Weather unsettled during the last three days. State and prospects of the crops are favourable. The rivers are rising gradually. Cholera has entirely disappeared, but fever is rather prevalent.
RAJSHAHYE AND COOCH BEHAR DIVN. 15	Darjeeling, „ 13 „	3·42	There has been rather less rain than is usual at this time of the year. In the Terai it has been very much less than it generally is. All the crops are progressing favourably, but in the Terai some uneasiness is felt owing to the deficiency of rain during the week.

* Telegram of the 16th July shows rainfall during the seven days immediately preceding.

† Report of the 16th July shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.—(*Continued.*)		
	Central Districts.		
RAJSHAHYE AND COOCH BEHAR DIVN. 16	Julpigoree, July 14 '77	·05	The rainfall of the week is very slight and inadequate. More rain is urgently required Weather cooler. The *kaimunti* rice seedlings throughout the district are in great peril for want of rain, particularly in thanas Boda and Julpigoree. The *bhadoi* crop is promising everywhere, except in Boda and Mynagori. Jute is likely to do well.
	Cooch Behar, „ 12 „	2·66	Rainfall is still deficient. Frequent clear and almost cloudless skies. Heat considerable whenever wind drops. 5 56 inches of rain registered at Dinhatta, 2·60 inches at Mekligunge, and 2 26 inches at Mathabhanga. There is still cause of anxiety as to the prospects of *amun dhan*. What rain fell has not been sufficient for agricultural wants. The failure, however, will be only partial, provided there be good rain any time this month. Public health is exceptionally good so far this year.
	Eastern Districts.		
17	Dacca, July 16*'77	2·16	Weather—Seasonable. The crops are in a good state. A little jute has begun to come in the market.
DACCA DIVN. 18	Furreedpore „ 14 „	·71	Weather—Rainy, with a strong wind from the east. 11·33 inches registered at Madaripore. The prospects of the crops are good. *Aous* rice is being cut in some places.
19	Backergunge, „ 12 „	9·13	Rain has fallen in the district generally, and the state and prospects of the crops are good. Disease among cattle is reported from thanas Mirzagunge and Motbaria.
20	Mymensingh, „ 13 „	1·93	Weather—Rainy, and sultry in the intervals of the showers. State and prospects of the crops are good.
21	Tipperah, „ 13 „	6·08	Weather—Seasonable. 5·52 inches of rain registered at Brahmunbaria. The state and prospects of the autumn and winter rice crops are good, except in thana Thallah and the sub-division of Brahmunbaria, where more rain is wanted.
22	Chittagong, „ 12 „	3 31	Weather—Cloudy, with rain and strong wind at intervals. The prospects of the crops are favourable.
CHITTAGONG DIVN. 23	Noakholly, „ 12 „	4·16	Weather—Seasonable. A very high and stormy south-east wind has been blowing since 11th instant. The prospects of early rice are fair. Transplantation of late rice has begun Fever is still prevalent.
24	Chittagong Hill Tracts, „ 10 „	5·12	Weather—Cloudy, with occasional falls of rain throughout the week. The paddy and cotton plants in the *jooms* are thriving well. In some places Indian corn has become fit for eating, and this is a great help to the *joomeas*, whose stock of paddy has been exhausted.
	Hill Tipperah, „ 11 „	2·35	Heavy rains still hold off. Transplantation of late rice is somewhat delayed for want of sufficient rain. Fever is prevalent.
	BEHAR		
25	Patna, July 16*'77	36	Weather—Hot and close Rain is much wanted for all crops. Health of the district is good.
PATNA DIVN. 26	Gya, „ 14 „	1 75	The weather usual in the rainy season commenced on the 10th instant, and has continued. 1·82 inches of rain registered at Nowada, 1 09 inches at Jehanabad, and 1·61 inches at Aurungabad. More rain is required, especially in the southern parts of the district. Much injury has been done by grasshoppers bred in the fields by the scanty rain in the middle of June and its subsequent cessation. Prices which had risen about 12 per cent. have fallen again since the 10th instant. Public health is good.
27	Shahabad, „ 14 „	1·60	Weather—Cloudy, with strong east wind. The agriculturists are hard at work in sowing the *khureef* crops. The rains have apparently set in, and the prospects are favourable Sugarcane is doing well.
28	Durbhunga, „ 14 „	·89	The week has been cloudy, with strong winds and slight showers. In the north the rain has been heavier than in the centre or south of the district, but generally the rainfall hitherto has been insufficient. The *bhadoi* crop has not been fully sown, and what has been sown is not very flourishing. The *dhan* crop is backward, and the indigo outturn will not justify the promise of a month ago. The district during the week has been visited by enormous clouds of locusts, which however did not do as much damage as was apprehended. Cholera in the town of Durbhunga is less prevalent than it was a week ago.

* Telegrams of the 16th July show rainfall during the seven days immediately preceding.

	No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Continued.*)				
Patna Divn.	29	Mozufferpore, July 14 '77	·80	Weather cool and cloudy, with strong east wind. At Mozufferpore the rainfall has been extremely scanty, only ·80 of an inch registered during the week, but it is believed to have been gr eater at a few places in the interior of the sub-division. There is much land yet remaining to be sown with *bhadoi* crops, and the transplanting of rice seedlings has not commenced. Heavy rain is much wan ted In the Hajipore sub-division the rainfall has been 2·34 inches. and the crops are doing well. In the Seetamurhee sub-division a good fall of rain is reported in the north, but in Seetamurhee (·83 of an inch) and south scarcely any rain has fallen. *Bhadoi* crop is still in good condition. Rice sowing is still delayed. Some cholera is reported in Shewhur, Seetamurhee, and Belsund, and some cattle disease in Majorgunge.
	30	Sarun, „ 14 „	2·74	The rains have set in. The temperature is much lower, with damp east wind. There has been slight rain in most parts of the district, but heavy rain is wanted. 1·21 inches registered at Sewan. The *bhadoi* sowings are in progress in some places. Indian corn has germinated well. The seedlings of paddy have come up well in the low lands. Indigo manufacture is going on. This crop has suffered considerably owing to the want of rain at a critical time It is hoped that the outturn will still be good, but it is not the bumper crop hoped for till quite lately.
	31	Chumparun, „ 14 „	1·15	Weather—East winds generally prevailed with great heat A flight of locusts passed over the district on the afternoon of the 7th instant. They came from the east and took a north-west direction. No great damage is reported. The rainfall of the week has been altogether insufficient. The want of rain is beginning again to be seriously felt. Cholera has somewhat abated.
Bhagulpore Divn.	32	Monghyr, „ 14 „	·90	Some falls of rain, but not yet sufficient. Weather otherwise hot; 1·04 registered at Begu Serai and ·73 at Jamui. Rain is wanted in the rice tracts. The *bhadoi* crops will do.
	33	Bhagulpore, „ 16* „	2·04	Weather—Showery, with high wind. There has been more rain in the south than in the north. Prospects are generally favourable, except in the north-west of Naradigur; but heavier rain is wanted everywhere.
	34	Purneah, „ 14 „	1·79	Weather—Stormy. ·59 of an inch of rain registered at Kissengunge and ·55 of an inch at Arrareah. It is stated that the *bhadoi* crop has suffered from drought, but the Collector believes that during the last two days sufficient rain has fallen to save most part of it. The indigo season is good.
	35	Maldah, „ 14 „	2·87	Weather—Seasonable. The rain of the last two weeks has somewhat revived the damaged *dhan*, and the state and prospects of other crops are satisfactory on the whole.
	36	Sonthal Perghs. „ 15 „	2·29	Weather—Rain alternating with bright sunshine. 2·13 inches registered at Godda, 1·33 inches at Deoghur, and 1·6 inches at Rajmehal. The sub-divisional reports are all good. Transplantation of rice has begun. *Janera* looks healthy.
ORISSA.				
Orissa Divn.	37	Cuttack	... ..	Return not received.
	38	Pooree	.....	Return not received.
	39	Balasore, July 13 '77	14·68	Light and drizzling rains in the early part of the week Stormy weather on the 12th, with a fall of twelve inches. High flood in the Burabullung river, and postal communication with the north suspended. Weather brighter, and rain stopped at the time of report. The crops will not be injured. Public health is good.
CHOTA NAGPORE. *South-West Frontier Agency.*				
	40	Hazareebagh, July 13 '77	1·38	Weather—Showers almost continually since the 10th instant. The slight rain that has fallen has improved the prospects of the crops, but more is still required.
	41	Lohardugga, „ 14 „	2·71	Weather—Seasonable in the head-quarters sub-division, but very unseasonable in Palamow, where only ·43 of an inch of rain was registered up to 10th instant. In the head-quarters sub-division the state and prospects of the crops are favourable. The winter rice crop (broadcast sowings) has reached the stage at which it is ploughed into the ground to make it put out more stems. In Palamow want of rain has prevented sowings for the *bhadoi* crop, but in parts where it has been sown it is being burnt up by heat. Heavy rain this week will be in time
	42	Singbhoom. „ 13 „	4·02	Weather—Seasonable. The state and prospects of the crops are very favourable The district is healthy.
	43	Manbhoom. „ 14 „	5·28	Weather—Seasonable. The crops are all flourishing.

* Telegram of the 16th July shows rainfall during the seven days immediately preceding.

The mean pressure, temperature, &c., are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

NOTICE TO MARINERS.

(No. 12.)

HINDOSTAN—WEST COAST.

Position of Cochin Light-house, etc.

NOTICE is hereby given that the light exhibited at Cochin is incorrectly placed on the present Admiralty Charts.

The light-house is situated on a raised mound which formed a bastion of the old fort, and bears south-west from the Flagstaff and Cochin Church, distant 5·4 cables from the former and 2·8 cables from the latter.

The shallow water at the entrance to this river has shifted about a cable to the E.S.E.; the mark now for leading vessels over the bar is the central or largest of the three churches at Ernakolum in line with Builder's (Vypeen) Point.

The buoys marking the shoal water have been moved—the north buoy 2 cables and the south buoy nearly 3 cables in the same direction.

Note.—During the south-west monsoon these buoys are removed, as vessels anchor at Narrakel, about 5 miles to the northward of Cochin, at which place a small light is exhibited from the Flagstaff.

Position of light-house—lat. 9° 57′ 47″ N., long. 76° 13′ 45″ E.

CHINA SEA—SINGAPORE STRAIT.

Coral Patch near Sultan Shoal.

The Colonial Secretary, Singapore, has given notice of the existence of a coral patch not marked on the Admiralty Charts, on which the S. S. *Ajax* touched on the 30th April 1877.

The result of a careful examination by Commander Wilcox, Commanding H. M.'s Ship *Growler*, places this danger one mile S. E. by E. ½ E. from the Sultan beacon; its length is half a cable N. E. and S. W., and the least water found was 19 feet at low-water spring tides.

A large iron *nun* buoy, painted red, has been placed on the centre of the patch, and the following bearings are given:—

Sultan Shoal beacon	...	... N. W. by W. ½ W.
Raffles light-house (Cony Island)		... S. E. ½ E.

The 10th July 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Govt. of Bengal.

GOVERNMENT OF CEYLON.

NOTICE TO MARINERS.

Ceylon—South Coast.

BUOY MARKING GINDURAH ROCK.

NOTICE is hereby given that an Iron Buoy, painted red, is laid in 11 fathoms water about two cables length south of the Gindurah Rock. It is laid at this distance from the rock on account of the foul ground in its more immediate vicinity.

As the light-house at Point-de-Galle can be seen before the buoy which marks this rock, and its position can always be depended on, commanders of vessels should take it as the best mark to determine their position in making this port.

Vessels making the port from the westward or northward will, by keeping the light-house on the bearing of E. by N. ½ N., pass about two miles south of the Gindurah Rock, and clear the whales. All is clear and open to the southward of this bearing, which will also give vessels a good fair-way to the pilot grounds.

Vessels wanting a pilot should heave-to with the light-house about N. E. to N. N. E. distant about one mile, which will keep them well clear of the Cadda Rocks, off the entrance to the port.

By direction of the Government of Ceylon,

DAN. BLYTH,
Master Attendant, Galle.

MASTER ATTENDANT'S OFFICE,
GALLE,
The 13th June 1877.

NOTIFICATION.

The 10th July 1877.—The Lieutenant-Governor is pleased to order the publication of the following notification for general information.

A. MACKENZIE,
Offg. Secy. to the Government of Bengal.

NOTICE TO MARINERS.

No. 2504.

THE Government of India having approved of the adoption on the Hooghly light-vessels of the Admiralty system of riding lights, it is hereby notified for general information that the following regulations have been established respecting the Hooghly light-vessels, and will come into force from the 1st August 1877 :—

1. A white light, ordinary ship's lantern, will be exhibited from the forestay of each light-vessel, at a height of six feet above the rail, for the purpose of showing in which direction the vessel is riding when at her station.

2. When a light-vessel is driven from her proper position to one where she is of no use as a guide to shipping, the following signals will be made, viz.

3. The usual lights will not be exhibited, but a fixed red light will be exhibited at each end of the vessel, and a red flare light shown every quarter of an hour. By day the balls or other distinguishing masthead marks will be struck.

4. If from any cause the light-vessel be unable to exhibit all her usual lights whilst at her station, the riding light will be shown, and such portion of her usual lights as may be possible to exhibit.

5. The firing of special rockets of an explosive character from a light-vessel will denote the need of assistance from the shore.

MASTER ATTENDANT'S OFFICE,
The 2nd July 1877.

F. WARDEN,
Offg. Dy. Master Attendant in Charge.

NOTIFICATION.

The 23rd July 1877.—The following bye-laws, framed by the Municipal Commissioners of Deoghur, in the Sonthal Pergunnahs, at a meeting, under Section 313 of Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information:—

For Regulating the Conduct of Business at Meetings.

1. The Office of the Sub-divisional Officer will be the Municipal Office under the provisions of the Act.

For Regulating the Time and Mode of Collecting the Taxes.

2. The receipts to be given under Section 110 to be signed by either the Chairman or the Vice-Chairman.

3. Every collecting officer should be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

4. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule shall be liable to a penalty not exceeding Rs. 20: Provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code should the facts appear to warrant such a proceeding.

5. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer at his discretion to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

6. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, unless discharged at once for misconduct; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

7. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required to do so, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

8. Every person within whose premises any animal may die shall, within six hours after its death, or, if death occurs at night, within four hours after daylight, remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcasses, or, if he is unable to remove the carcass, he may report the animal's death to the Municipal Secretary or overseer, who shall cause it to be removed at his expense; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass. Penalty for infringement not to exceed Rs. 10.

9. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement not to exceed Rs. 10.

For the Regulation and Management of Privies.

10. Every person shall construct his privy above ground, and shall provide his privy with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice not to exceed Rs. 10.

11. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or to be discharged from such privy into any drain, water-course, or excavation, or into any other receptacle but one of the kind described in the next preceding section.

Penalty for infringement not to exceed Rs. 10.

12. No person shall throw, deposit, or discharge any night soil, sewage, or the contents of any drain, privy, or cess-pool into any drain, tank, or water-course, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement not to exceed Rs. 10.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, and between such hours as the Municipal Commissioners may from time to time direct.

Penalty for infringement not to exceed Rs. 5.

14. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed by the Municipal Commissioners.

Penalty for infringement not to exceed Rs. 5.

15. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

For Regulating Traffic in the Streets.

16. No owner of any carriage shall allow it to be driven by a driver under fourteen years of age.

Penalty for disobedience on the owner's part not to exceed Rs. 10.

17. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights, except when in the opinion of the Magistrate there may be sufficient moonlight to render such lights unnecessary.

Penalty for infringement not to exceed Rs. 5.

For Regulating or Prohibiting the use of Fire-works, Fire-balloons, Fire-arms, or any Missile in or near a Public Street.

18. No person shall let off any fire-balloon, fire-works, fire-arms, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement not to exceed Rs. 10.

General Bye-laws.

19. No person shall construct, or place over, or by the side of, any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Municipal Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 5; for continued infringement after notice, Re. 1 daily.

20. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence after eight days' notice, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement not to exceed Rs 5.

21. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection, shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement after notice not to exceed Rs. 5; for continued infringement, Rs. 2 daily.

22. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course.

Penalty for infringement not to exceed Rs. 5; for continued infringement after notice Re. 1 daily.

23. No person shall let loose, or allow to be loose, any diseased or worn-out animal on any highway, street, or public place whatever.

Penalty for infringement not to exceed Rs. 10.

For Regulating Burial and Burning Grounds.

24. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement not to exceed Rs. 10.

25. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement not to exceed Rs. 10.

26. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement not to exceed Rs. 20.

27. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement not to exceed Rs. 20.

28. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement not to exceed Rs. 20.

29. No one shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

Penalty for infringement not to exceed Rs. 10.

30. Every person who shall bring or convey, or cause to be brought or conveyed, any corpse, or part thereof, to any burning ground, shall completely burn, or cause the same to be completely burnt, within four hours after its arrival at the said burning ground.

Penalty for infringement not to exceed Rs. 20.

31. No person when burning, or causing to be burnt, any corpse, or part of a corpse, in any burning ground shall permit the same, or any part thereof, to remain without being completely reduced to ashes, or shall permit the clothes or other articles connected with the burning of such corpse to remain at or near such burning ground unless the same be completely reduced to ashes.

Penalty for infringement not to exceed Rs. 20.

32. No person shall open any grave within six months of the burial of any body therein, or shall exhume any corpse, except with the written permission of the Commissioners.

NOTIFICATION.

The 29th June 1877.—The following bye-laws, framed by the Municipal Commissioners of Rungpore at a meeting under Section 313 of Act V (B.C.), 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information:—

For Regulating the Time and Mode of Collecting Taxes.

1. Every officer authorized to collect taxes of any kind and grant receipts shall be provided with a certificate of such authority bearing the seal of the Municipality and signature of the Chairman. Every collecting officer at the time of demanding or receiving payment shall be bound to show this certificate if required. On the suspension or dismissal of a collecting officer the Vice-Chairman shall take back his certificate, and so destroy it that no future use can be made of it by any one.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20: provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer at his discretion to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die, unless he can bury the carcass at such depth below ground as may be determined upon hereafter by the Chairman, who shall specify certain depths for the burial of different species of animals, shall, within five hours of its death, or, if the death occurs at night, within two hours after daylight, either remove the carcass at his own expense to any of such places as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass, at such rate as the Commissioners may determine, and such expense shall be recoverable as a debt due to the Commissioners. In cases, if the owner of the premises is not the owner of the animal, and the owner is known, the latter shall alone be responsible for the payment of such expense. No overseer when called upon, except at night, shall neglect to remove a carcass within three hours of receiving the information.

Penalty for infringement not to exceed Rs. 10.

7. Every owner or occupier of any house, land, or premises from which night-soil, filth, or any other offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of such night-soil, filth, or other offensive matter, within such hours as may have been fixed by the Municipal Commissioners.

Penalty for infringement not to exceed Rs. 5.

8. Every person shall construct his privy above ground, and, when so required by notice, shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement not to exceed Rs. 20.

9. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice ; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water).

Penalty for infringement not to exceed Rs. 20.

11. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement not to exceed Rs. 20.

12. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health or for the prevention of infection or spread of disease, provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.

For Regulating Traffic in the Streets.

14. No person shall carry through the streets, either on carts or on his person, long or entire bamboos after one hour after sunset.

Penalty for infringement not to exceed Rs. 5.

15. Every carriage driven by horse, pony, or mule plying on the streets one hour after sunset, except in bright moonlight nights, shall carry a light or lights.

Penalty for infringement not to exceed Rs. 5.

16. No person shall let any animal loose without sufficient guard, or picket such animal on any public road, or collect carts so as to impede general traffic on any public road.

Penalty for infringement not to exceed Rs. 10.

For Regulating or Prohibiting the use of Fire-balloons, Fire-works, Fire-arms, or Missiles in the vicinity of Public Roads.

17. No one shall let off any fire-balloons, fire-work, fire-arm, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement not to exceed Rs. 10.

General Bye-laws.

18. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thorough-

fare, and the Commissioners shall have power to take down and alter any such spout now in existence, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement not to exceed Rs. 5.

19. No person shall construct or place over, or by the side of, any public drain, any bridge, platform, building, or structure of any kind, except by and with the written permission of the Commissioners and in such manner as they shall direct.

Penalty for infringement not to exceed Rs. 10; penalty for continued infringement after notice not to exceed Rs. 3 daily.

20. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection shall move it after notice within the time prescribed by the Commissioners.

Penalty for infringement not to exceed Rs. 10; penalty for continued infringement after notice not to exceed Rs. 5 daily.

21. No person shall prepare any channel or convey water by any channel across any public thoroughfare, except in such manner as shall have been first approved by the Commissioners.

Penalty for infringement not to exceed Rs. 10; penalty for continued infringement after notice not to exceed Rs. 2 daily.

22. No person shall steep in any river, khal, tank, or ditch within municipal limits any jute, hemp, bamboos, or other vegetable matter likely to render the water of such river khal, tank, or ditch offensive or noxious to the neighbourhood.

Penalty for infringement not to exceed Rs. 5; penalty for continued infringement after notice not to exceed Rs. 2 daily.

23. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course, and the Commissioners may order the removal of any such obstruction on grounds of public health.

Penalty for infringement not to exceed Rs. 10; penalty for continued infringement after notice not to exceed Rs. 4 daily.

24. The owner or occupier of any part of the bank of any nullah or water-course shall keep it free from filth, dense vegetation, or other obstruction, and shall at all times allow the Commissioners, or any of their servants duly authorized, to have access to such nullah or water-course for any purpose of public conservancy.

Penalty for infringement not to exceed Rs. 10; penalty for continued infringement after notice not to exceed Rs. 5 daily.

25. No person shall bury any corpse, or part of a corpse, in a grave which shall be less than six feet deep.

Penalty for infringement not to exceed Rs. 5.

Further copies shall be supplied to any of the parties to the appeal at the rate of 4 annas a copy.

3. Within fourteen days after receipt of the list above mentioned the appellant or appellants shall deliver to the Deputy Registrar a copy of such list signed by such appellant or appellants or his or their advocate or vakeel shewing, by filling up column 4 of the list, what papers or portions of papers in the record it will be necessary to read at the hearing of the appeal.

4. In such list shall be specified not only the papers forming that portion of the record which is relied upon by the appellant or appellants, but all the papers in the record so far as may be necessary to enable the Court to dispose of the appeal.

5. Notice of such list having been filed shall be forthwith given by the Deputy Registrar to the respondents who have appeared or their vakeels respectively.

6. Any party respondent or his vakeel may without fee inspect, and at his own expense take, a copy of the list filed under Rule 3.

7. Each party respondent shall, within fourteen days after service on him of the notice under Rule 5, deliver to the Deputy Registrar a copy of the list mentioned in Rule 2 shewing, by filling up column 4 of the list, what papers or portions of papers, if any, not marked as necessary in the list furnished by the appellants, he considers it will be necessary to have read at the hearing of the appeal

8. If any respondent considers that any portion of the record marked in the appellant's list is unnecessary, he shall so state by writing in column 4 the word "unnecessary."

9. If any respondent considers that any portion of the record has not been marked as necessary by the appellants, which under Rules 3 and 4 ought to have been so marked, he may, within three days after filing his own list under Rule 7, and on notice to the appellants, apply to the Court to compel the appellants to add that portion to their own list; and if such application be granted, the portion so added shall be struck out of the respondent's list.

10. If no list be filed by any respondent within the time specified, the paper-book will be made up according to the appellant's list.

11. Where several appellants or respondents appear by one advocate or vakeel, one list only shall be filed by each set of parties so appearing.

12. If all or a considerable portion of the necessary papers have already been printed in any former paper-books, the appellant or appellants shall so state in his or their petition of appeal and in the list furnished under Rule 3. Nothing printed in such former paper-book shall, except by special order of Court, be again printed, if sufficient copies of that paper-book be procurable. But copies of the former book shall be annexed to the new book. and a reference shall be made to the page in the former book in which each particular document or deposition is to be found.

13. Immediately upon the receipt of any list filed under Rule 3 or 7, the Deputy Registrar shall make and deliver to the party furnishing it an estimate of the costs of transcribing, translating, printing, and preparing the portions of the record marked in such list as necessary to be read, or added thereto by order of the Court, including the cost of the list prepared under Rule 1. Each party furnishing a list must, within two weeks after the delivery to him or them of such estimate, deposit with the accountant of the Court the whole amount thereof.

14. If it shall be ascertained at any time that the sum deposited by any party will not cover the costs payable in respect of the papers marked as necessary in the list furnished by him, or added thereto by the order of the Court, the difference shall be estimated by the proper officer, and shall be paid within two weeks after demand by such party.

15. In case of any party failing to file the necessary list under Rule 3, or to make the necessary deposit under Rules 13 and 14, in due time, the Deputy Registrar shall at once cause the appeal to be set down before the Division Court to which it belongs; and if the party in default does not satisfy the Court as to his delay, the appeal may be dismissed for want of prosecution, or the Court may pass such other order as it may deem proper.

16. If the sum deposited by any party shall exceed the costs for which he is liable under the above rules, the difference shall be refunded as soon as the actual costs incurred are ascertained.

17. The Court may at any time, upon sufficient cause shewn, enlarge the time for furnishing any list or making any deposit required by these rules Such application for enlargement must be made before the time expires, except in special cases: and it must be supported by an affidavit stating the circumstances under which the delay took place. It must also be accompanied by a certificate of the Deputy Registrar shewing the dates on which the several directions herein contained have been complied with, which certificate the Deputy Registrar shall grant upon payment of a fee of Rs. 2.

18. A separate account shall be kept of the costs of the list prepared under Rule 1, and of transcribing, translating, and printing the papers contained in each list.

19. The Deputy Registrar shall cause the portions of the record in respect of which the proper deposit has been made to be (where necessary) translated into English, and shall cause the same to be printed; and this, together with such lists as aforesaid, shall form the paper-book to be used by the Court at the hearing of the appeal.

20. If there be separate appeals against the same judgment, complete lists shall be filed by the parties in each appeal; and the Deputy Registrar shall, subject to the order of the Court, determine in what proportions the deposits are to be made. Nothing shall be printed twice over; but references shall be inserted in the proper places showing where the several portions elsewhere printed are to be found.

21. No portion of the record which is not contained in the paper-book shall be read at the hearing of the appeal without the special leave of the Court. If such special leave be granted, it shall be competent to the Court to order such portion to be translated and transcribed, or printed at the cost of the party requiring the same to be read.

22. The costs of transcribing, translating, printing, and preparing the paper-book, including the cost of the list prepared under Rule 1, shall be costs in the appeal, unless the Court hearing the appeal shall otherwise direct.

23. The Court may, upon the application of any party, and upon good and sufficient cause shewn, give such special directions as to any of the matters to which these rules relate as may seem fit, and may by special order exempt any party from the operation of any portion of these rules: provided always that the list, as directed by Rules 3 and 7, must be filed in all cases, unless the party can satisfy the Court that he is unable to prepare the list himself, and that he is without any professional assistance in the litigation.

24. It shall be open to any party, at any time before the translations are completed to deposit the amount necessary for defraying the expenses of examination of the translations before the same are printed, such amount being fixed by the Deputy Registrar; and, upon such deposit being made, the translations will be examined in the same way that the translations in cases appealed to the Privy Council are examined, by one of the Examiners of the Court appointed for the purpose and certified accordingly. The amount so deposited will be allowed as cost to the party making the deposit, if the Court shall so order.

25. Upon special application and deposit of the extra costs, the record will be printed in the form directed by the Privy Council.

26. In ordinary cases 25 copies of the paper-book will be printed, but the Deputy Registrar may at his discretion increase the number. Two copies of the paper-book may be obtained by each party appellant appearing separately free of charge.

27. As soon as the paper-book is ready for delivery to the parties, the case shall be inserted by the Deputy Registrar in a list to be hung up in the usual places; and the case shall not be inserted in the peremptory daily list of cases until four days after its insertion in the first of the above-mentioned lists.

28. Appeals against admissions of or refusals to admit a will to probate shall be considered as regular appeals within the meaning of these rules.

29. Every paper-book shall have printed on the cover a statement of the amount of costs incurred by each party in respect thereof.

30. These rules shall apply to all regular appeals filed on and after the 1st day of August 1877, from which date the rules of the 15th September 1875 shall be superseded.

Rules relating to Special Appeals.

I. The paper-book in all cases of special appeal, except appeals not exceeding Rs. 50 in value, will consist of the following papers; those not originally in the English language being translated into English:—

(*a*).—*The Plaint.*

Note.—Lengthy schedules and descriptions of oubndaries appended to plaints may be omitted.

(*b*).—*The Plaintiff's written Statement, if any.*

(*c*).—*The Defendant's written Statement.*

Note.—When there are several sets of defendants in a suit, the written statements of defendants not parties to the special appeal either as appellants or respondents may be omitted.

(*d*).—*The Judgment of the First Court.*

(*e*).—*The Judgment of the Lower Appellate Court.*

(*f*).—*Any Judgments or Orders of Remand passed in the case either by the Lower Appellate Court on appeal or by the High Court on special appeal.*

(*g*).—*The Memorandum of Special Appeal.*

(*h*).—*A front leaf* containing the number of the cause, names of the Judges of the two Courts below, names of the parties and of their vakeels, date of the institution of the suit, date of the judgment of the First Court, date of the judgment of the Lower

Appellate Court, date on which the special appeal was filed, date of service of notice upon the respondents, and date on which the cause was ready for hearing.

II. In each case of special appeal the Deputy Registrar will cause to be printed 12 copies of the paper-book as aforesaid.

III. The appellant, at the time of filing the Memorandum of Special Appeal, and the respondent, at the time of entering appearance through a vakeel or attorney of the High Court, shall each of them deposit with the Accountant the sum of Rs. 7-8, and shall each of them be entitled to one copy of the paper-book free of charge.

IV. If it shall be ascertained at any time that the sum deposited in any case will not cover the actual costs incurred, the difference shall be deposited by the appellant within two weeks after demand.

V. In case of any party failing to make the necessary deposit under Rule IV, the Deputy Registrar shall at once cause the appeal to be set down before the Division Court to which it belongs; and if the party does not satisfy the Court as to his delay, his appeal may be dismissed for want of prosecution, or the Court may pass such other order as it may deem proper.

VI. When the cause is ready for hearing, the Deputy Registrar will furnish the vakeels or attorneys engaged on either side with copies of the paper-book, for which deposit shall have been made as aforesaid. The issue of paper-books to the vakeels or attorneys will be notice to them that the case is ready for hearing.

VII. No Memorandum of special appeal filed through a vakeel or attorney of the High Court, nor a *first* vakalutnamah or power-of-attorney for the appearance of the respondents, will be admitted or received, unless, at the time of presentation, the deposit has been made with the Accountant under Rule III.

Provided that any second or other vakalutnamah or power-of-attorney for the appointment of new vakeels or attorneys, or reappointment of former vakeels or attorneys by representatives of deceased parties, may be filed without such deposit.

VIII. An account shall be kept of so much of the actual cost of preparing and printing the paper-book in each special appeal as is chargeable to the parties, and the appellant and respondent shall be each of them entitled to a refund in equal shares of the excess of the sum paid by them jointly over the said actual costs.

IX. Additional paper-books supplied at the request of the parties shall be charged for.

X. In analogous cases governed by one judgment, the Court on application will make a special order.

XI. The Court may, upon the application of any party, and upon good and sufficient reason shewn, give such special directions as to any of the matters to which these rules relate as may seem fit; and may by special order exempt any party from the operation of any portion of these rules.

XII. These rules shall apply to all special appeals filed on and after the 1st day of August 1877, from which date the rules of the 12th March 1874 shall be superseded.

COMMERCE AND TRADE.

The 13*th July* 1877.

No. 11 *of* 1877.—The following Notice to Mariners is published for general information :—

NOTICE TO MARINERS.

INDIA—BAY OF BENGAL.

Additional Lightship at entrance of the River Hooghly.

The Government of Bengal has given notice that, on the 10th July 1877, an additional light-vessel will be placed at the entrance of the river Hooghly in 4¾ fathoms between the lower Gaspar and Eastern Channel lightships, from which will be exhibited annually, from the 1st April to 31st October, a *fixed white catadioptric* light visible all round the compass at an elevation of 28 feet, and in clear weather should be seen from a distance of 10 miles.

The lightship will be placed on the following bearings :—

Lower Gaspar light	... ...	... N. by W. 10 miles ;
Bell buoy	... ...	... N. N. W. ¼ W. 2¼ miles ;
Centre Saugor Sand buoy	... ...	... N. E. by N. 3¾ miles ;
Upper reef buoy	... ...	... S. W. by W. 5½ „

or in latitude 21° 16′ 10″ N., longitude 88° 8′ 10″ E.

The vessel will be painted *buff* with the word *intermediate* in black letters on her sides, and by day will carry at the lantern mast-head a large black double triangle.

It is also notified that the system of riding lights established for lightships on the Coasts of England and Ireland will be adopted, from the 1st August 1877, on board the Hooghly river light-vessels, *viz.*—"A white light to be exhibited from the fore stay of each light-vessel, at a height of 6 feet above the rail, for the purpose of showing in which direction the vessel is riding, when at her station.

"When a light-vessel is driven from her proper position to one where she is of no use as a guide to shipping, the following signals will be made, *viz.*—

"The usual lights will not be exhibited, but a *fixed red* light will be exhibited at each end of "the vessel, and a *red* flare shown every *quarter of an hour*. By day the balls or other distin-"guishing mast-head marks will be struck.

"If from any cause the light-vessel be unable to exhibit all her usual lights whilst at her station, the riding light will be shown and such portion of her usual lights as it may be possible to exhibit."

"*Note.*—The firing of special rockets of an explosive character from a light-vessel will denote the need of assistance from the shore."

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the proprietary right of Government to the undermentioned estate, situate in the district of Monghyr, will be put up to sale at the Monghyr Collectorate on Saturday, the 11th August 1877, corresponding with 28th Srabun 1284 F.S.

The purchasers of this estate will be subject to the following conditions of sale:—

CONDITIONS OF SALE.

(1) The purchaser of this estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him, with the revenue fixed upon the estate, in perpetuity.

(2) The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and the purchaser to be bound to respect the rights of resident cultivators, who have signed the schedule of assessment prepared by the revenue authorities.

(3) If the amount of purchase money do not exceed Rs. 100, the whole amount to be paid down at once.

(4) If the amount of purchase money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

TURA, the 18th July 1877.

For Sale.

TWO double-pole Tents, complete. Apply to Superintendent of the Bengal Secretariat Press.

Wanted

A HEAD CLERK and Sheristadar on a salary of Rs. 150, rising by annual increments of Rs. 10 to Rs. 200. Thorough knowledge of English and Bengali, and of routine office work, essential. Must also be a good translator. Apply, stating qualifications and enclosing copies of certificates, to the Deputy Commissioner, Cooch Behar. Applications to be sent in before the 1st August 1877.

G. DALTON, *Dy. Commissioner.*

Notice.

FROM and after the 1st of August next, the numbers of licenses will be painted on two conspicuous parts of cargo boats instead of on tins, as is the present practice, and for this purpose cargo boats will have to be anchored at the landing place between jetties Nos. 4 and 5. A man duly authorized for this work will be in attendance at the above place. The fee for painting the numbers on each boat will be the same (viz. 3 annas) as that for painting the numbers on the tins.

This magazine was announced as closed with the twelfth number of Vol. IV on the 30th July last, much to the regret of its numerous readers, at whose earnest solicitation it has been revived under a new editor, still supervised, however, by the former well-known Bengali scholar, Babu Bankimchandra Bhattáchárjya.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE PORT COMMISSIONERS FOR THE YEAR 1876-77.

GENERAL DEPARTMENT.—MARINE.—CALCUTTA PORT TRUST.—No. 2066.

Calcutta, the 20th July 1877.

READ—

The Administration Report of the Port Commissioners for the year 1876-77.

THE Commissioners divide their report into three sections, corresponding to the threefold character of the duties which under different Acts they now fulfil. These are—

(1) The work of port improvement under Act V (B.C.) of 1870.
(2) The work of port conservancy and harbour management under Act XII of 1875.
(3) The management of the Hooghly floating bridge under Act IX (B.C.) of 1871.

PORT IMPROVEMENT.

2. In connection with the operations of port improvement, the Commissioners had, up to the 31st March 1877, expended on new works the sum of Rs. 71,82,288. Of this they had raised Rs. 52,87,187 by loans from Government, and provided Rs. 18,20,517 from their current revenues, the balance being made up by a sum of Rs. 74,584 contributed by Government for the new Strand Road.

3. Up to the close of the year under review the total sum borrowed by the Commissioners from Government (though not all spent) was Rs. 53,24,100.

They had repaid of this from revenues Rs. 3,70,585, leaving a balance of Rs. 49,53,515 still due They had paid as interest up to date Rs. 6,74,113.

4. The total profits of the Commissioners up to the end of 1876-77 aggregated Rs. 22,74,559, of which they had spent Rs. 17,87,706 on new works, and Rs. 3,70,585 in repayment of loans, the rest being devoted to the creation of a Jetty Reserve Fund and of an Insurance Fund against damage to goods at the jetties, and the cash balance.

5. During the year of report the Commissioners laid out on new works Rs. 9,77,430, expended as follows :—

	Rs.
On improving jetties	17,680
On new office building	1,27,116
On new machinery and plant	74,779
On extension of inland vessels' wharves, construction of tramway, and new river-side road	7,57,855

6. Their *net* revenue for the year in this department of their operations was Rs. 3,97,602, and their gross receipts (other than loans, &c., from Government) Rs. 11,06,034. The difference between the gross and net revenue represents outlay on establishments, interest, repairs and working expenses, &c.

7. The new river-side road and inland vessels' wharves were completed during the year of report, and the whole river-bank from Chandpal Ghât to the northern boundary of the Port, with the exception of the frontage of the East Indian Railway at Armenian Ghât and of the Eastern Bengal Railway at Chitpore, is now in the hands of the Commissioners.

8. The tramway to connect the inland vessels' wharves with the Eastern Bengal Railway has been completed as far as Armenian Ghât, and it is hoped that the difficulties in connection with carrying the line across the East Indian Railway Company's premises may shortly be settled, when there will be direct communication between the Eastern Bengal Railway and the whole line of import and export sheds. The moveable bridge across the canal at Chitpore will very soon be ready, and the trains will then run direct to the Eastern Bengal Railway station at Chitpore, instead of along the Municipal Railway as at present.

9. The other works carried out during the year were the completion of the new Burning Ghât, the pitching of the slope and improvement of the inland vessels' wharves, the extension of the jetty-heads to suit long steamers, the provision of additional engines and cranes, and the completion of the 30-ton floating crane. The new office building was also nearly finished.

10. The dredger was employed at the jetties and inland vessels' wharves for 192 days during the year, and dredged 2,471,500 cubic feet at a net cost of Rs. 22,868, or Rs. 9·25 per 1,000 cubic feet. All the berths in which silting had taken place were cleared out to a depth of 22 feet, and the jetties were thus fully utilised throughout the year.

11. The income and expenditure of the jetties for the last six years have been as follows:—

	Income.	Expenditure.
	Rs.	Rs.
1871-72	3,63,706	2,04,778
1872-73	4,09,440	2,43,911
1873-74	4,21,774	2,68,413
1874-75	4,82,983	3,39,997
1875-76	5,44,380	3,70,758
1876-77	6,04,090	4,19,047

The net revenue, therefore, for 1876-77 amounted to Rs. 1,85,043, as against Rs. 1,73,622 in the previous year. There is a considerable increase in the expenditure under salaries and working expenses; but this is counterbalanced by enhanced receipts from shipping charges and overtime allowance: and the bulk of the increase under the head of working expenses consists of an exceptional charge of Rs. 25,702 for the value of 11 bales of raw silk accidentally lost in shipment. The Commissioners have done well to form an Insurance Fund to meet such losses.

12. In the Resolution on the Report for 1874-75, the attention of the Commissioners was drawn to the failure of the jetties to attract export cargo. The Lieutenant-Governor is glad to observe that in 1875-76 the receipts on

this account rose from Rs. 7,667 to Rs. 29,020, and that in the past year Rs. 86,175 were realized from export cargo (chiefly hides and grain) passing through the jetties.

13. During the past year 192 vessels, representing a gross tonnage of 304,218 tons, made use of the jetties; the average length of each vessel's detention being 10·2 days, and its average payment Rs. 204. It is stated that for 33 vessels no room could be found at the jetties at all; that 53 vessels were delayed on an average three days each before they could be admitted; and that 46 vessels were compelled to leave the jetties before they had completed loading. It is clear from these facts that the present jetty accommodation is unequal to the requirements of the shipping. The application of the Port Commissioners for a loan of five lakhs for construction of a new jetty to the south of the existing jetties has been recommended for sanction to the Government of India.

14. A representation from the Chamber of Commerce, soliciting a reduction in the rates charged for landing and shipping goods at the jetties, was referred by the Commissioners to a Sub-Committee for consideration and report. The Lieutenant-Governor concurs in the opinion expressed by the Commissioners that the working balance is still not large enough to justify any present reduction in the rates which, moreover, are lower than similar charges in the ports of London and Liverpool, and not very different from the charges formerly paid for the much less efficient cargo-boats.

15. During the year the cranes were at work for 54,292 hours, or nearly 15,000 hours more than in 1875-76. This increase is chiefly due to the larger number of vessels using the jetties, and in part to the growing demand for night-work in order to secure greater despatch. At the same time, the cost of working the cranes has been reduced from 14 annas 10 pies to 10 annas 2 pies per hour. A statement given in the report shows the hourly cost of working hydraulic cranes to be 7 annas, while steam cranes cost Re. 1-0-3. It appears, therefore, that the substitution of hydraulic for steam cranes will be the means of effecting a considerable saving.

16. The net revenue derived from the inland vessels' wharves has risen from Rs. 1,50,163 in 1875-76 to Rs. 1,94,279 in the past year in consequence of the unusual activity of the rice trade, arising from the demand of the famine districts of Madras and Central India. It is observed that the charges for interest and repairs are considerably higher than in previous years; but this is only the natural result of the recent extension of the wharves to the northern boundary of the port. The newly constructed continuous wharf from Aheereetolah to Chitpore will now be known as Schalch's Wharf, and that from Chitpore to Cossipore as Temple's Wharf.

17. The following statement shows the collections at the various wharves during the last two years:—

Wharf.	1876-77. Rs.	1875-76. Rs.
Lower wharf	72,777	54,557
Grey's	1,83,934	1,40,880
Schalch's	91,004	76,925
Temple's	28,885	22,108
Total ...	3,76,570	2,94,470

Within the same period the largest income was derived from the following articles:—

	1876-77. Rs.	1875-76. Rs.
Grains	1,26,120	63,008
Jute, hemp, &c.	54,747	50,541
Seeds	46,575	55,920.
Building materials	14,987	14,537
Gunny-bags	10,053	9,199

It will be observed that the receipts from grains are double those of the previous year; that there is a slight rise in jute and hemp, and a slight fall in seeds; and that the other two items yield much the same as in 1875-76.

18. The gross receipts on account of the Strand Bank lands have risen from Rs. 1,01,317 in 1875-76 to Rs. 1,07,928 in the year under report; but the net revenue has fallen from Rs. 19,432 to Rs. 18,279, owing for the most part to the enhanced expenditure under the head of repairs.

HARBOUR MANAGEMENT.

19. The income of the Harbour Department amounted in the past year to Rs. 5,24,806, and the expenditure to Rs. 4,66,062—giving a surplus revenue of Rs. 58,844, as against Rs. 4,853 realized in 1875-76. It appears, however, that Rs. 41,019 of this amount come from the sale proceeds of the wreck of the *Asia*, which are credited in the Commissioners' accounts pending a final adjustment of the claims against the vessel.

20. The statement given in paragraph 73 of the report shows a remarkable increase in the tonnage of the vessels arriving in Calcutta. It appears that while 1,173, the mean number of vessels arriving here in 1863-64 and 1864-65, corresponds very nearly to 1,171, the number of vessels which actually entered the port in the past year, the gross tonnage twelve years ago did not exceed 965,452 per annum, while in 1876-77 the figures represent a gross tonnage of 1,696,701 tons, showing an increase of 626 tons in the average tonnage of each vessel entering the port.

21. In the subjoined statement the steamer tonnage of the year has been classified according to the nature of the trade on which the vessels are employed.—

Steamers entering Port in 1876-77.

Trade on which employed.	Number.	Gross tonnage.
Suez Canal trade	161	406,120
Coasting and Eastern trade	301	422,230
Employed specially on famine transport work	90	158,973
Total ...	552	987,323

The Lieutenant-Governor considers the facts set forth in this statement satisfactory, as showing not only the readiness with which the local trade met the emergent demand from the distressed districts, but also because it appears that the steamer traffic of the port has increased from 406 to 462, independently of the abnormal impulse which has affected the trade in grain.

22. The account furnished in the report of the collisions and accidents to shipping that occurred within the limits of the port during the year shows that only nine accidents occurred in 6,783 operations of haulage, while there was only one total loss of any vessel in the port, that of the *Asia* by fire, and for this the Harbour Master's Department was not to blame. This case was inquired into by a special Court appointed under section 3, Act IV of 1875, and two of the crew who caused the fire by taking an unguarded lamp into the hold were convicted and fined for a breach of Port Rules.

23. The lamentable accident on board the torpedo boat, which caused the death of Sergeant Harrison and ten natives, has formed the subject of a Minute by the late Lieutenant-Governor and a report to the Government of India. It is needless therefore further to discuss the subject here.

24. In connection with this disastrous explosion, the attention of Government has been drawn to the necessity of making adequate arrangements for blowing up, or otherwise removing, sunken wrecks within the port. The Commissioners, while intimating to Government that there is not at present sufficient work of this character to justify the appointment of a permanent officer to deal with wrecks, expressed their willingness to employ such an officer for twelve months, his retention after that period being dependent on the conclusions arrived at with regard to the conservancy of the whole river. In consequence of this representation, the Government of India in the Public Works Department have requested the Inspector-General of Military Works to name a competent officer to conduct torpedo operations in future. It is hoped, therefore, that the three wrecks which now obstruct the navigation of the port may shortly be removed without the occurrence of any further disaster.

25. The moorings of the port are now in a very complete and satisfactory condition, save as regards the 20 moorings affected by silt between Fort Point and the Dockyard. The Commissioners have now 145 fixed and 25 swinging moorings, all of the best and strongest kind.

26. Many questions in connection with the port conservancy are at present under discussion, and, though noticed by the Commissioners, need not be further alluded to here. The matter of the floating hospital has been settled by the provision of ambulance doolies both at Prinsep's and Armenian Ghâts.

Hooghly Bridge.

27. The receipts of the Hooghly Bridge in 1876-77 amounted to Rs. 4,21,038, and the expenditure, including interest and sinking fund, and the purchase of the ferry steamer *Howrah*, to Rs. 3,37,748. Taking into account the previous balance and a sum of Rs. 47,690 required to complete the reserve section of the bridge, there is a net available cash balance of Rs. 1,57,210.

28. There is a falling off in the number of foot passengers passing both ways of 166,465 as compared with 1875-76, and this is stated to be due to the practice of evading the toll-bar by passing through the railway station. The Lieutenant-Governor would wish the Commissioners to consider, in communication with the Railway authorities, the best means of stopping this, which cause a serious loss to the bridge receipts.

29. The bridge has been efficiently managed by the Commissioners throughout the year, and proposals have been made for diminishing the risk of accident by improved arrangements for passing vessels through. The question of abandoning the terminal charge on coal, discussed in the report, is under the consideration of Government in the Public Works Department.

General Financial Summary.

30. Taking all branches of the Commissioners' operations together, the following facts are of interest, as showing the results of their management from October 1870 to 31st March 1877. Excluding sums made over to them by the Collector of Customs and the Commissioner of Police at the commencement of the undertaking, and also the cash balance transferred to them with the port, the profit realized by them has been as follows:—

		Rs.
I.	Jetties	10,13,639
II.	Inland Vessels' Wharf and Strand Bank land	11,95,955
III.	Port or River division	4,46,528
IV.	Hooghly Bridge	3,77,343

The total expenditure on block has been as follows:—

	Department.	Outlay from loans.	Outlay from profit.	Total.	Remarks.
		Rs.	Rs.	Rs.	
I.	Jetties ...	26,56,775	7,60,393	34,17,168	In III, deducting depreciation, the block is Rs. 17,55,815, but the difference is held in Government paper.
II.	Inland Wharf and Strand land.	27,04,966	10,20,730	37,25,726	
III.	Port and Harbour	17,65,000	1,79,076	19,44,076	
IV.	Bridge ...	22,00,000	50,055	22,50,055	

The profits for 1876-77 give the following percentage on the block for the season:—

	Particulars.	Profit for the year.	Percentage on block.
		Rs.	
I.	Jetties	1,85,044	5½ per cent. nearly.
II.	Inland Wharf, &c.	2,12,558	5¾ „ „
III.	Port and Harbour	17,825	1 „ „
IV.	Bridge	1,97,795	7½ „ „

This result is arrived at after payment of interests on loans received. If this item were excluded, the percentage would be (I) $8\frac{5}{16}$, (II) $8\frac{1}{2}$, (III) $5\frac{7}{8}$, (IV) $11\frac{3}{4}$, respectively.

31. The Lieutenant-Governor has again to thank the Commissioners, on behalf of Government, for their efficient administration of the Port Trust during 1876-77. The services of their late Chairman, Mr. Schalch, have already been specially acknowledged. The Commissioners have been most efficiently served by their Vice-Chairman, Mr. Duff Bruce, to whom is due much of the success with which the measures of the Commissioners have been carried out.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,
Offg. Secy. to the Government of Bengal.

RESOLUTION ON THE ANNUAL REPORT ON THE ADMINISTRATION OF THE TRIBUTARY STATES OF ORISSA FOR 1876-77.

POLITICAL.

Calcutta, the 23rd July 1877.

READ—

Annual Report on the Administration of the Tributary States of Orissa for 1876-77.

THE present report is less full than usual. Mr. Beames only succeeded to the office of Superintendent in the end of March, and he is therefore unable to speak from personal knowledge of the administration of the year under review. The report, which he has compiled from the office papers and from his predecessor's notes, is a record of continued progress and good management in the majority of the States.

2. The fiscal condition of the two Government estates of Ungool and Banki is very satisfactory. The whole of the Government demand was discharged, and considerable payments on account of the current year were made in advance. In Bamunghatty estate the collections were made without difficulty, and a handsome sum as net profits was handed over to the Maharajah of Mohurbhunje. The management of these three estates has been very creditable to the local agency, and the peasantry are prosperous and contented. The tribute demandable from the different States has as usual been paid up punctually. There are no arrears, and in six out of the sixteen States a part of the current year's demand has already been deposited.

3. There is no land assessment in the Khond Mals, but the people have taxed themselves with two cesses—one on spirit shops, the proceeds of which are, at their own request, applied to maintaining schools ; the other on ploughs, of which the collections, with an equivalent contribution from Government, are applied to the construction of roads. The shop tax produced Rs. 2,410, which, with a small sum for fines and sale proceeds of confiscated articles, actually exceeded the amount expended. Thus the large balance (Rs. 4,357) at the credit of the fund at the opening of the year was slightly increased at the close of the period. The Lieutenant-Governor agrees with Mr. Beames in thinking that the surplus should be devoted to opening new schools. The experiment has been sufficiently successful to justify hopes of still better results being attained. The average attendance at each of the sixteen schools now open was nearly 36, and small rewards were earned for regular attendance. The proceeds of the plough tax, with the balance of the preceding year, amounted to Rs. 5,439. Of this only Rs. 3,665 was expended. The importance of improving communications in these tracts is so great that the Lieutenant-Governor would like to see the whole amount at the credit of the fund utilized.

4. The civil and revenue work appears to have been executed with efficiency and despatch. There were altogether 2,090 cases on the files, and of these 1,979 were disposed of. The three estates of Ungool, Banki, and Bamunghatty account for 1,791 out of 1,945 cases instituted. The balance represents complaints from tributary States in which persons were dissatisfied with the Rajahs' decisions, and the small number instituted, notwithstanding the progress of land settlements in many of them, bears satisfactory testimony to the general fairness of the proceedings of the Chiefs. Nearly one-third of all the cases instituted were suits relating to debt. Cases of this class largely preponderated in the small estate of Banki, where no less than 411 were brought forward. Indeed, civil litigation under all heads is nearly twice as common in Banki as in Ungool, owing no doubt to its comparative populousness and its proximity to the regulation tracts.

5. As in the previous year, there was little serious crime. Four murders and 11 cases of culpable homicide occurred. In connection with one of the latter, it is incidentally mentioned that the deceased and his aggressor had each consumed two quarts of strong spirit before their dispute arose. The Lieutenant-Governor remarks that dishonest crime is of rare occurrence, and, looking to the disregard of human life which is ordinarily found among wild hill tribes, he thinks that offences against the person have been creditably few in number.

6. Mr. Ravenshaw was unable to do as much as usual in the way of inspection, important business requiring his presence at Cuttack and Pooree during the greater part of the touring season. Dhenkanal and Athgurh were the only States visited by him. Mr. Eden considers it of the greatest importance that a European officer of rank should regularly visit the different States to see with his own eyes how the administration proceeds, and to give the Chiefs his personal counsel and support. He is satisfied that nothing short of this will ensure the initiation and fulfilment of measures such as the establishment and support of schools and the opening up of communications. Owing probably to the causes referred to above, less has been said on these points in the present report than the Lieutenant-Governor could have wished. He trusts that Mr. Beames will give these States his earnest personal attention during the ensuing camping season. Mr. Eden believes that, with good administration and the opening of land communication, the rich valleys of the Mahanuddy, the Brahminee, and the Byturnee have a prosperous future before them.

7. With rare exceptions, the conduct of the Chiefs has been good. The Maharajahs of Mohurbhunje and Keonjhur have continued to uphold the character for public liberality and enlightened administration which has won for them the approval of Government, and which has found its fitting reward in the title of Maharajah recently conferred upon them. The Lieutenant-Governor was deeply grieved at the intelligence of the death of the Maharajah of Dhenkanal in February last, and His Excellency the Viceroy expressed his regret also at the Maharajah's loss. The Maharajah always enjoyed the confidence of Government and the love and respect of his subjects, and in the course of a long and enlightened rule he did much for the permanent prosperity of his State. He has been succeeded by his adopted son, and Baboo Bonomali Singh, an educated and experienced gentleman who has already given much satisfaction as Dewan of the State, has been appointed guardian of the minor prince. The Rajahs of Pal Lehara, Athgurh, and Nursingpore have maintained their reputation as just and intelligent ruiers. The Rajah of Athmullick, who was greatly beloved by his people and esteemed by Government, died during the year. He has been succeeded by his son, an intelligent and well educated youth, who has for some years assisted his father in the management of the State, and who may be trusted to carry on his enlightened policy. The Lieutenant-Governor is concerned again to receive unfavourable reports of the Rajahs of Nilgiri and Baramba. Mr. Beames has promised a special report on the condition of the former State, and this will be awaited. In Talchere there appears to have been no improvement. The young Rajah has not attempted to levy any illegal cesses, but he has not dismissed his bad advisers, and he appears to be still leading an improvident and profligate life. The Lieutenant-Governor desires that Mr. Beames will take an early opportunity of visiting Talchere and reporting fully on the condition of the State and the temper of the people.

8. The continued misconduct of the Rajah of Duspulla, which has been frequently brought to the notice of Government, recently formed the subject of a special report. The Rajah's behaviour towards his people has of late been so tyrannical and exasperating, and his mismanagement of his State has, in spite of repeated warnings and a solemn engagement, been so gross, that Mr. Eden has been compelled to interdict him from doing any public business, except with the assistance of a Council. Meanwhile the Rajah has been required to defray the expense of a settlement of his territory by a specially selected officer, and he has been warned that, if after six months he is not found to have given satisfaction to his subjects and to have loyally co-operated in carrying out the settlement and fulfilling the convention which he entered into with his people in 1874, the Lieutenant-Governor will without fail insist on his removal from Duspulla and bring the estate under direct management. Mr. Eden trusts that the Rajah will profit by this last warning, and that it will not be found necessary, in the interests of his subjects, to resort to the extreme measure of deposing him.

9. Mr. Ravenshaw, during his long tenure of the office of Superintendent, enjoyed an amount of personal influence among the tributary Chiefs which bore ample testimony to the excellence of his administration. The thanks

of Government have repeatedly been tendered to him for the energy displayed by him in controlling and directing the relations between the Rajahs and their subjects. The results of his wise supervision are manifest in the generally contented state of the people, and in a considerable improvement in their moral and material condition. The Lieutenant-Governor trusts that Mr. Beames will take an equal interest in this important part of his duties. Baboo Harikissen Dass, the Assistant Superintendent, and Baboos Beechund Patnaik and Sreenath Bose, Tehsildars, deserve credit for their careful and successful management of their respective charges.

By order of the Lieutenant-Governor of Bengal,

S. C. BAYLEY,

Secretary to the Govt. of Bengal.

IT was the design of Sir George Campbell, by his Resolution of the 30th September 1872, to give a permanent impulse to the cause of primary education among the masses of the people. The general principle of his arrangements was that educational control should as far as possible be localised, while at the same time the members of the Educational Service should be brought into closer connection with the executive officers of Government, and so made an integral part of the general administration of the country. District Committees were established under the presidency of the Magistrate, to which important duties were assigned in respect both of educational supervision and the expenditure of educational funds. The Director was to cease to exercise immediate control over the local operations of his department, and to become an adviser to Government in questions involving educational principles. The relative functions of Commissioners, Magistrates, Inspectors, Deputy Inspectors, and Committees were defined, and the limits of the authority of each were laid down. The whole educational system was in fact re-modelled.

2. It was natural that in such an extensive operation some modifications of detail should very soon be found necessary. It was impossible to hope that such a general re-arrangement of an intricate mechanism could be effected

without causing some friction. Modifications have therefore from time to time been introduced, some under the direct orders of Government, and others by a natural process of adjustment among the various authorities concerned. The Lieutenant-Governor believes that the time has now come when it is advisable that the whole question should be re-considered in the light of its practical working, and that such improvements as may be thought worthy of adoption should be incorporated in a revised scheme.

3. It was apparently hoped that the position given to the professional agency of the Education Department, in connection with the scheme of 1872, would have secured at least that element of uniformity and continuity which is essentially necessary to permanent educational progress. But it is now clear that far too much was left dependent on the unchecked idiosyncracies of individual district officers, many of whom had no special taste for this branch of administration, while all were already fully occupied with the constantly pressing details of their ordinary work. In several respects, moreover, the principles of the amalgamation were not very clearly formulated, and in practice difficulties have frequently cropped up in consequence.

4. The Lieutenant-Governor gladly acknowledges that, notwithstanding all these drawbacks, much important and useful work has been done. A fund of knowledge has been gained as to the educational requirements of the masses. In many backward districts a great stimulus to improvement has been given, and the cause of primary education has been placed on a broad and expanding basis. The combined common sense and zeal of both civil and educational officers have in fact brought about results on which they may well be congratulated. There has, however, on the other hand, been considerable loss of power, and, it is to be feared, no inconsiderable waste of money, arising from the want of due professional guidance and the absence of accumulated professional experience, both of which the new system failed properly to utilise. It is the Lieutenant-Governor's present object, while retaining the broad principles laid down in 1872, so to adjust the educational machinery of the province as to secure, if possible, even better and more uniform results.

5. Before the changes introduced by Sir George Campbell, the control of education in schools of every class lay in the hands of the Director of Public Instruction, working through his Circle Inspectors and Deputy Inspectors. The only exception to this was the zillah school of each district, in respect of which a Local Committee held certain limited powers. The relation of the District Magistrate to the schools of his jurisdiction varied entirely with his personal inclinations. He had no direct educational responsibilities, and no educational correspondence to conduct. By the Resolution of the 30th September 1872 the entire control of primary education was made over to the District Magistrate, and the chief authority over education of the higher kinds throughout each district (including the award of scholarships) was also transferred from the management of the professional officers of the Department to that of a District Committee, of which the Magistrate was *ex-officio* Vice-President. The Deputy Inspectors of Schools were placed directly under the Magistrate's orders, while the Inspectors were relieved of nearly all their administrative functions, and were directed to look upon themselves as merely the chief advisers of the Commissioners and (if required) of the Magistrates in all educational matters. A general power of supervision was no doubt given to the Inspectors. They were at liberty, and indeed were required, to inspect schools of all classes, and they were specially to see that the local authorities conformed to the rules and policy of Government; but they were at the same time so burdened with formal duties in connection with audit and account, that they had insufficient leisure for inspection, while they very soon found themselves seriously hampered by the anomalous character of their new relations to their own professional subordinates.

6. The District Committees were originally entrusted under this scheme with three main functions—(*a*) the management of the grant-in-aid assignment; (*b*) the management of the district Government schools, subject to certain limitations in their power of making appointments; and (*c*) the distribution and award of primary, vernacular, and minor scholarships. In respect of the first of these duties, it was soon found that the Committees had not sufficient technical

knowledge to guide their operations, and the initiative reverted naturally to the hands of the Inspector, who now settles in the first instance, as regards each school, the details of establishment and the amount of grant to be given it, his proposals being generally accepted by the Committees. The accounts of aided schools have all along been submitted to the Inspector, who can suspend or retrench any grant for breach of rule. Similarly, in respect of the Government schools, much power has passed from the hands of the Committees back to those of the Inspector; while in the distribution and award of scholarships, changes have been made which give the Inspector practically a deciding voice in this important matter.

7. It is chiefly in their relations with their professional subordinates that the position of the Inspectors is still open to doubt. The Government orders of 1872 placed the Deputy Inspector under two, or rather three, masters—the Magistrate, the District Committee, and his departmental superior. He was to consider himself as under the orders of the Magistrate, but was to be "strictly supervised" by the Inspector. In any aided school placed by the Commissioner under departmental control, the Deputy Inspector was subject to the Inspector's orders, but in all others he was under the Magistrate or the District Committee. He was to accompany the Inspector on tour, but was at the same time to be at the Magistrate's disposal. The Inspector had to criticise and check his diaries, but the Magistrate could absolve him from the Inspector's censure. The good sense of the Magistrates and Inspectors has no doubt enabled them in most cases to work harmoniously under these somewhat conflicting provisions; but there have been instances where serious inconvenience has arisen. The position of the Sub-Inspector was as anomalous as that of the Deputy Inspector, with this added difficulty, that he had two more masters to serve—the Deputy Inspector himself and the Sub-Divisional Officer.

8. The Lieutenant-Governor proposes now to settle more definitely the relative positions and duties of all the various authorities whose duty it is to control the educational operations of the State.

9. There can be no doubt that by far the most important part of an Inspector's duty is that of visiting and examining the schools in his jurisdiction. All other considerations must be subordinated to this. His time should be chiefly spent in travelling about, and personally supervising and aiding the progress of education, and not in examining accounts and passing bills at his headquarters. The Lieutenant-Governor has therefore determined to relieve the Inspectors entirely of the duty of auditing the bills and accounts of the schools under their control, and to transfer this work to a central department of audit, to be attached to the office of the Director of Public Instruction. The Director has at present a very insufficient control over the expenditure of his department. His information is often months in arrear of the actual facts, and it is on financial grounds alone very desirable to establish a stronger central control over educational expenditure. The actual administration of the district grants for primary education must remain with the District Magistrates; but all duties of audit now imposed on the Inspectors will be transferred to the Director's office.

10. The Lieutenant-Governor hopes that this change can be effected without involving any considerable increase of expenditure. It is possible that some reduction may be made in the present staff of audit clerks and accountants, and it also appears to the Lieutenant-Governor that a reduction may well be made in the expenditure for educational clerks in the offices of the Commissioners of Divisions. It will be necessary to give the Director an assistant, who will be gazetted as having special charge of this branch of his office, and who will be authorized to pass and sign all necessary audits.

11. It has been suggested that, even though relieved of all other account work, the Inspector should still audit the travelling bills of the Deputy Inspectors. The Lieutenant-Governor would be glad to know what the views of Commissioners and Officers of the Department may be on this point. It is maintained that this audit by Inspectors is really necessary, in order that they may keep a proper and prompt check upon the movements and tours of their subordinates. It should be considered whether this check cannot be equally well maintained by inspection of the Deputy and Sub-Inspector's diaries.

12. Having relieved the Inspectors of the bulk of their present routine work, the Lieutenant-Governor next proposes to re-distribute their circles, and increase their number, so as to give to each a more manageable area. At present the circles are arranged as follows :—

	Government and Aided schools.	Patshalas.	Area in square miles.
(1) *Presidency Circle.*			
Presidency Division, excluding Calcutta ...	578	2,111	12,445
Chota Nagpore	64	713	28,482
	642	2,824	40,927
(2) *Western Circle.*			
Burdwan Division	462	3,568	12,719
(3) *Eastern Circle.*			
Dacca Division	457	1,242	18,279
Chittagong Division	64	332	10,937
	521	1,574	29,216
(4) *Rajshahye Circle.*			
Rajshahye and Cooch Behar Division ...	220	1,365	17,443
(5) *Behar Circle.*			
Patna Division	149	1,969	23,782
Bhagulpore Division	94	1,084	20,497
	243	3,053	44,229
(6) *Orissa Circle.*			
Orissa, excluding Tributary Mehals ...	73	789	7,717

It is obvious that the work of these circles is of very unequal importance and difficulty. The Presidency Circle, with Chota Nagpore, covers an area to which no single Inspector can do justice in addition to his work in connection with the numerous and important schools in Calcutta which are all under the Presidency Inspector. The Eastern and Behar Circles are also far too large for efficient supervision by a single officer.

13. The Lieutenant-Governor proposes therefore to create a new grade of Inspectors on a salary of Rs. 400 a month, and he would appoint such Inspectors to Orissa, Chota Nagpore, Bhagulpore, and Chittagong. These Inspectors would as a rule be Natives. Excellent men for the work can, it is believed, be had on the salary proposed. These Inspectors might either have independent charge, or be placed under the supervision of existing Inspectors, and be called Assistant or Joint-Inspectors. The sanction of the Government of India will be asked to this proposal.

14. In determining the relations which should now subsist between the Inspectors thus set free for their proper work and the various local authorities, the Lieutenant-Governor desires still to maintain that close connection between the Educational Department and the general administration of the country which it was the object of the Government in 1872 to bring about. Not only is it the case that there are some educational interests which can be better looked after by local officers than by the Inspectors, but it is well that the officers of the general civil administration, and the professional members of the Education Department, should feel that they are all working together for the common benefit of the country.

15. The management of primary schools, therefore, must remain in the hands of the Magistrate. The Director, however, must be recognised as holding

the same position in respect to primary education that he now holds in other branches of the educational system. The apportionment of the primary grant to the sub-divisions of the district, the appointment, transfer, and removal of gurus and the regulation of their rates of pay, are all matters best settled by the Magistrate; and in such matters it is desirable that the Magistrate should consult with the District Committee, though the ultimate decision will, as at present, rest with him. In regard to primary education, the Inspector's chief function will still be to observe and advise. He will inspect the pathsalas in the course of his tour, inquire carefully into their working, and advise the Magistrate on points that call for notice or correction, and on the principles which appear to him most suited to the circumstances of particular districts and tracts.

16. If the Magistrate differs from or neglects to attend to the Inspector's suggestions, the Inspector will refer the question to the Commissioner, and if the Commissioner agrees with the Inspector, their view must prevail. If the Commissioner and Inspector disagree, the former will refer the matter to Government through the Director. If, however, the Director concur with the Commissioner, no reference to Government will be necessary.

17. As regards the relations of the Inspector to the District Committee the Lieutenant-Governor would, in respect of aided schools, maintain the practice which has grown up as described in paragraph 5 above. The Inspector will deal with applications for grants in-aid in the first instance, and will propose the establishment and amount of grant. The District Committee will be at liberty to suggest any modifications, and if the Inspector declines to accept them, reference will be made by the Inspector to the Commissioner, and, if necessary, to the Director and Government, in the manner described in paragraph 16. No grant should be withdrawn by the Committee without the full concurrence of the Inspector; but the Inspector will have power to suspend any grant, and to propose its withdrawal, for the consideration of the Committee, differences of opinion being settled by reference to the Commissioner and the higher authorities in the manner already described.

18. The general management of the zillah and Government vernacular schools will continue to be vested in the District Committee. In all matters relating to the expenditure of money from surplus balances for building or other purposes, to the settlement of the establishment in its lower grades, to the grant of leave to masters, and their punishment or dismissal, the initiative will rest with the Committee. All appointments on salaries below Rs. 50 may continue to be made by them, subject, however, to the Inspector's confirmation; but the Lieutenant-Governor has determined that appointments to salaries of Rs. 50 and upwards must rest absolutely with the Inspector, who alone has the best means of knowing where to find suitable candidates. For the transfer of a model vernacular school the sanction of the Inspector and Director will be necessary.

19. The District Committee will be entirely relieved of the control of normal schools. They may act as visitors of these institutions, but it is absolutely necessary that the management should rest in professional hands. The Lieutenant-Governor hopes that the question of normal schools will be taken up by the Director and placed on a sound basis as soon as possible in the manner indicated in Sir Richard Temple's Minute of the 9th September 1875, and subsequent correspondence. The first grade schools must be maintained as places for the training of teachers, while the policy of dispensing with the schools of the second and third grades as soon as practicable must not be lost sight of. It is not the intention of Government to continue the present grant of Rs. 85,000 for normal schools, and every opportunity must be taken of reducing the expenditure on second and third grade schools, in view of their being closed as soon as the middle and intermediate schools of the districts are in a state to supply teachers for the primary schools, or as soon as the existing gurus of the old class have been either trained or got rid of.

20. In the award of scholarships no change is necessary. The award of primary scholarships rests with the District Committee, but must conform generally to the results of the local examinations. The Inspector examines for middle and intermediate scholarships, and the award, though nominally made by the District Committee, is really determined by the marks given in

the examination. The Committee and the Inspector are empowered to award in consultation some of the district scholarships (up to one-third of the whole) to pupils coming from schools in backward tracts.

21. It is believed that the relations of Inspectors to Commissioners call for no fresh definition. The Commissioner must be kept fully informed of the educational progress of his division, and given every opportunity of taking an active share in it. General proposals which the Inspector wishes to lay before all Magistrates and Committees should go through the Commissioner. In the same way the Commissioner should consult the Inspector on any general schemes or proposals of his own. Differences of opinion must be settled as indicated in paragraph 16. The number of junior scholarships to be allotted to each district annually will be settled by the Commissioner in consultation with the Inspector.

22. It will be necessary for the Inspector to make the Commissioner the medium of communication with the Director on all matters of general interest that concern the general administration of the division (*e. g.*, the re-distribution of district allotments, or the provision of normal schools or technical instruction), as well as on questions regarding the primary grant, or arising out of the action of District Committees. But matters affecting individual persons, schools, or grants-in-aid, and the interpretation of the technical rules of the Department, may be referred to the Director immediately. The Inspector will also refer to the Director as at present such local questions as he cannot settle authoritatively himself under the rules in force. He will submit in this way recommendations for the appointment and promotion of Deputy Inspectors and Sub-Inspectors, and of zillah school teachers drawing Rs. 100 and upwards; also all changes in the establishment of zillah schools, or in the establishment, course of study, and stipend allowance of normal schools, and in the locality of model or Government vernacular schools. He will submit also to the Director all applications for new grants-in-aid, or for the renewal, revision, or transfer of existing grants. The Director alone can finally cancel any existing grant. The Director will on his part correspond with District Committees through the Inspector, only circulars or general orders being sent them direct.

23. The re-adjustment of the position of the Inspectors with reference to primary education will enable them to bring under the notice of the Director all matters of consequence in connection with that important question; and as the Inspector's annual report will be submitted to the Director through the Commissioner, the Director will be able to advise Government usefully upon every department of popular education.

24. Returning to the district officials, the Deputy Inspector must still remain subordinate both to the Magistrate and District Committee and to the Inspector; but it will prevent any conflict of authority if the Inspector recognizes that the Magistrate, as the representative of the Director in respect to primary education in the district, has the first claim on his services. The Deputy Inspector will submit his diaries to the Inspector through the Magistrate. The bills and accounts of all kinds which he at present submits to the Inspector, he will, under the Magistrate's orders, forward to the Director's office of audit. The accounts of primary schools will be passed by the Deputy Inspector under the Magistrate's orders. The Director will decide what abstracts shall be furnished to the Inspector to keep him aware of the existing allotments of the primary grant.

25. Deputy Inspectors can be appointed and dismissed only by Government. They may be fined or suspended by the Inspector either on the report of the Magistrate, or of his own motion; but promotion and degradation will rest with the Director, to whom also all fines and suspensions will be reported.

26. The position of the Sub-Inspector varies according to the nature of the duties assigned to him. He sometimes has the supervision of primary schools only, and in that case he has not much to do with any authority save the Deputy Inspector and the Magistrate; in other cases he has the supervision, under the Deputy Inspector, of all the schools in his sub-division. In either case the Inspector and Deputy Inspector, when visiting the sub-division, must be at liberty to require his attendance; but in their absence the Sub-Divisional Officer must be regarded as the Sub-Inspector's immediate superior. Any

representations of the Sub-Inspector must be made through the Sub-Divisional Officer, who will forward also his communications intended for the Deputy Inspector. Deputy Inspectors must not take Sub-Inspectors away from their sub-divisions without the Sub-Divisional Officer's permission.

27. Sub-Inspectors may be transferred within the limits of the division by Commissioners on the advice of the Inspector. The Magistrate may fine or suspend any Sub-Inspector within his district, reporting the fact to the Inspector, and may transfer him within the district with the Inspector's concurrence; but the appointment, promotion, or degradation of a Sub-Inspector will rest with the Director alone.

28. The clerk of the District Committee must in all districts be treated as the clerk of the Deputy Inspector's office, and assist in conducting that officer's correspondence; but the Deputy Inspector should on no account take him away on tour.

29. The Lieutenant-Governor believes that the arrangements here sketched out will have the effect of securing uniformity of system and continuity of policy in the working of the Educational Department, and that, without sacrificing any of the real merits of the reforms of 1872, they will utilise more thoroughly the services of that expensive professional agency which has already done so much for education in Bengal, and whose special experience and training it is most desirable to recognize and employ.

30. It will be the duty of the Director hereafter to draw up any formal rules necessary to give effect to this scheme, and to settle any details subject to the approval of Government. Meantime the Lieutenant-Governor directs that, before any changes are actually made, this Resolution be circulated for the information and consideration of Commissioners, Magistrates, and Circle Inspectors. They are requested to submit their opinions with reference to it to the Director, who will abstract and analyse them, and report the result with his own remarks for the final orders of Government.

By order of the Lieutenant-Governor of Bengal,

A. MACKENZIE,

Offg. Secy. to the Govt. of Bengal.

LIBERALITY OF THE MAHARANEE OF TIKAREE.

No. 2096, dated Calcutta, the 24th July 1877.

From—A. MACKENZIE, Esq., Offg. Secretary to the Govt. of Bengal, General Dept.,
To—The Commissioner of the Patna Division.

WITH reference to your letter No. 242J, dated 17th July 1877, with enclosures, I am directed to say that the Lieutenant-Governor has learnt with much satisfaction that the Maharanee of Tikaree, in addition to her previous munificient gift of Rs. 30,000, designed to raise the status of the Tikaree school, has now further promised a grant of Rs. 200 per annum for prizes and scholarships to be awarded to those students who acquit themselves with most credit at the annual examinations of the school. I am to request that you will convey to the Maharanee the thanks of Government.

2. The papers on the subject will be published in the next issue of the *Calcutta Gazette*.

No. 242J, dated Bankipore, the 17th July 1877.

From—E. W. MOLONY, Esq., Commissioner of the Patna Division,
To—The Secretary to the Government of Bengal, Judicial Department.

I HAVE the honor to forward copy of the enclosed communication, No. 928 of the 1st instant, from the Inspector of Schools, relative to a further gift of Rs. 200 per annum promised by the Maharanee of Tikaree to the higher class English school lately established at that place through her munificence, as also a copy of my letter No. 419J of the 13th, to the Maharanee, acknowledging the same. In doing so, I beg to recommend that this fresh act of liberality on the part of the Maharanee may receive such further acknowledgment at the hands of Government as may appear fit to His Honor the Lieutenant-Governor.

No. 928, dated Bankipore, the 1st July 1877.

From—BABOO BHOODEB MOOKERJEE, Inspector of Schools, Behar Circle,
To—The Commissioner of the Patna Division.

I HAVE the honor to inform you that Maharanee Raj Roop Kuar of Tikaree, who founded not long ago the higher class English school at Tikaree on a munificent donation of Rs. 30,000, lately offered to pay Rs. 200 per annum to be spent by the Managing Committee of that school in consultation with the Inspector in the manner best calculated to benefit her school and the cause of education in her district—Gya.

2. The Managing Committee of the Tikaree school have now, in consultation with myself, determined to award two silver medals of the value of Rs. 30 and Rs. 20 respectively, the first to the best student who passes successfully the Entrance Examination from the Tikaree school, and the second to the student who does best at the annual examination of the school from the second or preparatory class. On the remaining sum of Rs. 150 it has been determined to found three scholarships of Rs. 2 in value each, tenable for two years, at the Tikaree school. The scholarships are to be awarded by the Inspector to the three best candidates for minor scholarships of the Gyá district who fail to take up the Government scholarships.

3. In bringing to your notice these instances of enlightened liberality in the cause of education on the part of the Maharanee, I beg to recommend that they meet such acknowledgment as they may seem to you to deserve.

No. 419J, dated Bankipore, the 13th July 1877.

From—E. W. MOLONY, Esq, Commissioner of the Patna Division,
To—The Maharanee of Tikaree.

THE Inspector of Schools has brought to my notice the warm and enlightened interest which you are continuing to evince in the cause of education by offering a further grant of Rs. 200 per annum to be spent in prizes and scholarships to be awarded to such of the students of the higher class school lately established at Tikaree through your munificence as may best acquit themselves at the annual examination. The arrangements thus made has my full approval, and I beg to convey to you my best thanks for your liberality.

Rainfall, Weather, and State and Prospects of the Crops.

Statement showing Rainfall, Weather, and State and Prospects of the Crops in the different District of Bengal, as reported to Government during the week ending the 21st July 1877.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
	BENGAL.		
	Western Districts.		
BURDWAN DIVN. 1	Burdwan, July 23* '77	3·73	The rainfall at Culna has been 1·82 inches, at Cutwa ·75 of an inch, at Bood-Bood 1·11 inches, at Jehanabad 3·44 inches, and at Raneegunge 3 51 inches. The transplantation of *amun* seedlings was retarded for want of sufficient rain, and owing to this and to continued export the price of rice is still rising.
2	Bankoora, „ 21 „	3·19	General rain has fallen. It was heavy towards the end of the week. Transplantation is being carried on with vigour. Prospects are good. Indigo manufacture has commenced.
3	Beerbhoom, „ 21 „	3·68	Weather—Fair at the beginning of the week; plentiful rain at the end of it. The crops that were backward have now recovered, and the prospects are good.
4	Midnapore, „ 21 „	·30	The sun has scarcely been visible during the week, but the showers have not been frequent or heavy. The weather is generally considered favourable. *Aous* rice is very promising; *amun* rice is also doing well. The indigo crop is reported to be a little deteriorated.
5	Hooghly, „ 21 „	2·59	Weather—Warm and sultry in the first part of the week, cloudy in the latter part. Heavy rain since Friday night. The transplantation of late rice is going on. All the crops on the ground are doing well. The reaping of indigo has commenced. Public health is normal. Cattle disease prevails in two villages in thana Bullagur.
	Howrah, „ 21 „	1·90	Rain throughout the district. Transplantation of late rice has commenced.
	Central Districts.		
PRESIDENCY DIVN. 6	24-Pergunnahs, July 23† '77	5·19	Weather—Rainy and cloud. The transplantation of *amun* rice is going on. Public health is generally good
7	Nuddea, „ 21 „	5·41	Little rain in the early part of the week; it was rather heavy towards the end. The rice crops are most promising, and the weather has been all that could be desired for them. The outturn of indigo is not likely to be more than moderate. The prices of food-grains are rising.
8	Jessore, „ 21 „	·77	Weather—Bright in the first part of the week; cloudy and rainy in the last part. State and prospects of the crops are favourable, but more rain is wanted.
9	Moorshedabad, „ 21 „	1·84	Weather—Close and cloudy. The rain has still been far from sufficient for *amun* rice in the north and west of the district. But the prospects in the eastern part are good.
RAJSHAHYE AND COOCH BEHAR DIVN. 10	Dinagepore, „ 20 „	2·99	Rain commenced on the evening of the 17th instant; 1·56 inches registered at Roygunge. No harm has been done by its holding off so long. State and prospects of the crops are all good.
11	Rajshahye, „ 21 „	·68	There has been slight rain in all parts of the district in the middle of the week. The fall in Nattore was more than in Beauleah. The prospects of the autumn and winter rice crops are good, but in parts of the district the *dhan* which was grown in the low lands has been submerged on account of the late heavy rain, though it is believed that not much damage has ensued. The transplantation of *ropa dhan* has now commenced, and more rain is required for it. Jute is being reaped in parts of the district.
12	Rungpore, „ 20 „	1·02	Weather—Hot and sultry during the first half of the week; but since the heavy showers on the night of the 17th instant the weather has cooled down. The sky during the last two days has been dark and gloomy with slight drizzling rain. 4·51 inches registered at Kurigram and 2·59 inches at Gaibanda. The state and prospects of the crops are favourable. The recent rain has been of much service for the transplantation of *amun* seedlings, which previously had been delayed for want of rain.
13	Bogra, „ 21 „	2·06	Weather—Cloudy. *Aous* rice, jute, and sessamum, are being cut, and will probably yield a good outturn.
14	Pubna, „ 21 „	·86	Weather—Seasonable; cloudy and showery. State and prospects of the crops are favourable. Cholera has entirely disappeared, but fever is rather prevalent.

* Telegram of the 23rd July shows rainfall during the seven days immediately preceding.

BENGAL.—(*Continued.*)				
		Central Districts.		
Rajshahye and Cooch Behar Divn.	15	Darjeeling, July 20 '77	14·75	The rainfall has been very considerable during the week. It was especially heavy on the 15th instant, and on the night of the 18th. The rice crops throughout the district are doing well. Some apprehensions were felt from the want of rain during the previous week, but it has been raining both in the plains and hills ever since the 14th.
	16	Julpigoree, „ 21 „	13·34	Very heavy rain has fallen, causing a rapid and at one time alarming rise in the river Teesta. The water is now slowly subsiding. The temperature is much cooler, being 5 or 6 degrees below the average. The reports from all thanas are favourable. The late rain has facilitated the transplanting of *haimanti* rice. *Bhadoi* crop is being reaped all over the district. The prospects of jute and sugarcane are good.
		Cooch Behar, „ 19 „	3·90	The first six days of the week were very hot, with little or no rain. A heavy fall of rain on the 18th instant, succeeded by cloudy and windy weather, has quite changed the climate and the temperature for the time being. The weather looks like more rain ·55 of an inch of rainfall reported from Dinhatta, ·30 of an inch from Mathabhanga, and ·17 of an inch from Mekligunge. The rain of the 18th, succeeded by another fall since, has made matters look much brighter. If the rain continue in proportion all fears of general failure will be removed. *Bitri dhan* will not however be a good crop, nor can it be expected that *amun dhan* will be more than an average crop. There are general complaints that the *bitri*, which is being reaped, is light in the ear, although yielding an abundance of straw. The prospects towards the south of the state in the Dinhatta sub-division seem to be better than elsewhere. Cattle disease has made its appearance, and is spreading. The public health is good.
		Eastern Districts.		
Dacca Divn.	17	Dacca, July 23*'77	10·02	There has been rain every day during the week. The crops are favourable, and the prices are lower. The rain will do much good to the highland jute.
	18	Furreedpore, „ 21 „	·70	Weather—Seasonable; occasionally very sultry between the showers 2·63 inches of rain registered at Madaripore. The prospects of the rice, sugarcane, and jute crops, are favourable.
	19	Backergunge, „ 19 „	4·12	Weather—Rainy and on the whole favourable to agricultural operations. The ploughing for *amun* is progressing briskly even in the tracts devastated by the storm-waves of the 31st October last. The prospects of *aous* still continue to be favourable. The district generally is healthier than it has been this year, and cholera even in a sporadic form has disappeared. The general health of the cattle is good.
	20	Mymensingh, „ 20 „	4·74	Weather—Rainy. State and prospects of the crops are fair, but more rain is wanted.
	21	Tipperah, „ 20 „	7·41	A good quantity of rain has fallen all over the district except in the north. 1·10 inches registered at Brahmunbariah. The rice crops are in good condition except in the north of the district, where more rain is wanted.
Chittagong Divn.	22	Chittagong, ...	.....	Return not received.
	23	Noakholly, ...	.....	Return not received.
	24	Chittagong Hill Tracts, „ 17 „	4·61	Weather—Seasonable. Paddy is in flower in some *jooms*. Cotton plants are thriving well. Prospects are fair. Owing to the scarcity of food prevailing here many hillmen have not been able to cut *joom* because they had to search for yams and roots for their subsistence. Land is being prepared for the late rice crop.
		Hill Tipperah, „ 18 „	2·14	Heavy and continuous rainfall, which was apparently general. Late rice is being rapidly transplanted. The weather has been also favourable for *jooming* in the hills.
BEHAR.				
Patna Divn.	25	Patna, July 23*'77	3·12	Weather—Hot and close, with occasional fall of rain, which has enabled the cultivators to prepare land for *bhadoi* sowings. Much more rain is however wanted. Health of the district is generally good.
	26	Gya, „ 21 „	1·18	Weather—Cloudy, and cool winds prevailed from the south and west. The thermometre reached 98·6° in the shade. 2·02 inches of rain registered at Jehanabad, ·22 of an inch at Aurungabad, and ·2 of an inch at Nowada. Unless there be good general rain in a week, the prospects will be decidedly bad. Rain is wanted by all crops, and in order to kill off the grasshoppers, which are still doing much damage. Second growings are being made in places where these insects had destroyed the plants. The reports from thanas Nabbinaggur and Aurungabad especially are unfavourable.
	27	Shahabad, „ 21 „	·80	Weather—Cloudy and hot. The ·80 of an inch of rainfall at the Sudder Station represents the light showers on Thursday and Friday. Similar rain is reported from Buxar on the 12th, 13th, 14th, and 17th instant, amounting to a total fall of 1·04 inches. Rain is still wanted. Flights of locusts and insects have done some injury to the sugarcane crop in places.

* Telegrams of the 23rd July show rainfall during the seven days immediately preceding.

	No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BEHAR.—(*Continued.*)				
Patna Divn.	28	Durbhunga, July 21 '77	8·55	The unsatisfactory prospects with which the week began have ceased with the heavy rain, which has fallen all over the district. The rain (8¼ inches at head-quarters) has been nearest in the centre and south of the district, where it was most wanted For indigo indeed it comes somewhat late; but for the *bhadoi* and *aghani* food crops it has come most opportunely. The downpour has not only relieved these crops, but has checked sickness, reducing cholera to a minimum. At present therefore the outlook is satisfactory.
	29	Mozufferpore, ,, 21 ,,	3·14	Weather—Cool and cloudy. During the latter half of the week good rain has fallen throughout the Mozufferpore sub-division, varying from 2 to 3 inches. The rice seedlings are being transplanted vigorously, and the empty *bhadoi* lands are being sown or re-sown. Another such fall of rain within a few days is required. At Hajeepore 1·34 inches of rain have fallen, and the prospects of all crops are good. At Seetamurhee the fall has been 4·12 inches, and in thana Poopree, where rain was especially wanted, 4·50 inches. Transplantation is going on very actively. In the north-west some damage has been done to indigo and maize by locusts.
	30	Sarun, ,, 21 ,,	1·57	Weather—Close and cloudy, with very heavy atmosphere. There have been one or two sharp showers, but heavier rain is hoped for. 1·09 inches of rain registered at Sewan, and there has been some in most other parts of the district, but heavy rain is wanted everywhere, and the crops are suffering from the delay. The transplantation of *aghani* rice is at a standstill, and the seedlings in the nurseries are looking sickly.
	31	Chumparun, ,, 21 ,,	·53*	West winds prevailed during the greater part of the week. Heavy rain has fallen since the 18th instant throughout the district. Should it continue the prospects will be very good. The rain has been of the greatest benefit. Cholera is abating.
Bhagulpore Divn.	32	Monghyr, ,, 21 ,,	4·46	Weather—Rain now prevailing, but only for the last three days. ·75 of an inch registered at Jamui. Ploughing has commenced, and there is now no fear at all for the crops.
	33	Bhagulpore, ,, 23† ,,	8·50	Weather—Seasonable. In all the sub-divisions the rainfall has been sufficient, and the prospects of the crops are good, except in pergunnah Naradigur, in the Soopole sub-division, where the *bhadoi* crop is said to be permanently injured, and but little *aghani* is yet established.
	34	Purneah, ,, 21 ,,	5 69	Weather—Seasonable for the last three days. There was heavy rain on Thursday, which has enabled the villagers to plant out the late rice. 4·65 inches registered at Arrareah, and 2 95 inches at Kissengunge. The rivers are rising. The early *bhadoi* crop has been damaged by want of rain.
	35	Maldah, ,, 21 ,,	2·19	Moderate rain has fallen in almost every part of the district. The broadcast *dhan* in the western half of the district has been well weeded, looks very well, and unless destroyed by very sudden inundation, will do well. For the *rope dhan* on the higher land to the north-east of the district very heavy rain is required before the 10th of August.
	36	Sonthal Perghs. ,, 22 ,,	4·14	The rainfall of the week has been general over the district. 3·11 inches registered at Deoghur, 2·60 inches at Godda, and 3·6 inches at Rajmehal. State and prospects of the crops are good. The *janera* crop has been favoured by the late warm and bright weather. The rice planting has been saved by the rain of the last few days.
ORISSA.				
Orissa Divn.	37	Cuttack, July 21 '77	·18	Weather—Clear and hot; now and then cloudy and stormy with slight rain. An extraordinary high flood in the Bytarni and Brahminy rivers on the 13th and 15th instant has breached several bunds, canal embankments, and the Trunk Road, causing much damage. The crops in some parts of the Kendrapara and Jajpore sub-divisions were submerged, but no permanent loss is anticipated. The crops in the other parts of the district are in good condition, but rain is required. Public health is fairly good. Only a few cases of cholera are being reported.
	38	Pooree	.....	Return not received.
	39	Balasore, ,, 20 ,,	4·06	At head-quarters the heavy rain ceased on the 13th instant, and there has been very little since. The Burabulang river has returned to its natural bed. The Bytarni and Salandi rivers rose very high on the 13th and 14th. The flood in the former was unprecedented since 1868, and has done much damage to the embankments, the Trunk Road, and the high level canal, all of which are reported to be breached in many places. The crops are too young to suffer from temporary inundation, and their condition is very promising. Public health is good.

* 4·22 inches of rain up to noon of Tuesday.

† Telegram of the 23rd July shows rainfall during the seven days immediately preceding.

No.	District, and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
CHOTA NAGPORE.			
	South-West Frontier Agency.		
40	Hazareebagh, July 20 '77	3·21	Weather—Unseasonable; variable with alternate sunshine and wet, the former predominating. The prospects have improved by the rainfall of the week, but much more rain is required to fill the terraced field and enable the ryots to plant out their rice. The sowings in general are all backward.
41	Lohardugga, „ 21 „	1·84	Weather—Seasonable in the head-quarters sub-division, and the prospects of the crops are good. It is reported from the Palamow sub-division that good rain fell there on the 11th, 12th, and 13th instant, measuring 3·06 inches. Since then the weather is hot, clear, and dry with strong south-westerly wind. The highland crops are promising, *Makai*, *murwa*, *kado*, and *goondli* are all sown. *Dhan* is also sown, but the seedlings are now being parched up again. *Lewa* has been made, but the drying wind and scorching sun are drying it 'all up again. The *dhan* prospects are therefore not favourable. Health of the district is good.
42	Singbhoom. „ 20 „	3·00	Weather—Seasonable. The prospects of the crops could not possibly be better. The district is healthy.
43	Manbhoom. „ 21 „	2·32	Weather—Seasonable. On the 18th instant it was reported from Govindpore that rain was wanted there, but it must have fallen by this time. State and prospects of the crops are very promising.

NOTE.

Barometric Pressure.—The pressures in column 2 of the above table for all stations below 500 feet are reduced from those given in column 3 of the table on the previous page, by adding the weight of a column of air of the temperatures given in column 17. For stations above 500 feet elevation the reduction is made by Captain Allan Cunningham's table,—"Prof. papers on Indian Engineering, No. CXIII." The temperatures at the sea-level are taken from column 3 of the above table.

Temperature.—The temperatures in column 3 are reduced from those in column 17 on the preceding page, by adding 1° Fahrenheit for every 450 feet.

Wind Resultant.—The resultant wind direction and its comparative predominance are calculated from the whole number of wind observations recorded during the month. The relative predominance in the direction of the result is given as a percentage of the whole number of observations. The direction is computed in the usual way by Lambert's formula.

Clouds.—This column gives the average proportion of clouded sky, a cloudless sky being indicated by 0, and one completely overcast by 10.

The above being all comparable, afford the data for constructing a meteorological chart for the month which shall show the isobaric and isothermal lines and the resultant wind directions, which last may be represented by arrows of varying length, proportioned to the prevalence of the wind. To these may be added the rainfall from the previous tables.

The mean pressure, temperature, &c, are deduced from observations made at 6h., 10h., 16h., and 22h.; the maximum and minimum temperatures from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard (Newman's No. 86) at the Surveyor-General's Office.

The hygrometric elements are obtained from tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modification of August's formula.

The direction and movement of the wind are taken from the trace of Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

METEOROLOGICAL OFFICE, INDIA, the 22nd July 1877.

Reports of Fluctuations of Traffic on the East Indian Railway for the Month of June 1877.

EAST INDIAN RAILWAY, TRAFFIC MANAGER'S OFFICE, JUMALPORE, THE 14TH JULY 1877.

Remarks on Traffic of East Indian Railway for five weeks ending 30th June 1877.

The approximate figures for the period are as follows :—

	Coaching.		Goods		Total.
	Mds.	Rs.	Mds.	Rs.	Rs.
1877	6,81,760	7,34,623	60,33,831	30,47,453	37,82,076
1876	6,07,296	6,48,761	49,03,276	21,01,617	27,50,378
Increase	74,464	85,862	17,30,555	9,45,836	10,31,698
Decrease	.....	.....	.....	.....	.....

In merchandise traffic the principal changes are in—

Increases.		*Decreases.*
Coal.	Piece-goods.	Cotton.
Grain.	Sugar.	For railway material.
Gunny.	Tea.	Seeds.
Iron.	Tobacco.	
Other materials.		

Increases.	Mds.		Rs.	
Coal—Up	1,28,765		47,816	
Down	2,67,880		40,925	
This brings the increase in the public coal traffic during the half-year up to about—	Tons.			
Upward coal	21,000		1,60,000	
Downward coal	26,000		1,10,000	
	47,000			2,70,000

the weight of coal lifted in the half-year having averaged about 1,750 tons a day.

	Mds.		Rs.	
Grain	12,22,212		6,72,882	
Made up as under—				
Wheat	9,06,630		5,87,631	
Rice	31,293		14,375	
Other cereals	1,48,558		38,233	
Pulses	1,35,731		32,643	
	12,22,212			6,72,882

The increase in these staples during the half-year may now be approximately stated as under—

	Tons.	Rs.
Wheat	1,03,000	18,80,000
Rice	48,000	1,85,000
Other cereals	52,000	2,90,000
Pulses	18,000	1,30,000

making up an increase in weight lifted in this one staple of food-grains of about two hundred and twenty thousand tons, with an increase in earnings on our main line alone of about a quarter of a million sterling, of which wheat contributes three-fourths.

	Mds.	Rs.
Gunny	24,544	25,406

This is in new gunny sent up from Howrah for packing produce for shipment.

Iron	36,510	40,436

There has been a largely increased demand for iron for manufacturing purposes in the up-country marts this year. Including the above-noted figures, the increase for the half-year will not be less than 4,500 tons, or some 40 per cent. over 1876.

	Mds.	Rs.	
Other materials—Brass	3,820	2,720	
Copper	4,530	5,935	
Spelter	3,463	6,240	
	11,813		14,895

These, though not separately increases of any great amount, betoken a healthy state of trade.

Piece-goods ... ... Mds. 89,018 Rs. 93,530

There has been a very considerable demand in the up-country markets during the month; and this large increase brings up the total for the half-year above that for the corresponding period of 1876.

Sugar ... ... Mds. 46,827 Rs. 10,371

This is a considerable increase, and would have been much larger if we could have found wagons for it, and have dealt with it at Howrah.

The increase in the sugar traffic for the half-year has however been about 3,000 tons in spite of all difficulties.

Tea ... ... Mds. 3,667 Rs. 4,326

The Darjeeling tea has been coming into the market somewhat early this year.

Tobacco ... ... Mds. 31,967 Rs. 19,057

This traffic has also been crippled by the difficulty of finding conveyance for it, but the increase is considerable.

Decreases.

Cotton ... ... Mds. 30,524 Rs. 48,090

There is scarcely any export going on, and the loose cotton traffic has been kept back by the heavy stocks of grain we have had on hand.

The total figures of cotton traffic for the half-year however are slightly in excess of those for 1876.

For railway material ... ... Mds. 27,777 Rs. 2,021

There is very little going up just now, whereas in June 1876 there were heavy despatches for the Tirhoot State Railway. It will be seen that the decrease in *Earnings* has been very small.

Seeds ... ... Mds. 14,966 Rs. 32,301

A good deal of the seed traffic has been kept back by the anxiety of merchants to push wheat forward in consequence of the heavy forward speculations in that staple.

The weight of seeds carried during the half-year however will be found to show the very considerable increase of some 15,000 tons.

Salt and jaggree show an increase in Earnings, together with a decreased weight, as under :—

Salt ... ... Mds. 39,822 Rs. 958

There was an increase in the quantity sent up from Howrah owing to heavy imports bringing rates down, while the traffic from the R. S. Railway *vid* Delhi and Agra has been seriously diminished from want of wagons.

Jaggree ... ... Mds. 28,374. Rs. 3,174

The decrease is mainly in the traffic from Cawnpore and from the O. and R. Railway, where the grain speculations have absorbed attention, while the increase has been in the Behar exports, for which wagons going up-country for grain have been utilised.

The train mileage for the period has been—

The increase in passenger traffic is attributable to the same causes as above remarked on in dealing with main line figures.

In merchandise traffic, it will be seen, the increase is 120 per cent. or more.

This is mainly due to the very heavy traffic in grain and seeds to Bombay and the famine districts.

The following is a statement of grain and seeds sent to Howrah and sent *viâ* Jubbulpore during five weeks ending 30th June 1877.

India—Hindostan—West Coast—Bombay Harbour.

1. POSITION OF RALEIGH ROCK.

THE following information relative to a rock in Bombay Harbour on which Her Majesty's ship *Raleigh* recently touched has been furnished by Captain H. W. Brent, Her Majesty's Flagship *Undaunted* :—

This rock *(Raleigh Rock)* rises abruptly from the general muddy bed of the harbour ; it is about 160 feet long E. S. E. and W. N. W., and 90 feet in width ; the shoalest part has 22½ feet over it at low water ordinary spring tides, but only 20¾ feet at extraordinary low springs. The general level near the rock has a depth of 25 feet over it at the lowest tides.

A *conical* buoy, painted *red*, has been placed on the eastern edge of the rock, with—

Scotch Church steeple in line with Ritchie Steward's cotton press chimney (resembling a monument), bearing ...	N. by W. ½ W.
Dolphin beacon	N. N. W. ¼ W. 4¼ cables.
Oyster Rock Battery (Colaba Observatory just open to the northward)	W. S. W. distant 7 cables.

It is proposed to remove this rock by blasting.

2 ADDITIONAL BEACONS.

Also that the following additional beacons have been erected :—

A circular stone beacon, painted *red* and *white*, on the north and south extremes of Colaba Reef, westward of Dolphin beacon.

A circular stone beacon, painted *red* and *white*, on the shoalest part of Oaran Patch.

A large circular white stone tower on the summit of Thull Knob.

NOTICE TO MARINERS.

(No. 12.)

HINDOSTAN—WEST COAST.

Position of Cochin Light-house, etc.

NOTICE is hereby given that the light exhibited at Cochin is incorrectly placed on the present Admiralty Charts.

The light-house is situated on a raised mound which formed a bastion of the old fort, and bears south-west from the Flagstaff and Cochin Church, distant 5·4 cables from the former and 2·8 cables from the latter.

The shallow water at the entrance to this river has shifted about a cable to the E.S.E.; the mark now for leading vessels over the bar is the central or largest of the three churches at Ernakolum in line with Builder's (Vypeen) Point.

The buoys marking the shoal water have been moved—the north buoy 2 cables and the south buoy nearly 3 cables in the same direction.

Note.—During the south-west monsoon these buoys are removed, as vessels anchor at Narrakel, about 5 miles to the northward of Cochin, at which place a small light is exhibited from the Flagstaff.

Position of light-house—lat. 9° 57′ 47″ N., long. 76° 13′ 45″ E.

NOTIFICATION.

The 26th July 1877.—The following bye-laws, framed by the Municipal Commissioners of Dinagepore at a meeting under Section 313 of Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information:—

For Regulating the Time and Mode of Collecting the Taxes.

1. Every officer authorized to grant receipts shall be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20: provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer, at his discretion, to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die shall, within four hours after its death, or, if death occurs at night, within two hours after daylight, either remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass at such rate as the Commissioners may determine; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass.

Penalty for infringement, Rs. 10.

7. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement, Rs. 10.

For the Regulation and Management of Privies.

8. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed by the Municipal Commissioners.

Penalty for infringement, Rs. 5.

9. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation or any place containing waste and stagnant water, or into any other receptacle.

Penalty for infringement, Rs. 20.

11. NOTIFICATION.

The 28rd July 1877.—The following bye-laws, framed by the Municipal Commissioners of Deoghur, in the Sonthal Pergunnahs, at a meeting, under Section 313 of Act V (B.C.) of 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information:—

For Regulating the Conduct of Business at Meetings.

1. The Office of the Sub-divisional Officer will be the Municipal Office under the provisions of the Act.

For Regulating the Time and Mode of Collecting the Taxes.

2. The receipts to be given under Section 110 to be signed by either the Chairman or the Vice-Chairman.

3. Every collecting officer should be provided with a certificate of his authority to collect, and every such certificate shall bear the seal of the Municipality and the signature of the Chairman. Every collecting officer at the time of demanding payment shall be bound to show this certificate, if required.

4. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in Section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule shall be liable to a penalty not exceeding Rs. 20: Provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

5. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer at his discretion to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons Employed by the Commissioners.

6. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month, unless discharged at once for misconduct; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

7. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required to do so, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

8. Every person within whose premises any animal may die shall, within six hours after its death, or, if death occurs at night, within four hours after daylight, remove at his own expense the carcass to such place as may be set apart by the Commissioners for the reception of such carcasses, or, if he is unable to remove the carcass, he may report the animal's death to the Municipal Secretary or overseer, who shall cause it to be removed at his expense; and in cases where the said person is not the owner of the animal, and the owner is known, the owner shall alone be responsible for the payment of such expense, and such expense shall be recoverable as a debt due to the Commissioners. No overseer, when called upon, shall neglect to remove a carcass. Penalty for infringement not to exceed Rs. 10.

9. No person shall deposit, or cause to be deposited, any carcass, or any part of a carcass, in any place other than such places as may from time to time be appointed by the Commissioners for the reception of such carcass.

Penalty for infringement not to exceed Rs. 10.

For the Regulation and Management of Privies.

10. Every person shall construct his privy above ground, and shall provide his privy with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement after notice not to exceed Rs. 10.

11. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or to be discharged from such privy into any drain, water-course, or excavation, or into any other receptacle but one of the kind described in the next preceding section.

Penalty for infringement not to exceed Rs. 10.

12. No person shall throw, deposit, or discharge any night soil, sewage, or the contents of any drain, privy, or cess-pool into any drain, tank, or water-course, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement not to exceed Rs 10.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle, and between such hours as the Municipal Commissioners may from time to time direct.

Penalty for infringement not to exceed Rs. 5.

14. Every owner or occupier of any house, land, or premises from which offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of any night-soil or filth, within such hours as may have been fixed by the Municipal Commissioners.

Penalty for infringement not to exceed Rs. 5.

15. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within fifteen days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

For Regulating Traffic in the Streets.

16. No owner of any carriage shall allow it to be driven by a driver under fourteen years of age.

Penalty for disobedience on the owner's part not to exceed Rs. 10.

17. Every carriage or cart plying in the streets after one hour after sunset shall carry a light or lights, except when in the opinion of the Magistrate there may be sufficient moonlight to render such lights unnecessary.

Penalty for infringement not to exceed Rs. 5.

For Regulating or Prohibiting the use of Fire-works, Fire-balloons, Fire-arms, or any Missile in or near a Public Street.

18. No person shall let off any fire-balloon, fire-works, fire-arms, or any missile in or near a public street without the consent of the Municipal Commissioners previously obtained.

Penalty for infringement not to exceed Rs. 10.

General Bye-laws.

19. No person shall construct, or place over, or by the side of, any public drain any bridge, platform, building, or structure of any kind, except by, and with the written permission of, the Municipal Commissioners, and in such manner as they shall direct.

Penalty for infringement, Rs. 5; for continued infringement after notice, Re. 1 daily.

20. No person shall put, or cause to be put, on any house or other building any spout or other thing intended for the conveyance and discharge of water which shall be so placed that the water discharged therefrom shall be thrown or fall upon any public road or thoroughfare, and the Commissioners shall have power to take down and alter any such spout now in existence after eight days' notice, and to recover the costs as a debt due to the Commissioners.

Penalty for infringement not to exceed Rs. 5.

21. If any house, wall, or other erection, or any part thereof, fall upon any public highway or into any public drain, the owner of such house, wall, or erection, shall remove it after notice within the time prescribed by the Commissioners.

Penalty for infringement after notice not to exceed Rs. 5; for continued infringement, Rs. 2 daily.

22. No person shall, without the written permission of the Commissioners, set up any obstruction in any nullah or water-course.

Penalty for infringement not to exceed Rs. 5; for continued infringement after notice Re. 1 daily.

23. No person shall let loose, or allow to be loose, any diseased or worn-out animal on any highway, street, or public place whatever.

Penalty for infringement not to exceed Rs. 10.

For Regulating Burial and Burning Grounds.

24. No person shall bury, or cause to be buried, any corpse, or part of a corpse, in any burial ground in a grave constructed of masonry in such manner that the top of the coffin, or the body where no coffin is used, shall be at a less depth than five feet from the surface ground.

Penalty for infringement not to exceed Rs. 10.

25. No person shall bury, or cause to be buried, in any burial ground any corpse, or part of a corpse, in a grave not constructed of masonry which shall be less than six feet deep.

Penalty for infringement not to exceed Rs. 10.

26. No person shall build or dig, or cause to be built or dug, any grave in any burial ground at a less distance than two feet from any other existing grave.

Penalty for infringement not to exceed Rs. 20.

27. No person shall build or dig, or cause to be built or dug, a grave in any burial place in any other line than that marked out by the Commissioners.

Penalty for infringement not to exceed Rs. 20.

28. No grave once used shall be opened for the burial of another body without the permission of the Commissioners.

Penalty for infringement not to exceed Rs. 20.

29. No one shall carry a corpse, or part of a corpse, through any highway unless it be decently covered and totally concealed from public view.

Penalty for infringement not to exceed Rs. 10.

30. Every person who shall bring or convey, or cause to be brought or conveyed, any corpse, or part thereof, to any burning ground, shall completely burn, or cause the same to be completely burnt, within four hours after its arrival at the said burning ground.

Penalty for infringement not to exceed Rs. 20.

31. No person when burning, or causing to be burnt, any corpse, or part of a corpse, in any burning-ground shall permit the same, or any part thereof, to remain without being completely reduced to ashes, or shall permit the clothes or other articles connected with the burning of such corpse to remain at or near such burning ground unless the same be completely reduced to ashes.

Penalty for infringement not to exceed Rs. 20.

32. No person shall open any grave within six months of the burial of any body therein, or shall exhume any corpse, except with the written permission of the Commissioners.

NOTIFICATION.

The 29th June 1877.—The following bye-laws, framed by the Municipal Commissioners of Rungpore at a meeting under Section 313 of Act V (B.C.), 1876, having been confirmed by the Lieutenant-Governor under Section 314 thereof, are hereby published for general information :—

For Regulating the Time and Mode of Collecting Taxes.

1. Every officer authorized to collect taxes of any kind and grant receipts shall be provided with a certificate of such authority bearing the seal of the Municipality and signature of the Chairman. Every collecting officer at the time of demanding or receiving payment shall be bound to show this certificate, if required. On the suspension or dismissal of a collecting officer, the Vice-Chairman shall take back his certificate, and so destroy it that no future use can be made of it by any one.

2. Every person required in writing to furnish any schedule or return which the Commissioners may lawfully require him to furnish, shall send such schedule or return to the office of the Commissioners within one week from the date of the service of the requisition, in the manner described in section 367 of the Act. Any person failing to do so shall be liable to a penalty not exceeding Rs. 5 for the omission, and to a penalty not exceeding Rs. 2 for every day the omission shall, after warning, continue. Any person submitting a false or incorrect schedule or return shall be liable to a penalty of Rs. 20: provided that nothing in this bye-law shall be held to prevent the institution of a criminal prosecution under the Penal Code, should the facts appear to warrant such a proceeding.

3. Payment of purchase-money for property sold, and delivery of the property, shall be made immediately after the sale; and if the purchaser fail to pay the full amount of his bid, it shall be lawful for the distraining officer at his discretion to sell the property again on the same or any other day, and the first purchaser shall in such case be responsible to the Commissioners for any loss, which shall be recoverable as a debt due to them.

For Regulating the Conduct of Persons employed by the Commissioners.

4. All persons employed by the Commissioners whose services may be no longer required shall be liable to discharge after receipt of previous notice or pay in advance for the period of one month; and no such person shall withdraw from the duties of his office without having given previous notice for the period of one month, on pain of forfeiture of one month's salary.

5. All persons now holding, or who may hereafter be appointed to, any office under the Commissioners shall, when required so to do, furnish good security to such amount as the Commissioners may from time to time fix; and any person failing to furnish such security within reasonable time, or within such time as the Commissioners may appoint, shall be held to have thereby forfeited his appointment, and may be removed from office.

For Regulating the Disposal of Offensive Matter, Rubbish, and Dead Bodies of Animals.

6. Every person within whose premises any animal may die, unless he can bury the carcass at such depth below ground as may be determined upon hereafter by the Chairman, who shall specify certain depths for the burial of different species of animals, shall, within five hours of its death, or, if the death occurs at night, within two hours after daylight, either remove the carcass at his own expense to any of such places as may be set apart by the Commissioners for the reception of such carcass, or report its death to the conservancy overseer of the division within which such premises may be situated, and in such latter case shall pay to the said overseer the expense of removing the carcass, at such rate as the Commissioners may determine, and such expense shall be recoverable as a debt due to the Commissioners. In cases, if the owner of the premises is not the owner of the animal, and the owner is known, the latter shall alone be responsible for the payment of such expense. No overseer, when called upon, except at night, shall neglect to remove a carcass within three hours of receiving the information.

Penalty for infringement not to exceed Rs. 10.

7. Every owner or occupier of any house, land, or premises from which night-soil, filth, or any other offensive matter is not removed by the said owner or occupier shall give free access to the servants of the Municipality to his house, land, or premises, for the removal of such night-soil, filth, or other offensive matter, within such hours as may have been fixed by the Municipal Commissioners.

Penalty for infringement not to exceed Rs. 5.

8. Every person shall construct his privy above ground, and, when so required by notice, shall provide his privy or premises with a suitable moveable receptacle of metal or earthenware.

Penalty for infringement not to exceed Rs. 20.

9. On receipt of a notice from the Municipal Commissioners, every owner or occupier of any house, land, or premises in or on which any well-privy or other noxious or improperly constructed privy may be situated shall fill up, close, or otherwise alter the construction of the said privy as may be directed in the notice; and if the orders contained in the notice be not carried out within 15 days, the Commissioners may fill up, close, or otherwise alter the said privy, and any expense incurred in so doing shall be recoverable as a debt due to the Commissioners.

10. No owner or occupier of any house, land, or premises in or on which any privy may be situated shall allow night-soil or filth of any kind to flow or be discharged from such privy into any drain, water-course, river, tank, hollow, or excavation (or any place containing waste and stagnant water).

Penalty for infringement not to exceed Rs. 20.

11. No person shall throw, deposit, or discharge any night-soil, sewage, or the contents of any drain, privy, or cesspool into any river, tank, khal, water-course, or receptacle for water, or dispose of the above-mentioned kinds of offensive matter in any other way than as the Municipal Commissioners may from time to time direct.

Penalty for infringement not to exceed Rs. 20.

12. The Municipal Commissioners may direct the use of lime, coal-tar, carbolic acid, or other deodorants or disinfectants in any privy or premises if at any time it seem to them necessary for the preservation of public health or for the prevention of infection or spread of disease, provided that the Municipal Commissioners shall be bound to supply such deodorants, &c., at cost price, and the price shall be recoverable as a debt due to the Commissioners.

13. No person shall carry night-soil through the streets otherwise than in a closely covered receptacle of such description and pattern as shall be required from time to time by the Municipal Commissioners, and between such hours as the Municipal Commissioners may from time to time direct.
